
🎵 Official Recruitment | Aren Music Hub

A Sonic Division of MEGA HOLDING | GOD AI FATHER
Pioneering the Future of Music through Artificial Intelligence, Emotional Composition, and Sonic Identity Engineering

Aren Music Hub blends art, neuroscience, and AI to create a full-stack intelligent music ecosystem—from composition and sound design to emotional patterning and global music analytics.

Our goal is to **reinvent the way music is created, experienced, and distributed** using next-gen tools and soul-based AI frameworks.

Key Positions Include:

1. AI Composer & Sound Pattern Architect

- Generate AI-driven compositions tailored to emotion, tempo, and narrative
 - Tools: AIVA, Orb Composer, DAWs + custom AI prompts
 - Experience: Cross-genre music composition
-

2. Sonic Identity Director

- Design unique sound signatures for brands, artists, and virtual entities
 - Tools: Reaktor, Omnisphere, Sonic DNA Profilers
 - Experience: Audio branding, sound anthropology
-

3. Music Emotion Mapping Specialist

- Classify melodies based on emotional triggers and neural responses
 - Tools: EMG/EEG AI overlays, Mood Classifiers
 - Experience: Music cognition, neuroaesthetics
-

4. AI Vocal Producer & Voice Designer

- Develop synthetic and enhanced human–AI vocals

- Tools: Vocaloid, Synthesizer V, Melodyne
 - Experience: Vocal engineering, AI voice models
-

5. Music Psychologist

- Research how music affects behavior, memory, and mental health
 - Tools: Music therapy models, affective analysis platforms
 - Experience: Clinical music therapy or academic psychology
-

6. Experimental Instrument Developer

- Create physical or digital instruments with new soundscapes
 - Tools: Modular synthesis kits, Arduino, sensor-based tech
 - Experience: Instrument design or experimental music
-

7. AI-Enhanced Mixing Engineer

- Perform precision mixing using AI-assisted audio segmentation
 - Tools: iZotope Neutron, Gullfoss, AI EQ engines
 - Experience: Multi-track mixing with automation tools
-

8. Music Genre Forecast Analyst

- Predict emerging genres and sonic shifts worldwide
 - Tools: Spotify Data API, Soundcloud Trends, AI pattern engines
 - Experience: Data journalism or music ethnography
-

9. Multi-Language Lyricist & Narrative Engineer

- Write lyrics aligned with emotional AI and cultural nuance
 - Tools: Semantic analyzers, rhyme AI tools
 - Experience: Poetic composition across languages
-

10. Adaptive Soundtrack Designer (for Games/Apps)

- Compose reactive audio systems that shift with user action
- Tools: FMOD, Wwise, real-time event triggers

- Experience: Dynamic scoring in interactive media
-

11. Music Data Scientist

- Analyze streaming behavior, listener preferences, and market analytics
 - Tools: Python, SQL, Dashboards, MusicBrainz
 - Experience: Streaming platform insights or music startups
-

12. Audio Rights & Licensing Expert

- Manage IP ownership, AI-generated music legality, global sync rights
 - Tools: Music licensing platforms, Legal AI Tools
 - Experience: Music law or licensing agencies
-

13. Cultural Sound Curator

- Archive, restore, and reinterpret traditional sounds with AI techniques
 - Tools: Audio restoration tools, ethnographic datasets
 - Experience: World music, cultural preservation
-

14. AI DJ & Live Performance Designer

- Build hybrid human-AI live shows with real-time set evolution
 - Tools: Traktor Pro, AI loopers, MIDI choreography
 - Experience: Live mixing + performance engineering
-

15. Sound Therapist & Meditation Sound Designer

- Develop healing frequencies, sonic rituals, and brainwave-matched sequences
 - Tools: Binaural generators, Solfeggio tuners
 - Experience: Sound healing or mental health practices
-

16. Immersive Audio Specialist (8D/Spatial/XR Sound)

- Build 360° sound for VR, AR, and smart environments
- Tools: Dolby Atmos, Unity Audio Engine, ambisonics
- Experience: 3D audio production

17. Musical AI Ethics & Authenticity Researcher

- Explore issues of originality, authorship, and emotion in AI-made music
 - Tools: Textual analyzers, public response analysis
 - Experience: Philosophy of AI, cultural theory
-

18. Music Video Conceptual Director (AI + Real Footage)

- Craft narratives where visual rhythm and sound are deeply intertwined
 - Tools: Runway ML, Adobe Premiere Pro, Stable Video Diffusion
 - Experience: Music video production with experimental formats
-

19. Sonic Branding Strategist

- Lead audio identity across platforms, products, and personalities
 - Tools: Audio logo builders, sonic consistency maps
 - Experience: Brand storytelling through sound
-

20. Virtual Artist Manager & Identity Builder

- Create and manage fully AI-generated music personas
 - Tools: AI avatars, content schedulers, vocal synth integration
 - Experience: Artist development + digital performance
-

21. Cross-Cultural Song Translation Specialist

- Translate lyrics while preserving rhythm, rhyme, and emotional tone
 - Tools: AI-assisted translation platforms + lyrical structure engines
 - Experience: Song adaptation across languages
-

💰 Base Salary: €6,400 / month

Final compensation will reflect artistic range, emotional depth, technical mastery, and cultural fluency.
