

### Attention to AI Automated Review and Document Validity

All applicants are strongly advised not only to carefully review the ENTRY TERMS section prior to resume submission but also to ensure the complete accuracy and validity of all documentation and claims included in their resume.

Submitted resumes will first undergo rigorous screening and verification by the Specialized AI Assessment System (God AI Father). In the event of any dishonesty, discrepancies, or lack of validated credentials, the applicant's evaluation process will be automatically terminated, and their resume will be immediately disqualified and removed before being forwarded to the Human Resources Board.

Therefore, we emphasize that only applicants presenting completely honest and verified information will successfully pass the initial stages and be considered for review by the human team.

🐾 Kindly ensure that your professional resume and application documents are directed only to the official company mailbox: [Godaifather@gmail.com](mailto:Godaifather@gmail.com) ✉
