The Mecca Bingo New Player Welcome Bonus is for new customers only who sign up on Meccabingo.com and are aged 18 years or over. To qualify, you must accept the bonus and make a first deposit of at least £10 within seven days of registration. Your initial spend on selected bingo games must also be £10 or more during this period. This promotion isn't available to customers who use Paypal or Paysafe for their first deposit. Selected Bingo Games include 75 Jive Talking, Cashline, Firecracker, and others, excluding Deal or no Deal 75 and 90 rooms. The £40 Bingo Bonus can be used on bingo only and must meet a 5x wagering requirement before winnings are withdrawable. You have 28 days to complete the wagering requirements, after which the bonus expires and any remaining balance is forfeited. If you have an active cash balance, wagers will first be taken from that balance followed by your bonus balance, unless pending winnings take precedence. Upon withdrawal of funds from your Cash Balance, any unmet wagering requirements on Bonus Balance are forfeited. 50 Free Spins are available on King Kong Cash Even Bigger Bananas and expire after 21 days. There's no wagering requirement for Free Spin winnings. A £20 Club Bonus is also offered, with a voucher sent via email within 72 hours of qualifying. This voucher can be redeemed in club only, has no cash value, and must be claimed within specified dates. Only one new Player Welcome Bonus per person is permitted. We need a valid identity document like a passport or proof of address to verify who you are and how long you live here. If we check your documents and find out that you broke some rules on our website, you will not get any prizes. If your account is closed or suspended, the prize will be taken away too. If someone told you before that they can't get a bonus, they still won't be able to play in this promotion. If we find out that someone made an error and was allowed to play, we'll take back the bonus and any winnings that came with it. Sometimes we have to stop your account because of rules. This might make it harder for you to play new games or get bonuses. But if you're already playing a game to get a bonus, this won't change anything. If someone cheats or tries to trick us, they'll lose their bonus and any winnings. We also reserve the right to stop the promotion if we need to. This won't affect people who already played the game. We can tell if someone is trying to cheat by looking at how they play the game. If you do this, your bonus will be taken away.
