

SHARP

Be Original.

MX-B468F

Digital Multifunctional System

Easy and Reliable—
Just What Your Office Needs

Space-Saving Design

With its small footprint* of 389 x 374 mm, this MFD will easily find a niche in your SOHO or larger office. Simply place it on a desk, under a counter, or anywhere that space is limited.

* The numerical value is for the MFD's base unit only.

Front USB Port

At the front of the MFD is a USB port, which comes in handy when printing directly from a USB drive—an indispensable function for users who want quick machine access without a PC.

Ample Paper Capacity

A 550-sheet tray and a 100-sheet multipurpose feeder come standard. Optional 550-sheet trays are available for a total paper capacity of 2,300 sheets.

Energy Efficient

This MFD comes with scheduled power modes and other energy-management features that reduce power consumption both during active use and during sleep mode.

Packed with work-savvy features

Give your workflow a boost with a space-saving document solution that does it all with zero fuss. Easy, reliable operation is a hallmark of this MFD. It comes with a full-flat LCD panel that puts popular functions at your fingertips. It also offers convenient cloud connectivity as well as advanced security features to keep your information safe. Optional add-ons like a handy stapler, wireless LAN, and extra paper trays let you customise the setup to suit your needs.

Wireless LAN Connections*

An optional wireless LAN is available that conforms to the IEEE 802.11 a/ac/b/g/n standards. This lets you connect to the MFD via network infrastructure or via Wi-Fi Direct® for mobile devices. Wi-Fi Direct allows peer-to-peer connection with compatible PCs and mobile devices. This comes in handy when you need quick access to an MFD—for example, when a client is visiting your office. Because this wireless LAN is independent from an in-house network, you don't need to worry about security. What's more, it supports dual-band connectivity for both 2.4 GHz and 5 GHz wireless networks.

* Requires optional 27X6430.

Cloud Service Connectivity

Directly from its control panel, the MFD can connect to popular cloud services such as OneDrive for Business, Google Drive™, Box, and Dropbox. You can easily print from the cloud or scan and upload to it.

AirPrint Compatible

The MFD supports the AirPrint printing feature in Apple's iOS and macOS operating systems. AirPrint automatically detects MFDs and printers on the same network. It then lets you print directly from a mobile device without the need for a printer driver.

Easy-to-Use Interface

Operating the MX-B468F is easy and intuitive with the full-flat 4.3-inch colour LCD touchscreen. In Easy UI mode, the touchscreen displays simple icons for frequently used functions. And with the Preview function*, you can check the finish of a print and scan job in advance.

* Requires optional 27X0400 or 57X9528.

Remote Operation

Working from an office-networked PC or a mobile device, users and/or administrators can remotely view the MFD's control panel and operate its features and functions.

Device Management

Sharp Remote Device Manager* (SRDM) gives administrators centralised control of their networked MFDs and printers. This software covers system setup, security settings, troubleshooting, and more.

* Contact a Sharp customer representative for availability and other details.

Enhanced Security

A wide range of security features help to keep your information safe, whether it's in a document, on the device, or over your network. The Trusted Platform Module (TPM) provides authentication, system integrity checks, and advanced encryption capabilities. As well as improving security for certificates and encryption keys, TPM adds an extra layer of protection by storing hard drive encryption keys separately from your data.

Versatile Paper Handling

With the multipurpose feeder, the MFD can handle a wide variety of paper—including cardstock, envelopes, and small media like A6-size paper.

Handy Stapler

An easy-to-install optional stapler* lets you manually staple up to 20 sheets at the MFD without the need for a conventional stapler.

* Requires a separate power supply.

ID Card Copy

The MFD lets you easily copy both sides of a card (ID cards, credit cards, etc.) onto a single page.

Office Direct Printing*

Print common Microsoft Office files without using a PC. With this MFD, you can print a Word, Excel, or PowerPoint file directly from a mobile device, USB drive, or file server.

* The actual printout may look different from what is displayed on the computer screen.

Printer Driver with Easy Setup

The printer driver setup window features a simple design that includes larger buttons and drop-down menus, making it easier than ever to use printer functions.

Quick Scanning

The MFD comes equipped with a highly efficient 100-sheet DSPF (duplex single pass feeder), which scans both pages of two-sided documents in one pass. With a scanning speed of up to 49 opm* (one-sided) or 98 opm* (two-sided), the MFD can finish even large projects quickly.

* Originals per minute; when feeding A4 sheets in B/W

Multiple Scan Destinations

Scanned documents can be distributed in a number of ways. For example, they can be sent as email attachments or they can be scanned directly to an FTP server for storage. An optional compact PDF* function ensures that PDF files are sent and received smoothly.

* Requires optional 27X0400 or 57X9528.

Convert Documents via OCR*

Optional OCR capability on this MFD lets you convert a scanned document into a searchable PDF file or into an editable Microsoft Office Word or Excel file. This means you can do speedy text searches, even with large-volume documents, and you can easily copy and paste text data into other applications.

* Requires optional OCR application and ISD/HDD. Contact a Sharp customer representative for details.

Business Card Management

Creating and managing a database of business cards is easy with this MFD. It reads contact details on each card via OCR and then exports those details to a third-party contact management system of your choice.

Convenient Faxing

The MFD supports colour faxes, paperless faxing, and other convenient functions. You can forward faxes to a pre-designated location, such as an FTP server, network folder, or email. This means you can check faxes even when you're out of the office. You can also block junk faxes, allowing you to save on wasted paper and toner. And, for extra security, you can hold incoming fax data and print it out at a time that suits you.

SPECIFICATIONS

General		Printer	
Type	Desktop	Resolution	1,200 x 1,200 dpi, 2,400 (equivalent) x 600 dpi, 1,200 (equivalent) x 600 dpi, 600 x 600 dpi, 300 x 300 dpi
Engine speed	A4*1: Max. 44 ppm	Interface	USB 2.0 (host, high-speed), 10Base-T/100Base-TX/1000Base-T, wireless LAN (IEEE 802.11 a/ac/b/g/n)*8
Control panel display	4.3-inch colour LCD touchscreen	Supported OS	Windows Server 2012 R2, Windows Server 2016, Windows Server 2019, Windows Server 2022, Windows 8.1, Windows 10, Windows 11
Paper size	Max. A4, min. A6	Mac OS	10.15, 11, 12, 13, 14
Paper capacity	Standard: 650 sheets	Network protocols	TCP/IP
(75 g/m²)	(550-sheet tray and 100-sheet multipurpose feeder)	Printing protocols	LPD, Raw TCP (port 9100), enhanced IP (port 9400), FTP, TFTP, IPP
	Maximum: 2,300 sheets	PDL	PCL 5e/PCL 6 emulation, PostScript 3 emulation
	(650 sheets & optional 550-sheet tray x 3)	Available fonts	94 fonts for PCL, 163 fonts for PostScript 3 emulation
Paper weight	Trays 1-4: 60 g/m² to 120 g/m²		
	Multipurpose feeder: 60 g/m² to 220 g/m²		
Memory	Standard: 2 GB		
	Option: 128 GB ISD*2 500 GB HDD*2		
Dimensions (W x D x H)	479 x 450 x 513.7 mm		
Weight (approx.)	21.2 kg		
Copier		Facsimile	
Original paper size	Max. A4	Compression method	MH/MR/MMR/JBIG/JBIG2/JPEG
First copy time*3	6 sec.	Communication protocol	Super G3/G3
Continuous copy	Max. 9,999 copies	Transmission time	Less than 3 seconds*9
Resolution	Max. 600 x 600 dpi	Modem speed	33,600 bps with automatic fallback
Zoom range	25% to 400% in 1% increments	Transmission resolution	B/W: From Standard to Ultra Fine
Preset copy ratios	6 ratios (2R/4E)		Colour: From Fine to Super Fine
		Recording size	A4 to A6
		Memory	18 MB (built-in)*10
Scanner			
Scan method	Push scan (via control panel)		
	Pull scan (TWAIN-compliant application)		
Scan speed**	[Colour] One-sided: Max. 34 originals/min.		
	Two-sided: Max. 68 originals/min.		
	[B/W] One-sided: Max. 49 originals/min.		
	Two-sided: Max. 98 originals/min.		
Resolution	Push scan: 75, 150, 200, 300, 400, 600 dpi		
	Pull scan: 75, 150, 200, 300, 400, 600 dpi		
File formats	TIFF, PDF, PDF/A-1a, PDF/A-1b, encrypted PDF, XPS, compact PDF*5*6, JPEG*6, searchable PDF*7, DOCX*7, XLSX*7, CSV*7, text (TXT)*7, rich text (RTF)*7		
Scan destinations	Scan to email/FTP server/USB drive/network folder (SMB)/ISD/HDD*5		

*1: Short-edge feeding.

*2: ISD/HDD capacity depends on procurement and sourcing status.

*3: Short-edge feeding of A4 sheets from 1st paper tray, using document glass, MFD in fully ready condition. May vary depending on operating conditions and environment.

*4: Scan speed will vary depending on the type of document, scan settings, operating conditions, and environment.

*5: Requires optional ISD/HDD.

*6: Colour/greyscale only.

*7: Requires optional OCR application with ISD/HDD. Contact a Sharp customer representative for details.

*8: Optional.

*9: Based on ITU-T test chart #1 at 33,600 bps.

*10: Faxes are stored on an optional ISD/HDD (if installed). Fax storage is 1 GB less than total hard drive capacity.
