

Class 6 Data Handling Worksheet

By Thinking Juggernaut

Subject: Mathematics

Topic: Data Handling

Questions: 20

Time: 60 mins

🎯 What is Data Handling?

Data is a collection of information such as numbers, words, measurements, observations, or descriptions of things. **Data Handling** means collecting, organizing, and presenting this data in a way that makes it easy to understand.

Why do we collect data? We collect data to answer questions, make decisions, and understand patterns. For example: How many students like different sports? What is the most popular fruit? Which month has the highest rainfall?

📋 Ways to Organize Data

1 Tally Marks

Tally marks are used to count things quickly. Every four marks are crossed by a fifth mark.

I = 1 II = 2 III = 3 IIII = 4 IIII = 5

2 Pictographs

A pictograph uses pictures or symbols to represent data. Each symbol represents a certain number of items.

Example: Books Read by Students

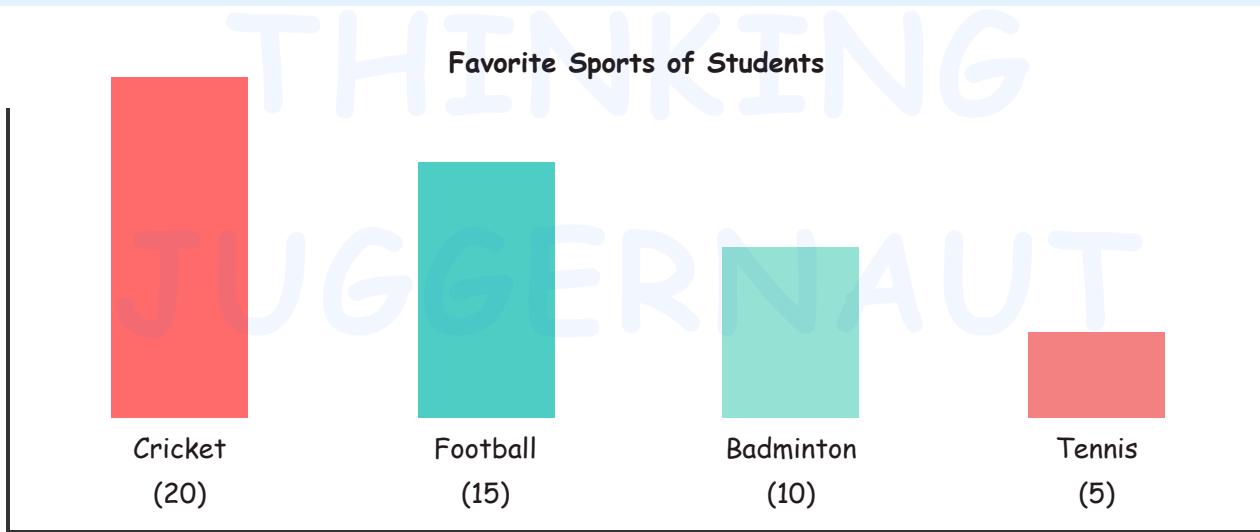

Student	Books Read

Aman	
Priya	
Rohan	

Key:  = 1 book

3 Bar Graphs

A bar graph uses rectangular bars to show data. The height or length of each bar represents the value.

Practice Questions

★ Section A: Easy Questions (1 mark each)

Q1. What do tally marks help us do?

Q2. In a pictograph, if  = 2 stars, how many items do  represent?

Q3. The following tally marks show students who like ice cream:  How many students like ice cream?

Q4. Complete the table by writing the number for each tally mark:

Color	Tally Marks	Number
Red		
Blue		
Green		

Q5. Look at this pictograph showing fruits sold:

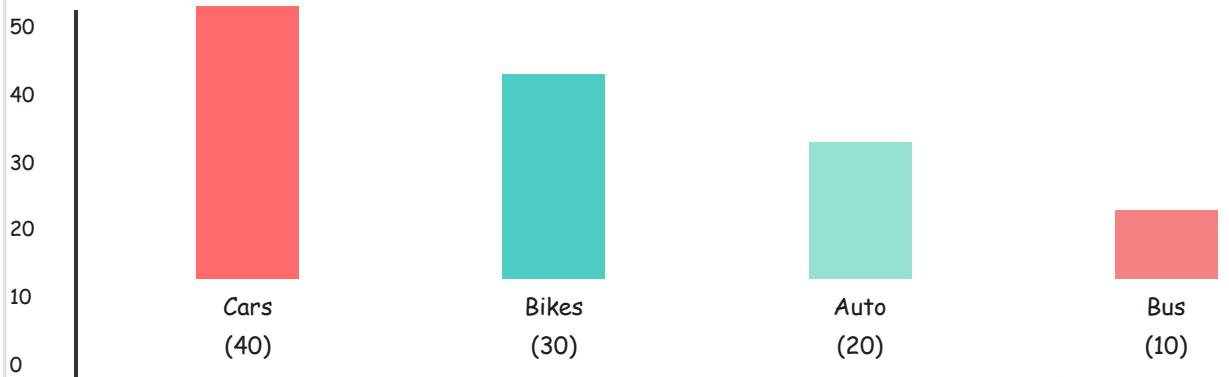

Fruit	Number Sold
Apples	
Bananas	
Oranges	

Key: Each symbol = 2 fruits

- How many bananas were sold?
- Which fruit was sold the least?

★★ Section B: Medium Questions (2 marks each)

Q6. The bar graph shows the number of vehicles passing a crossing in one hour:

- Which vehicle passed the most?
- How many more cars passed than buses?
- What is the total number of vehicles that passed?

Q7. A survey was done on favorite colors. Make a tally chart:

Red, Blue, Red, Green, Blue, Red, Yellow, Blue, Red, Green, Blue, Red, Red, Yellow

Color	Tally Marks	Number
Red		
Blue		
Green		
Yellow		

Q8. The pictograph shows toys collected for donation:

Day	Toys Collected
Monday	🐻🐻🐻
Tuesday	🐻🐻🐻🐻🐻
Wednesday	🐻🐻
Thursday	🐻🐻🐻🐻

Key: 🐻 = 5 toys

- On which day were the maximum toys collected?
- How many toys were collected on Monday?
- What is the total number of toys collected in 4 days?

Q9. The marks obtained by 5 students in a test are: 18, 16, 19, 17, 20

- Arrange the marks in ascending order
- Who scored the highest marks if the marks belong to Amit, Neha, Raj, Sneha, and Vikram respectively?
- What is the difference between highest and lowest marks?

Q10. Create a pictograph for the following data about pets owned by students:

Dogs: 8, Cats: 6, Rabbits: 4, Birds: 10

Use 🐾 to represent 2 pets

★★★ Section C: Challenging Questions (3 marks each)

Q11. The table shows rainfall (in cm) in different months:

Month	Rainfall (cm)
June	15
July	25
August	30
September	20

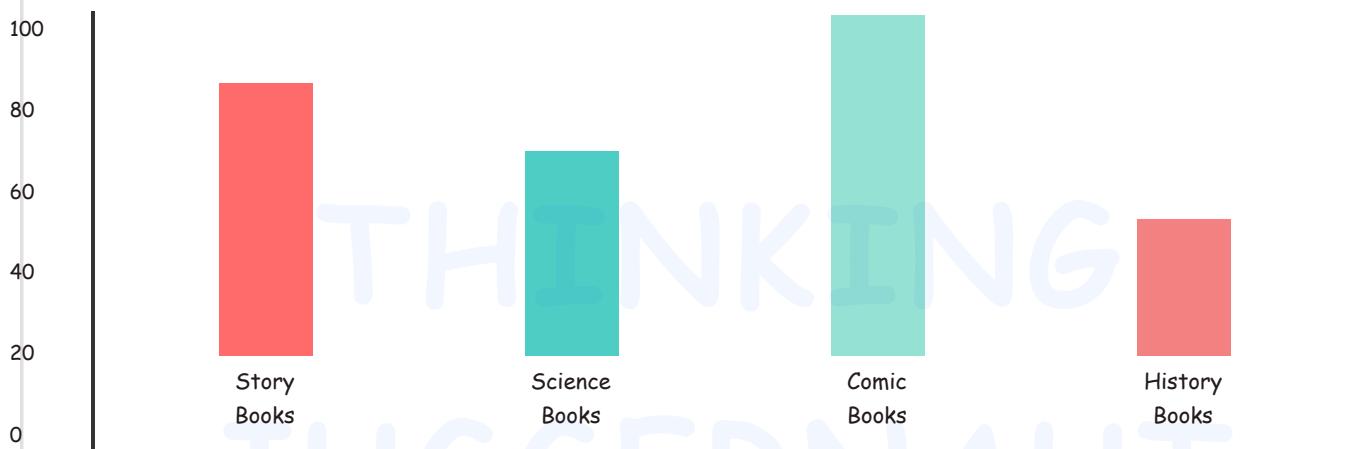

- a) Draw a bar graph for this data (use scale: 1 cm = 5 cm rainfall)
- b) Which month had the highest rainfall?
- c) What is the total rainfall in these 4 months?

Q12. A class of 30 students voted for their favorite subject. The results were:

Math: 12 students, Science: 8 students, English: 6 students, Social Studies: 4 students

- a) Make a tally chart for this data
- b) Which subject is most popular?
- c) How many more students like Math than Social Studies?
- d) Create a pictograph using 😊 = 2 students

Q13. Look at the bar graph showing books in a library:

- a) How many Comic Books are there?
- b) Which type of book is least in number?
- c) What is the difference between Story Books and Science Books?
- d) If 20 more Science Books are added, how many will there be in total?

Q14. A shopkeeper recorded the number of cold drinks sold each day of the week:

Day	Mon	Tue	Wed	Thu	Fri	Sat
Drinks Sold	45	50	35	60	55	70

- a) On which day were maximum drinks sold?
- b) On which day were minimum drinks sold?
- c) How many drinks were sold on Tuesday and Thursday together?
- d) What is the total number of drinks sold in the week?

Q15. The pictograph shows the number of goals scored by different players:

Player	Goals
Rohit	● ● ● ●
Virat	● ● ● ● ● ●
Hardik	● ●
Shikhar	● ● ● ● ●

Key: ● = 3 goals

- a) Who scored the maximum goals?
- b) How many goals did Rohit score?
- c) How many more goals did Virat score than Hardik?
- d) What is the total number of goals scored by all players?

 Application-Based Questions (3 marks each)

Q16. A survey was conducted in a class about students' favorite ice cream flavors. The data collected was: Chocolate - 15, Vanilla - 10, Strawberry - 8, Mango - 12.

- a) Organize this data in a table
- b) Create a pictograph using 🍦 = 2 students

- c) Which flavor is most popular?
- d) How many students were surveyed in total?

Q17. The temperature in a city was recorded for 6 days: Monday (25°C), Tuesday (28°C), Wednesday (30°C), Thursday (27°C), Friday (32°C), Saturday (29°C).

- a) On which day was it hottest?
- b) On which day was it coolest?
- c) What is the difference between the hottest and coolest days?
- d) Draw a bar graph for this data (use scale 1 cm = 5°C)

Q18. A fruit seller sold the following fruits in a day:

Apples: 24, Bananas: 36, Oranges: 18, Grapes: 30

- a) If you make a pictograph with  = 6 fruits, how many symbols will you draw for each fruit?
- b) Which fruit was sold the most?
- c) How many more bananas were sold than oranges?
- d) Create the pictograph

Q19. The number of visitors to a zoo on different days:

Day	Monday	Tuesday	Wednesday	Thursday	Friday
Visitors	150	200	180	160	220

- a) Draw a bar graph for this data (use scale 1 cm = 50 visitors)
- b) Which day had the maximum visitors?
- c) What is the total number of visitors for the week (Monday to Friday)?
- d) If on Saturday 250 visitors came, how many more came on Saturday than Monday?

Q20. A class collected waste paper for recycling. The data for 5 weeks is:

Week 1: 12 kg, Week 2: 15 kg, Week 3: 18 kg, Week 4: 10 kg, Week 5: 20 kg

- a) Make a table to organize this data
- b) In which week was maximum paper collected?
- c) In which week was minimum paper collected?
- d) What is the total paper collected in 5 weeks?
- e) Draw a bar graph for this data

✓ Answer Key

Q1. Tally marks help us count things quickly and keep track of data as we collect it.

Q2.  $3 \times 2 = 6$ items

Q3.    $5 + 5 + 3 = 13$ students

Q4.

Color	Tally Marks	Number
Red		7
Blue		10
Green		4

Q5.

- a) Bananas sold $= 6 \times 2 = 12$ bananas
- b) Oranges were sold the least

Q6.

- a) Cars passed the most (40 cars)

b) Cars more than buses = $40 - 10 = 30$ vehicles
 c) Total vehicles = $40 + 30 + 20 + 10 = 100$ vehicles

Q7.

Color	Tally Marks	Number
Red	I	6
Blue		5
Green	II	2
Yellow	II	2

Q8.

a) Maximum toys collected on Tuesday ($5 \times 5 = 25$ toys)
 b) Monday: $3 \times 5 = 15$ toys
 c) Total toys = $15 + 25 + 10 + 20 = 70$ toys

Q9.

a) Ascending order: 16, 17, 18, 19, 20
 b) Vikram scored the highest marks (20)
 c) Difference = $20 - 16 = 4$ marks

Q10.

Pet	Pictograph (Dog = 2 pets)
Dogs	■ ■ ■ ■ ■
Cats	■ ■ ■
Rabbits	■ ■
Birds	■ ■ ■ ■ ■

Q11.

a) Bar graph should be drawn with bars of heights: 3 cm (June-15), 5 cm (July-25), 6 cm (August-30), 4 cm (September-20)

b) August had the highest rainfall (30 cm)
 c) Total rainfall = $15 + 25 + 30 + 20 = 90$ cm

Q12.

a) Tally Chart:

Subject	Tally	Number
Math	II	12
Science	III	8
English	I	6
Social Studies		4

b) Math is most popular
 c) Math - Social Studies = $12 - 4 = 8$ more students
 d) Pictograph: Math (😊😊😊😊😊😊), Science (😊😊😊😊), English (😊😊😊), Social Studies (😊😊)

Q13.

a) Comic Books = 100 books
 b) History Books are least (40 books)
 c) Difference = $80 - 60 = 20$ books
 d) Science Books = $60 + 20 = 80$ books

Q14.

a) Maximum on Saturday (70 drinks)
 b) Minimum on Wednesday (35 drinks)
 c) Tuesday + Thursday = $50 + 60 = 110$ drinks
 d) Total = $45 + 50 + 35 + 60 + 55 + 70 = 315$ drinks

Q15.

a) Virat scored maximum goals ($6 \times 3 = 18$ goals)
 b) Rohit scored $4 \times 3 = 12$ goals
 c) Virat - Hardik = $18 - 6 = 12$ more goals
 d) Total goals = $12 + 18 + 6 + 15 = 51$ goals

Q16.

a) Table:

Flavor	Students
Chocolate	15
Vanilla	10
Strawberry	8
Mango	12

b) Pictograph: Chocolate (Ice cream icons: 1, 2, 3, 4, 5, 6, 7), Vanilla (Ice cream icons: 1, 2, 3, 4), Strawberry (Ice cream icons: 1, 2, 3, 4), Mango (Ice cream icons: 1, 2, 3, 4)

c) Chocolate is most popular

d) Total students = $15 + 10 + 8 + 12 = 45$ students

Q17.

a) Hottest day: Friday (32°C)

b) Coolest day: Monday (25°C)

c) Difference = $32 - 25 = 7^{\circ}\text{C}$

d) Bar graph should be drawn with appropriate scale

Q18.

a) Apples: $24 \div 6 = 4$ symbols, Bananas: $36 \div 6 = 6$ symbols, Oranges: $18 \div 6 = 3$ symbols, Grapes: $30 \div 6 = 5$ symbols

b) Bananas were sold the most (36)

c) Bananas - Oranges = $36 - 18 = 18$ more

d) Pictograph should show the symbols calculated in part (a)

Q19.

a) Bar graph with scale 1 cm = 50 visitors

b) Friday had maximum visitors (220)

c) Total = $150 + 200 + 180 + 160 + 220 = 910$ visitors

d) Saturday - Monday = $250 - 150 = 100$ more visitors

Q20.

a) Table:

Week	Paper (kg)
Week 1	12
Week 2	15

Week 3	18
Week 4	10
Week 5	20

- b) Maximum in Week 5 (20 kg)
- c) Minimum in Week 4 (10 kg)
- d) Total = $12 + 15 + 18 + 10 + 20 = 75$ kg
- e) Bar graph should be drawn with appropriate scale

Scoring Guide

Total Questions: 20 | Total Marks: 40

Score Range	Performance Level	What to Do Next
35-40	 Excellent!	Outstanding! You've mastered basic data handling. You're ready for Class 7 concepts like mean, median, and mode.
28-34	 Very Good!	Great work! Practice more on creating bar graphs and interpreting pictographs.
20-27	 Good Effort!	Keep practicing! Focus on understanding tally marks and how to read graphs carefully. Practice drawing bar graphs daily.
0-19	Keep Trying!	Review the concept boxes carefully. Practice making tally charts and simple pictographs with everyday data around you.

Tips for Improvement:

- **Practice tally marks daily:** Count things around you using tally marks (books, pencils, etc.)
- **Read the key carefully:** In pictographs, always check what each symbol represents
- **Label your graphs:** Always write clear labels and titles on bar graphs
- **Use a ruler:** Draw neat and accurate bars in bar graphs
- **Check your counting:** Count twice to make sure you didn't miss any data

- **Organize before drawing:** Make a table first, then create graphs

⌚ Common Mistakes to Avoid:

- ✗ Forgetting to check what each symbol represents in a pictograph
- ✗ Not using a ruler when drawing bar graphs
- ✗ Missing the scale on a bar graph
- ✗ Counting tally marks incorrectly (remember: $|||| = 5$)
- ✗ Drawing bars of unequal width in bar graphs
- ✗ Not labeling axes in graphs

✨ Great Job Completing This Worksheet! ✨

Keep practicing data handling - it's a useful skill for life!
