

Migration Guide: In-House Team Members

Are you a **legacy Editor user** who accesses a **site hosted in your team's Workspace**? Here's what to do at each milestone.

**Starting
February 2,
2026**

No action needed

**Starting
May 4,
2026**

Accept the invite

As part of the automatic migration, you'll receive an email within two weeks inviting you to join your team's Workspace through a **limited seat**. Follow the link in the email to accept and create your Webflow account. Note: Your old legacy Editor login won't carry over — it's part of a separate system.

Explore the new role

You can continue to use the legacy Editor prior to August 4, 2026. But we recommend getting familiar with your newly assigned role from your **limited seat** now. Check out the resources in the [Migration Hub](#) to get started.

**Starting
August 4,
2026**

Log in from [webflow.com](#)

After the deprecation is complete, you'll only have access to your **limited seat** role. You can access your site by adding `?update` to the end of your live site's URL or by clicking the pencil icon overlaid on your canvas (see image below).
