

Class 2 Addition and Subtraction Worksheet

Name: _____

Date: _____

Total Marks: 24

🎯 What are Addition and Subtraction?

Addition means putting things together!

When we add, we combine groups to find out how many we have in total. We use the + sign.

Example: $5 + 3 = 8$ (5 apples plus 3 apples equals 8 apples)

Subtraction means taking away!

When we subtract, we remove some from a group. We use the - sign.

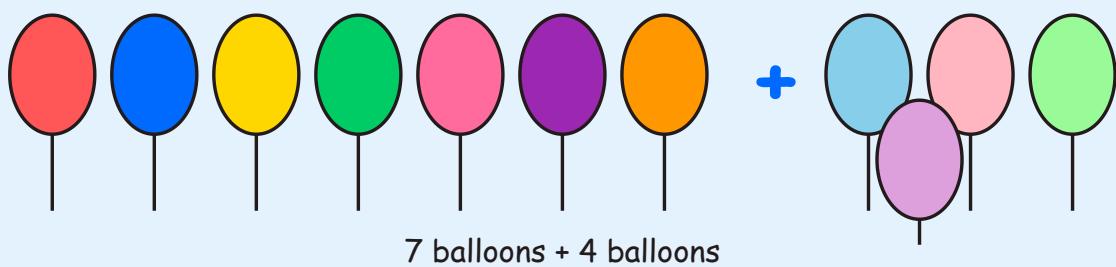

Example: $8 - 3 = 5$ (8 apples minus 3 apples equals 5 apples)

THINKING

Sample Problem

Problem: Riya has 7 balloons. Her friend gives her 4 more balloons. How many balloons does Riya have now?

Solution:

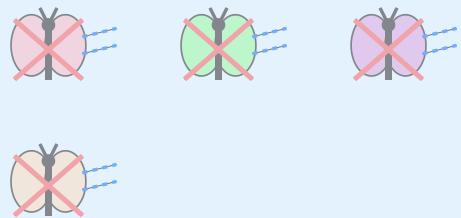

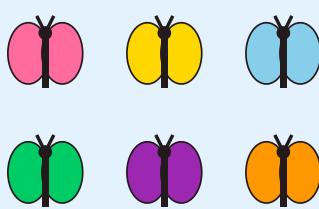

Riya's balloons: 7; Friend's balloons: 4

Addition: $7 + 4 = 11$

Answer: Riya has 11 balloons now! 

 Sample Problem - Subtraction

Problem: There are 10 butterflies in the garden. 4 butterflies fly away. How many butterflies are left in the garden?

10 butterflies: 6 remain in garden and 4 butterflies fly away

Solution:

Total butterflies: 10; Butterflies that flew away: 4

Subtraction: $10 - 4 = 6$

Answer: 6 butterflies are left in the garden! 

Part A: Warm-up Questions

 Easy Level

1. Add: $5 + 3 =$ _____

2. Subtract: $9 - 4 =$ _____

3. True or False: $6 + 2 = 8$

- True
- False

4. Count the mangoes and write the answer:

_____ mangoes

THINKING

5. Fill in the blank: $4 + \underline{\hspace{1cm}} = 7$

JUGGERNAUT

6. Add: $10 + 5 = \underline{\hspace{1cm}}$

7. Subtract: $12 - 3 = \underline{\hspace{1cm}}$

8. Which is greater? Circle the correct answer.

$8 + 2$ OR $15 - 4$

Part B: Practice Questions

★★ Medium Level

9. Rahul has 8 pencils. He gives 3 pencils to his friend. How many pencils does Rahul have left?

10. Match Column A with Column B:

Column A	Column B
a) $7 + 5$	i) 10
b) $14 - 4$	ii) 12
c) $8 + 4$	iii) 8

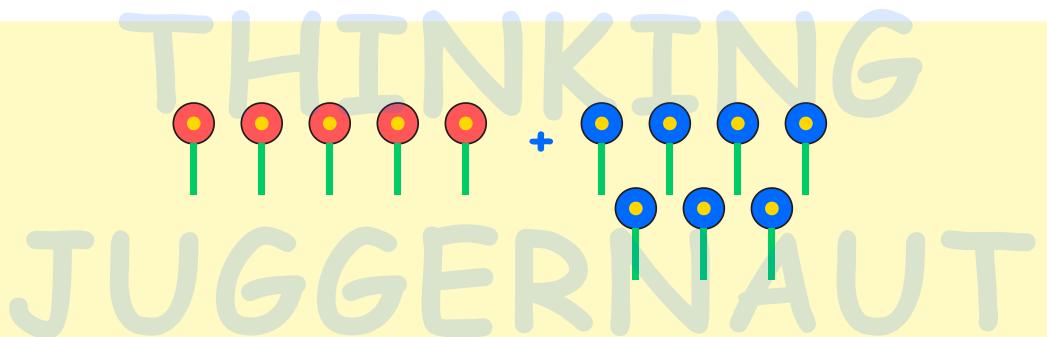

Write your answers: a-____, b-____, c-____

11. True or False: $15 - 7 = 9$

- True
- False

12. There are 13 birds sitting on a tree. 6 birds fly away. How many birds are left on the tree?

13. Look at the picture and write the addition:

14. Add: $16 + 8 = \text{___}$

15. Fill in the blank: $18 - \text{___} = 11$

16. Priya buys a notebook for ₹12 and a pen for ₹5. How much money does she spend in total?

17. Solve: $20 - 9 =$ _____

18. Complete the pattern: 3, 6, 9, 12, _____, _____, _____

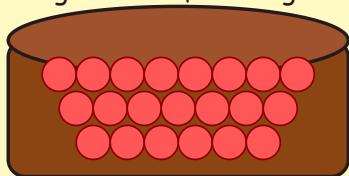

Part C: Challenge Questions

★★★ Hard Level

19. A fruit seller has 25 apples. He sells 12 apples in the morning and 8 apples in the evening. How many apples are left?

Total: 25 apples

Morning: 12 sold | Evening: 8 sold

Morning
- 12

Evening
- 8

20. Fill in the missing numbers:

$$\underline{\quad} + 9 = 17$$

$$14 - \underline{\quad} = 6$$

$$\underline{\quad} + 12 = 20$$

21. Amit had some marbles. He got 15 more marbles from his friend. Now he has 28 marbles. How many marbles did Amit have in the beginning?

22. True or False: When we add two numbers, the answer is always bigger than both numbers.

True False

Explain your answer: _____

23. Look at the toys in the shop:

Sita has ₹50. She buys the car and the ball.
How much money is left with Sita?

24. Create your own word problem using addition and subtraction, then solve it:

My Problem:

Answer:

| Answer Key

Part A: Warm-up Questions

1. 8

2. 5

3. True

4. 4 mangoes ($6 - 2 = 4$)

5. 3

6. 15

7. 9

8. 15 - 4 is greater ($8 + 2 = 10$, $15 - 4 = 11$)

Part B: Practice Questions

9. $8 - 3 = 5$ pencils

10. a-ii (12), b-i (10), c-ii (12) - Note: a and c both equal 12

11. False ($15 - 7 = 8$, not 9)

12. $13 - 6 = 7$ birds

13. $5 + 7 = 12$ flowers

14. 24

15. 7

16. $\text{₹}12 + \text{₹}5 = \text{₹}17$

17. 11

18. 15, 18, 21 (pattern: adding 3 each time)

Part C: Challenge Questions

19. Total sold: $12 + 8 = 20$; Apples left: $25 - 20 = 5$ apples

20. $8 + 9 = 17$; $14 - 8 = 6$; $8 + 12 = 20$

21. $28 - 15 = 13$ marbles (Amit had 13 marbles in the beginning)

22. False (When we add 0 to a number, the answer stays the same. Example: $5 + 0 = 5$)

23. Car + Ball = $\text{₹}35 + \text{₹}15 = \text{₹}50$; Money left = $\text{₹}50 - \text{₹}50 = \text{₹}0$

24. Student's own creative answer (should include both addition and subtraction)

Scoring Guide

Total Questions: 24 | Total Marks: 24

Score
Range

Performance
Level

What to Do Next

20-24	★★★ Excellent!	You're amazing at addition and subtraction! Try harder problems.
15-19	★★ Very Good!	Great job! Practice a bit more to become perfect.
10-14	★ Good Effort!	Keep practicing! You're improving every day!
0-9	Keep Trying!	Don't worry! Practice more and ask for help when needed.

Tips for Improvement:

- Practice addition and subtraction every day with real objects
- When adding, count forward. When subtracting, count backward
- Remember: Adding 0 to any number gives the same number ($5 + 0 = 5$)
- Remember: Subtracting 0 from any number gives the same number ($8 - 0 = 8$)
- Use your fingers or draw pictures to help you solve problems
- Check your answers by doing the opposite operation

✨ Great Job Completing This Worksheet! ✨

Keep practicing and you'll become a math champion!
