

Glosswood x Imbue™ Collaboration

LINING BOARDS - PLANAR

Imbue Radiata is crafted from tempered, clear-grade FSC®-certified New Zealand Radiata Pine. Through advanced heat tempering, the timber undergoes a natural transformation that enhances durability, dimensional stability, and aesthetic appeal.

Key Features:

- Naturally beautiful chocolate-brown colour
- No chemical preservatives required
- Enhanced stability with reduced movement
- Minimized resin bleed in service
- Improved thermal properties
- A renewable, carbon-storing material

Imbue Radiata combines sustainability with architectural performance, offering designers and builders a refined, versatile timber solution.

Sustainably Sourced Timber

Made From Fsc® Certified New Zealand Plantation Timber.

Naturally durable & stable

Timber is heat and steam-treated that enhances durability and dimensional stability
