This perception was likely rooted in societal norms that viewed women's roles as limited to domestic duties, and espionage was often associated with masculine professions. The main idea of this speech is that individuals who focus solely on evil are themselves becoming forces of evil. Roosevelt emphasizes the importance of balance and moral integrity in making decisions. The audience members who heard this speech probably felt that Roosevelt was genuinely concerned about their well-being and was urging them to adhere to a higher standard of conduct. Roosevelt encourages muck-rakers, those who sensationalize scandals for profit, to use their profession for more positive endeavors by focusing on truth rather than falsehoods. The purpose of Roosevelt's speech can be seen as an appeal for average Americans to demonstrate integrity in their daily lives and resist the temptation of tabloid journalism and corporate greed. It is clear that Roosevelt views muck-rakers as being more interested in sensational details than genuine reform, which contributes to the public's erosion of moral standards. The tone of Roosevelt's speech can be described as moralistic, with a strong emphasis on the importance of personal responsibility and emotional restraint. Roosevelt argues that the damage caused by excessive criticism and condemnation, rather than constructive feedback, can lead to the searing of the public conscience. To address the problem of muck-raking, Roosevelt suggests that journalists should strive for emotional restraint and common sense in their reporting. Ultimately, Roosevelt's speech raises a fundamental question about the role and responsibilities of journalists in a free society, where the pursuit of truth is paramount.Studypool is a platform where users can sharve ther own contens, lik videos and document, with the intention of sharving kewledge. It is impotint to us all the studypool's honour code & terms of servise befor uploading any conten.
