

**HKIDA Event Report Summary on  
Professional Enhancement Programme for Interior Designers through Continuing  
Professional Development**

**Project Summary**

The major objectives of the project are to –

1. Further enhance Hong Kong's interior designers' skills and knowledge;
2. increase the competitiveness of the Hong Kong interior design industry in the region; and
3. Promote the development of professionalism in interior design and lay down the professional standards in interior design services in Hong Kong and beyond.

**Project Deliverables**

HKIDA completed the following events in this project:

- 2 CPD modules: Module 3 – Human Environment Needs; Module 4 – Professionals.  
The module e-copies can be download at HKIDA website
- 2 CPD training workshops (total six sessions of webinar)

The development of the CPD modules will promote the development of professionalism in interior design and lay down the professional standards of interior design services in Hong Kong and beyond. The project also aims to enhance the professional knowledge of Hong Kong's interior designers through continuing professional development workshops, which helped explore the latest developments in technology and trend for the interior design sector.

The whole project completed on 31 August 2022, event photos & videos are available on HKIDA website.
