# A Clear Path To Transformational Growth

June 2026

TSX: ASM | NYSE American: ASM

[www.avino.com](http://www.avino.com)

# Cautionary Note

This presentation contains “forward-looking information” and “forward-looking statements” (together, the “forward looking statements”) within the meaning of applicable securities laws and the United States Private Securities Litigation Reform Act of 1995, including the Mineral Reserve Estimate and updated the Mineral Resource Estimate (“MRE”) which includes La Preciosa, the Avino Mine (consisting of the Elena Tolosa (“ET”) deposit, Guadalupe, and La Potosina) with an effective date of October 31, 2025. The Oxide Tailings Deposit mineral reserve estimate was completed in 2024 and is materially unchanged since its publication and has an effective date of January 16, 2024, and can be viewed within Avino’s latest technical report dated February 5, 2024 for the Pre-feasibility Study and references to Measured, Indicated Resources, and Proven and Probable Mineral Reserves referred to in this presentation. This information and these statements, referred to herein as “forward-looking statements” are made as of the date of this document. Forward-looking statements relate to future events or future performance and reflect current estimates, predictions, expectations or beliefs regarding future events and include, but are not limited to, statements with respect to: (i) the estimated amount and grade of mineral reserves and mineral resources, including the cut-off grade; (ii) estimates of the capital costs of constructing mine facilities and bringing a mine into production, of operating the mine, of sustaining capital, of strip ratios and the duration of financing payback periods; (iii) the estimated amount of future production, both ore processed and metal recovered and recovery rates; (iv) estimates of operating costs, life of mine costs, net cash flow, net present value (NPV) and economic returns from an operating mine; and (v) the completion of the full Technical Report, including a Preliminary Economic Assessment, and its timing. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives or future events or performance (often, but not always, using words or phrases such as “expects”, “anticipates”, “plans”, “projects”, “estimates”, “envisages”, “assumes”, “intends”, “strategy”, “goals”, “objectives” or variations thereof or stating that certain actions, events or results “may”, “could”, “would”, “might” or “will” be taken, occur or be achieved, or the negative of any of these terms and similar expressions) are not statements of historical fact and may be forward-looking statements. These forward-looking statements are made as of the date of this news release and the dates of technical reports, as applicable. Readers are cautioned not to place undue reliance on forward-looking statements, as there can be no assurance that the future circumstances, outcomes or results anticipated in or implied by such forward-looking statements will occur or that plans, intentions or expectations upon which the forward-looking statements are based will occur. While we have based these forward-looking statements on our expectations about future events at the date that such statements were prepared, the statements are not a guarantee that such future events will occur and are subject to risks, uncertainties, assumptions and other factors which could cause events or outcomes to differ materially from those expressed or implied by such forward-looking statements.

## Cautionary note to U.S. Investors concerning estimates of Mineral Reserves and Mineral Resources

All reserve and resource estimates reported by Avino were estimated in accordance with the Canadian National Instrument 43-101 and the Canadian Institute of Mining, Metallurgy and Petroleum (“CIM”) Definition Standards. The U.S. Securities and Exchange Commission (“SEC”) now recognizes estimates of “measured mineral resources,” “indicated mineral resources” and “inferred mineral resources” and uses new definitions of “proven mineral reserves” and “probable mineral reserves” that are substantially similar to the corresponding CIM Definition Standards. However, the CIM Definition Standards differ from the requirements applicable to US domestic issuers. US investors are cautioned not to assume that any “measured mineral resources,” “indicated mineral resources,” or “inferred mineral resources” that the Issuer reports are or will be economically or legally mineable. Further, “inferred mineral resources” are that part of a mineral resource for which quantity and grade are estimated on the basis of limited geologic evidence and sampling. Mineral resources which are not mineral reserves do not have demonstrated economic viability.

Peter Latta, VP Technical Services, Avino, a Qualified Persons for the Company as required by NI 43-101, has reviewed the technical information concerning the properties contained in this presentation for accuracy and have authorized its disclosure.

# A Primary Silver Producer and Explorer in Mexico

A growth strategy that positions Avino to intermediate-producer scale

## PROJECT PORTFOLIO

### Avino Mine - Production

Producer and Explorer

2,500 tonnes per day with 4 circuits

### La Preciosa - Development

Goal to achieve 500 tpd

Close to the Avino mill

### Oxide Tailings Project - Development

Pre-Feasibility Study Completed in 2024

Proven and probable mineral reserves of 6.70 Million tonnes at a silver and gold grade of 55 g/t and 0.47 g/t respectively

## LARGE SILVER EQUIVALENT RESOURCE BASE

127 million AgEq oz of proven and probable mineral reserves *NI 43-101 effective date October 31, 2025*

301 million AgEq Oz of measured and indicated mineral resources *NI 43-101 effective date October 31, 2025*

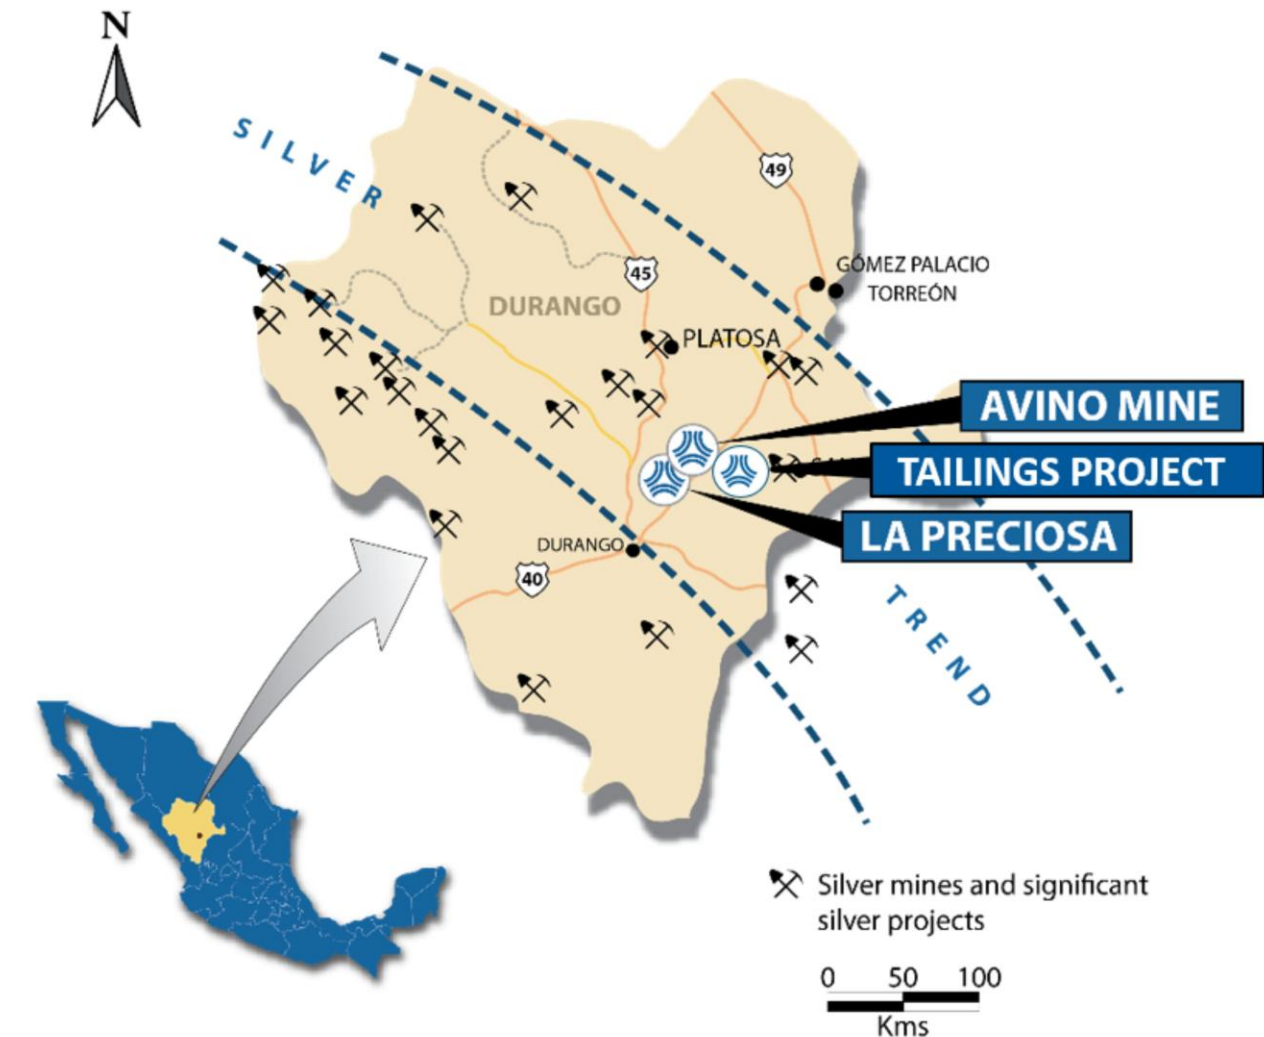

60% Silver - Acquisition of La Preciosa shifts resources to primarily silver

## CATALYSTS FOR GROWTH – TRANSITIONING TO A MULTI ASSET MEXICAN MID-TIER PRODUCER

La Preciosa - Future silver production asset

Avino – Regional Exploration and Resource Expansion for future growth production

Oxide Tailings Project - Future gold and silver production asset

# Medium-Term Outlook: 8 – 10Moz AgEq Producer

Building a platform for sustained silver production growth

Consolidated production profile: Avino, La Preciosa and Oxide Tailing Project

### Pathway to 10+ Million Silver Equivalent Ounces

- 2026 Production Guidance: 2.4M–2.7M AgEq oz
- 2027 Production: 3M+ AgEq oz
- Multiple organic growth opportunities across Avino’s asset portfolio

### Growth Catalysts

- La Preciosa development and scale up – potential standalone plant
- Expansion opportunities at the Avino processing plant
- Trade off studies and evaluation ongoing

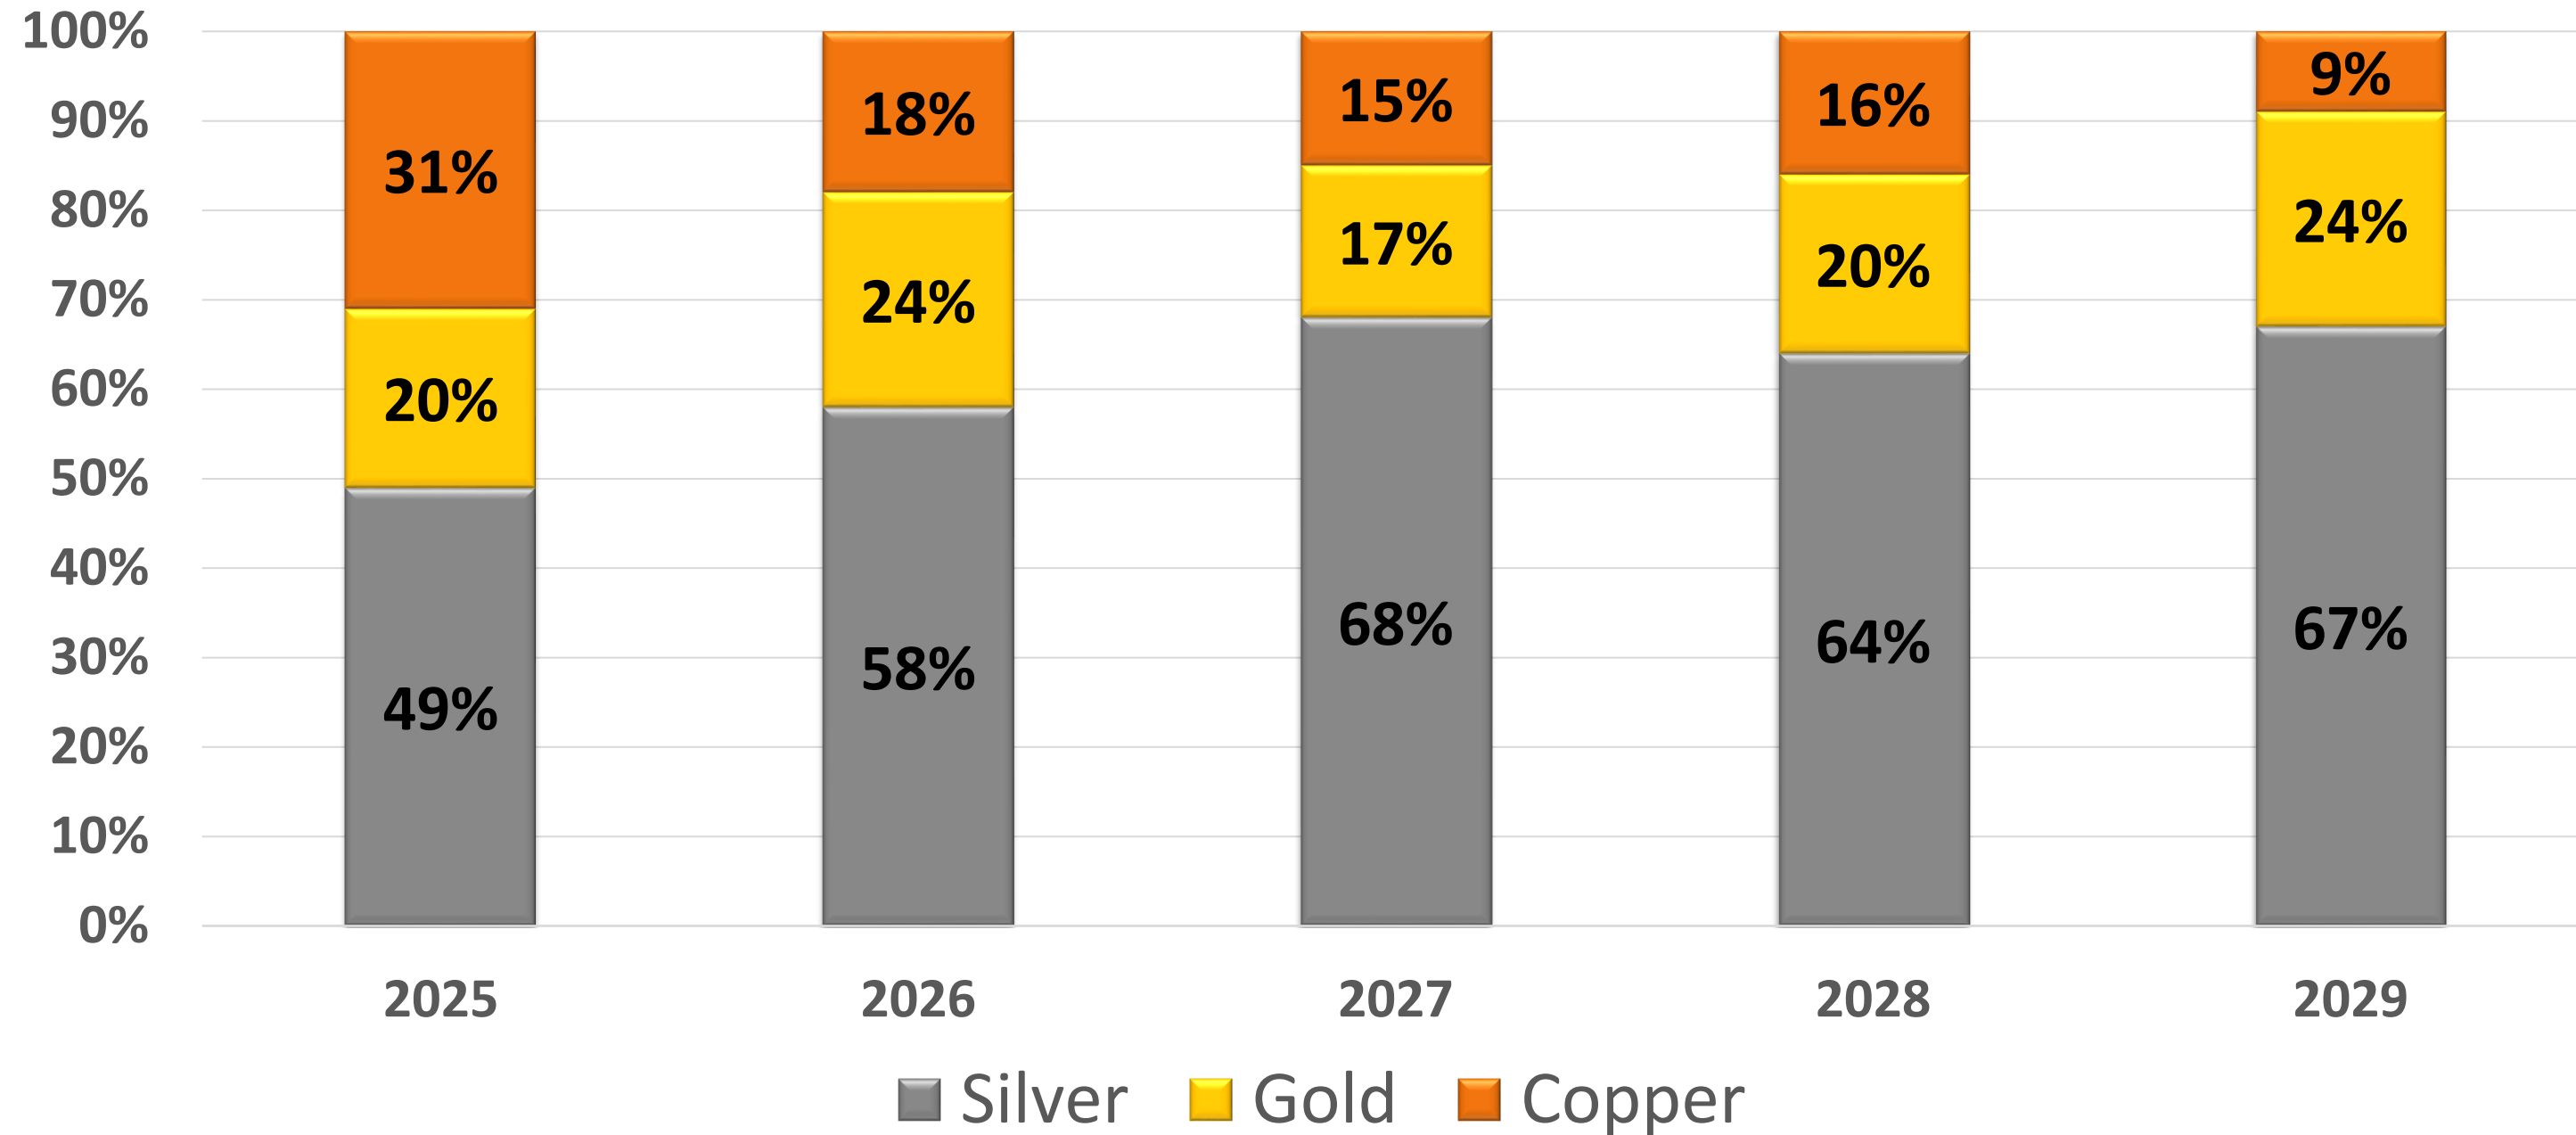

### Long-Term Growth Potential

- Oxide Tailings Project
- Additional Reserve Conversion and Resource Expansion

# Production Profile – Return to Primary Silver

## Production by Metal

# Q1 2026

## Key Drivers Guiding our Success

- 1. Disciplined approach to financial Management and Capital Allocation – Significant Improvements across key financial metrics**
  - *Record revenues of \$39.4 million*
  - *Cash of \$139 million*
  - *Working capital position of \$140 million*
- 2. Increased Tonnes from La Preciosa; Underground Development and Ramp Advancement Ongoing**
  - An average of 200-230 tonnes per day in Q1 2026 and a total of 14,098 tonnes of La Preciosa material processed
- 3. Inaugural Mineral Reserves and Updated Mineral Resource Estimates – transformational milestone**
  - *First Ever Avino and La Preciosa Underground Mineral Reserve*
    - Increases level of confidence in development plans
    - Increase in overall tonnes and silver equivalent ounces in mineral inventory
- 4. Strategic exploration and drilling to unlock additional resource potential**
  - *Drill results from La Preciosa*
    - Excellent silver grades from the remaining six holes which totaled 1,400 metres, with the entire program encompassing 14 holes for approximately 3,500 metres of drilling
- 5. Increasing silver revenues at the right time**
  - *60% revenue from silver production in Q1 2026*
  - *Record revenues and free cash flow generation*
- 6. Supporting Factors**
  - Precious metals prices remained strong, providing operational momentum
  - Additional funds and ETF's into the stock broadening our investor base and enhancing overall market visibility
- 7. Quality of operational jurisdiction**
  - Mexico remains an important and established mining jurisdiction
  - Built strong relationships with local communities and workforce over many decades
  - Our operations contribute meaningfully to local economy through employment training, procurement and community initiatives

# FINANCIAL HIGHLIGHTS – Q1 2026

## Financial and Operating Results

- Record Quarterly revenues of **\$39.4M**
- **60%** of revenues generated from silver production in Q1 2026
- **59%** gross profit margin, **68%** on a cash basis
- Record net income after taxes – **\$15.9M** (\$0.09/share)
- Record adjusted earnings\* – **\$24.3M** (\$0.14/share)
- Operating cash flows\* – **\$18.7M** (\$0.11/share)
- Free cash flow excluding La Preciosa development\* - **\$17.2M**

## Balance Sheet

- \$139 million in cash and \$140 million in working capital at March 31, 2026
- Debt-free excluding operating equipment leases

*\*See Footnotes & Non-IFRS Accounting Standards reconciliations sections in Appendix A*

# FINANCIAL RESULTS

FINANCIAL RESULTS	Q1 2026	Q1 2025	Change	Q1 2026	Q4 2025	Change

\*Some items may not add up due to rounding

# OPERATING METRICS

FINANCIAL RESULTS	Q1 2026	Q4 2025	Change	Avino	La Preciosa
Cash cost per AgEq oz*	\$24.46	\$21.10	16%	\$25.07	\$19.14
All-in sustaining cash cost ("AISC") per AgEq oz*	\$34.72	\$31.59	10%	\$34.82	\$33.91
Cash cost per tonne processed*	\$64.04	\$59.99	7%	\$58.92	\$126.25
AISC per tonne processed*	\$90.80	\$90.78	0%	\$83.58	\$178.60
Mine operating cash flow before taxes*	\$26.7 M	\$19.0 M	41%	\$23.8 M	\$2.9 M
Mine operating cash flow before taxes* - margin	68%	62%	10%	69%	66%
Cash cost per AgEq oz* - 2026 Guidance Metal Price Ratios	\$19.82	\$19.70	1%	\$19.95	\$18.46
AISC per AgEq oz* - 2026 Guidance Metal Price Ratios	\$28.14	\$29.49	-5%	\$27.71	\$32.71

## Vs. 2026 Guidance

- Cash cost per AgEq oz – within consolidated range of \$19.00 - \$21.00
- AISC per AgEq oz - slightly above consolidated range of \$25.00 – \$27.00
- Cash cost per tonne – below consolidated range of \$65.00 - \$75.00
- AISC per tonne – slightly above consolidated range of \$80.00 - \$90.00

\*See Footnotes & Non-IFRS Accounting Standards reconciliations sections in Appendix A

# 2026 Key Goals and 2025 Milestones

<b>La Preciosa</b>	
• 15,000 metres budgeted - Exploration for 2026	
• Increased production – Goal of 500 tonnes per day	
• Updated Mineral Reserve and Resource estimate – April 2026	✓
• AI Integration of all data for resource/reserve expansion and new exploration discoveries	✓
<b>Avino Mine</b>	
• 15,000 metres budgeted - Exploration for 2026	
• Updated Mineral Reserve and Resource estimate – April 2026	✓
• AI Integration of all data for resource/reserve expansion and new exploration discoveries	✓
<b>Corporate</b>	
• Avino acquired outstanding royalties and payment on La Preciosa – achieving 100% ownership	✓
• Index Inclusion: S&P/TSX Global Gold Mining Index, Solactive Global Silver Miners Index, Market Vectors Junior Gold Miners	✓
• Major ETF inclusion: VanEck Junior Gold Miners ETF (GDXJ), Amplify Junior Silver Miners ETF (SILJ), Global X Silver Miners (SIL),	✓
• Recognized for Outstanding Performance – Avino ranked #5 in the TSX30 2025 - 3 years ended June 30, 2025, Avino’s share price performance has increased 610% and market capitalization has increased 778%.	✓

## La Preciosa: Proximity to Avino - 19 km

### The Avino Advantage - Infrastructure

- Close to Avino's operating 2,500 tpd mill
- Paved road
- High water supply
- 100% Mexican workforce with local labor supply
- Surrounded by local communities
- Safe jurisdiction – farmland
- Dedicated powerline – 7.3MW
  - *Current excess capacity of 2 MW*

# La Preciosa – 1,500 Drill Holes Well Defined

# La Preciosa – Resource Table

La Preciosa Property – Inclusive of Mineral Reserves Summary – Effective Date October 31, 2025									
Classification	Tonnage	Grade				Metal contents			
		Ag	Au	Cu	AgEq	Ag	Au	Cu	AgEq
	Mt	g/t	g/t	%	g/t	M oz	K oz	%	M oz
Total Measured	3.8	186	0.30	-	214	23	36	-	26
Total Indicated	29.3	143	0.27	-	169	135	251	-	159
<b>Total M&amp;I</b>	<b>33.2</b>	<b>148</b>	<b>0.27</b>	-	<b>174</b>	<b>158</b>	<b>287</b>	-	<b>185</b>
Total Inferred	11.1	98	0.20	-	117	35	72	-	42

Cut-off grades in silver equivalent grades (AgEQA) at La Preciosa Underground – 120 g/t

# La Preciosa: What We Have Learned

- Recent drilling intercepts suggest wider veins structure on Gloria
- Original mine plan evolving to reflect improved geological understanding
- Optimization opportunities are being identified that could reduce mining costs
- Independent Engineers engaged to deliver a strategic plan that looks beyond the original project scope

# La Preciosa Drill Results

*The intercept grades are significantly higher than the average grades outlined in the current resource, highlighting the potential we aim to capture by using underground mining methods – Selected Intercepts Shown\**

Hole Number	True Width (metres)	Ag (g/t)	Au (g/t)	AgEQ (g/t)

# Why Invest in Avino?

A Disciplined Silver Producer with scale, growth and financial strength

## Silver Weighted Exposure

- Silver-focused producer & explorer in Mexico
- 2.4 –2.7 M AgEq oz annual production
- Meaningful leverage to silver prices
- Growing silver contribution through organic expansion

## Growth with Execution

- Clear roadmap to 8-10 Moz Eq by 2029
- Transition toward an intermediate producer
- Largest expansion in company history
- Strong track record of delivery

## Milestones Delivered

- La Preciosa added → transition to multi-asset producer
- 100% ownership restored (royalties eliminated)
- Oxide Tailings PFS completed
- TSX30 2025 – Ranked 5th

## Financial Strength & Longevity

- \$139M cash (as at March 31, 2025)
- 127M AgEq ozs of mineral reserves
- 301M AgEq M&I mineral resources
- Decades of mine life
- Strong balance sheet & liquidity

June 2026

TSX: ASM

NYSE American: ASM

# Board of Directors

<p><b>Ronald Andrews,</b> Chairman &amp; Independent Director</p>	<p>Mr. Andrews is the President of West Wind Property Inc., which is a property management and holding company. Mr. Andrews is the former owner and operator of Andrews Orchards; and was a former Director of Coral Gold Resources Ltd. from January 2010 to November 2020. He has acted as director and chairman of the audit committee of several public mining companies.</p> <p>Mr. Andrews has a Bachelor of Science degree from Washington State University and a Masters in Political Science. He served as a helicopter pilot in Vietnam and is retired from the United States Army Reserves.</p>
<p><b>David Wolfin</b> President, CEO &amp; Director</p>	<p>Mr. Wolfin brings 30 years of experience in mining and finance. He learned the business from the ground up, starting as a geologist's assistant in Nevada, a metallurgist's assistant at the Avino mine in Mexico and later in a number of mining and exploration-related capacities. In the late 1980s, Mr. Wolfin worked on the floor of the Vancouver Stock Exchange and also for several brokerage houses, gaining a solid foundation in the finance side of the industry.</p> <p>Since 1990, Mr. Wolfin has worked for the Oniva Group of Resource companies, including Avino Silver &amp; Gold Mines Ltd. (CEO, President &amp; Director); Bralorne Gold Mines Ltd. (Former CEO, President &amp; Director); Coral Gold Resources Ltd. (CEO, President &amp; Director); and Levon Resources Ltd. (Former Director). In his various roles with these firms, he has helped raise over C\$100 million. He serves as the Chairman and CEO of Silver Wolf Exploration Ltd.</p>
<p><b>Carolina Ordoñez</b> Independent Director</p>	<p>Carolina Ordoñez is the recipient of the Top 10 Most Influential Hispanics in Canada, has over 15 years of experience in the resource sector as a liaison between Governments, Corporations, Mining subsidiaries, Communities, and Investors, with extensive experience in different regions around the world, including Durango, Mexico. Former roles include Executive Member of the Vancouver branch of Women in Mining.</p> <p>Native Spanish speaker, Carolina is actively dedicated to promoting Latin-American culture and an influential member of the community. She has led the Board of various not-for-profit organizations and sits on the board of The Karina LeBlanc Foundation. Carolina holds a global designation in International Trade Business and International Commerce from the British Columbia Institute of Technology and a Diploma in Global Business and Politics from the Yale School of Management.</p>
<p><b>Michael Clark</b> Independent Director</p>	<p>Mr. Clark serves as Executive Vice President, Chief Financial Officer &amp; Corporate Secretary of Contango ORE, Inc. He previously served as Chief Financial Officer and Corporate Secretary for Alexco Resource Corp. ("Alexco") from December 2014 to September 2022 at which time Alexco was acquired by Hecla Mining Company. Between 2010 and 2014, Mr. Clark served as Chief Financial Officer of Goldgroup Mining Inc. and from 2007 to 2010 Mr. Clark served as Chief Financial Officer for the Grosso Group and its member companies. Mr. Clark is a Chartered Professional Accountant and holds a Bachelor of Technology in Accounting degree from the British Columbia Institute of Technology. Between 2016 and 2020, Mr. Clark also served on the Board of Trustees for the Burnaby Hospital Foundation as Chair of the Finance Committee.</p>
<p><b>Linda Broughton</b> Independent Director</p>	<p>Ms. Broughton is an accomplished mining executive with over 35 years of experience in corporate and operations roles in North and South America. She brings strong expertise in environmental geochemistry, water and tailings management, risk management, and mine reclamation.</p> <p>Ms. Broughton is currently a non-executive director of OceanaGold Corporation (TSX:OGC) and serves on industry review boards. From 2014 to 2023, Ms. Broughton was Vice President Technical Services for Alexco Resource Corp. as well as President of their subsidiary ERDC where she was responsible for the reclamation of an historical mining district in northern Canada. Prior to that, she held various senior environmental and engineering roles with BHP Billiton from 2005 to 2014, Compañía Mineral Antamina in Peru from 1999 to 2002, and SRK Consulting in Canada and the UK. Ms. Broughton holds a Bachelor of Science (Mining Engineering) from Queen's University and a Master of Applied Science from the University of British Columbia. She is also a graduate of the ICD-Rotman Directors Education Program in Canada.</p>

# Management

<p><b>David Wolfin</b> President, CEO &amp; Director</p>	<p>Mr. Wolfin brings 30 years of experience in mining and finance. He learned the business from the ground up, starting as a geologist's assistant in Nevada, a metallurgist's assistant at the Avino mine in Mexico and later in a number of mining and exploration-related capacities. <p><b>Carlos Rodriguez</b> COO</p>	<p>Mr. Rodriguez Moreno is a professional geologist with over 34 years of experience in underground mines and regional exploration in Mexico.</p> <p>Mr. Rodriguez Moreno graduated in 1984 from the University of Sonora in Hermosillo, Mexico in geology. He graduated from the Colorado School of Mines in 1998 with a degree in mineral exploration. His expertise has helped strengthen Avino's Mexican operations and leadership at the Mines.</p>
<p><b>Nathan Harte, CPA</b> CFO</p>	<p>Mr. Harte is a Canadian Chartered Professional Accountant (CPA) who has been working in the finance and mining industry since 2013, having worked with numerous public mining companies listed in both Canada and the US, with operations in North America, South America and Africa.</p> <p>He joined the Avino team in 2016, coming from Deloitte LLP where he specialized in working with public mining companies, and was promoted in 2018 to CFO.</p>
<p><b>Jennifer Trevitt</b> Corporate Secretary</p>	<p>Ms. Trevitt was appointed Corporate Secretary of Avino Silver and Gold Mines Ltd. in December 2021. Prior to joining the Company, Ms. Trevitt served as the Corporate Secretary and Vice President Corporate Affairs of Minco Silver Corporation and Minco Capital Corp. for 13 years. She is a Capilano College certified Paralegal working in the Securities/Corporate finance industry for over 25 years. In 2019, she obtained her Certificate in Mining Law and in November 2021 she completed the Fundamentals of U.S. Securities Law with Osgoode Hall Law School. She was also appointed Corporate Secretary of Silver Wolf Exploration Ltd. in December 2021.</p>
<p><b>Peter Latta, B.A.Sc., P.Eng (BC)</b> Senior Vice President, Technical Services</p>	<p>Mr. Latta, P.Eng, MBA, is a Professional engineer and a 2008 graduate of the University of British Columbia with a degree in Metals and Materials engineering and a 2017 graduate of Simon Fraser's Beedie school of business with a Master of Business Administration. He has over 10 years of operational, flowsheet design, engineering, and commercial experience in the mining industry. He has commissioned, troubleshooted and optimized mineral processing circuits having worked at sites world-wide including Asia, Europe, North America, and South America.</p>
<p><b>Marc Turcotte</b> Senior Vice President of Corporate Development</p>	<p>Marc is a mining development and exploration executive with over 20 years of experience in corporate development, capital markets, and strategic transactions within the mining sector. Most recently, he served as Chief Development Officer of MAG Silver Corp., where he played a key role over more than a decade in advancing the Company's project portfolio and corporate strategy, culminating in MAG Silver's US\$2.1 billion acquisition by Pan American Silver. Prior to joining MAG Silver, Mr. Turcotte held senior roles with Hecla Mining Company and Aurizon Mines Ltd., gaining broad experience across exploration, development, and corporate transactions. Mr. Turcotte holds a Bachelor of Science in Resource Economics (Honours) from the University of British Columbia and a Master of Business Administration from the Richard Ivey School of Business.</p>
<p><b>Jennifer North</b> Head of Investor Relations</p>	<p>Ms. North has over 26 years experience working with publicly traded mining companies in Canada. She joined Avino Silver &amp; Gold Mines in 2016, and worked for Aurizon Mines Ltd. from 1996 to 2013, when it was acquired by Hecla Mining. Prior to joining Avino Silver &amp; Gold Mines in 2016, Ms. North spent 3 years working in London, UK, specifically providing best practice and communication advice for Annual reports and Capital Market events for a variety of FTSE publicly listed companies. Jennifer completed the Canadian Securities Course through the Canadian Securities Institute in 2009 and has been a member of the Woman in Mining UK and BC chapters. She is also a member of CIRI.</p>
<p><b>Andrew Kaplan</b> Consultant</p>	<p>Mr. Kaplan is a graduate of the University of Hartford having a major in Finance and Insurance. He is a founder of A to B Capital Management, and manages the A to B Capital Special Situations Fund, LP which was launched on January 1, 2009. The fund invests in the small cap sector through private, pre-public and publicly traded companies. In addition, he has been a Vice President of Barry Kaplan Associates ("BKA") for the past 20 years, a leading financial public relations firm for both public and private companies in the US, Canada and abroad. Prior to working at BKA, he had six years experience working at Lehman Brothers and Merrill Lynch involved in deal structure, mergers and acquisitions and trading.</p>

Operating cash flow before non-cash working capital items	18.7 M	7.4 M	18.7 M	19.0 M
Diluted shares outstanding	173.6 M	147.8 M	173.6 M	164.4 M
Operating cash generated per share	\$0.11	\$0.05	\$0.11	\$0.12

# Footnotes

## Slide 4

1. "AgEq" production forecasts were made using long-term metal price forecasts at the time and material changes to these prices will impact AgEq production totals in future periods.

## Slide 6 - 9

1. "AgEq" was calculated using metal prices of \$45.30 per oz Ag, \$3,929 per oz Au and \$4.85 per lb Cu. Calculated figures may not add up due to rounding.
2. "Silver equivalent payable ounces sold" for the purposes of cash costs and all-in sustaining costs consists of the sum of payable silver ounces, gold ounces and copper tonnes sold, before penalties, treatment charges, and refining charges, multiplied by the ratio of average spot gold and copper prices to the average spot silver price for the corresponding period.
3. Non-IFRS Accounting Standard measure. These measures are widely used in the mining industry as a benchmark for performance, but do not have a standardized meaning under IFRS Accounting Standards and the calculation methods may differ from methods used by other companies with similar reported measures. See Non-IFRS Accounting Standards Measures section for further information and detailed reconciliations.

## Slide 16, Slides 33 and 34

### Notes for UG Reserves

1. Totals may not sum due to rounding.
2. Underground Mineral Reserves as of October 31, 2025 are derived from Measured & Indicated Resources, account for depletion to that date, and are reported with a reference point of mined ore delivered to the plant.
3. Metal prices considered for the underground Mineral Reserves estimates were US\$36.90/t.oz Ag, US\$3,210/t.oz Au, and US\$4.4/lb Cu. Other key assumptions and parameters include metal recoveries (89% Cu, 74–70% Au, and 87–80% Ag), payable factors applied on a deposit-specific basis (83–96% Ag, 95% Au, and 96.75% Cu), treatment and other smelter charges (US\$134.25–68 per dry metric tonne), freight to smelter (US\$45 per wet metric tonne), refining charges for silver, gold, and copper (US\$0.30/oz Ag, US\$6.00/oz Au, US\$0.07/lb Cu), and applicable concentrate penalties. Mining, processing, and G&A operating costs for the Gloria, Abundancia, and Martha veins were estimated at US\$75.31/t, US\$55.21/t, and US\$60.89/t for mining; US\$18.45/t for processing; and US\$16.80/t for G&A, respectively, resulting in NSR breakeven cut-off values of US\$110.56/t for Gloria, US\$90.46/t for Abundancia, and US\$96.14/t for Martha.
4. AgEQ grade is estimated considering metal price assumptions, metallurgical recovery for the corresponding mineral type/mineral process and the metal payable of the selling contract as of effective date.

### Notes for Oxide Tailings Reserves

1. No material change has occurred since the 2024 PFS; reviewed by the QP and remains valid under current assumptions.
2. The effective date of the Oxide Tailings Reserves Estimate is January 16, 2024.
3. Reserves estimated assuming open pit mining methods
4. Reserves are reported on a dry in-situ basis
5. Reserves are based on a gold price of US \$1850/tr oz., and silver price of US \$22/tr oz, mining cost of US\$1.00/t mined, milling costs of US\$18.00/t feed, and USG&A cost of US\$3.00/t feed.
6. Mineral Reserve includes consideration for 1% mining dilution and 99% mining recovery.
7. Ore-waste cut-off was based on US\$21.00/t of NSR.
8. AgEQ grade is estimated considering metal price assumptions, metallurgical recovery for the corresponding mineral type/mineral process and the metal payable of the selling contract as of effective date.

### Notes for Resources

1. Totals may not sum due to rounding.
2. Mineral Resources that are not Mineral Reserves do not have demonstrated economic viability.
3. The Mineral Resource estimate is classified in accordance with the CIM Definition Standards for Mineral Resources and Mineral Reserves incorporated by reference into NI 43-101 Standards of Disclosure for Mineral Projects ("NI-43-101").
4. The Measured and Indicated Mineral Resources are inclusive of those Mineral Resources modified to produce the Mineral Reserves
5. Based on recent mining costs, Mineral Resources are reported for Avino at cut-off grades of 55 g/t, 130 g/t, 100 g/t for Avino ET, Guadalupe, and La Potosina, respectively.
6. Based on recent mining costs, Mineral Resources are reported at La Preciosa Agrecovery 80%, Au Recovery 70%, Ag price \$36.90/t. oz., Au price \$3,210/t. oz. Cut-off grades in silver equivalent grades (AgEQ), Avino Mine – 55 g/t, La Preciosa Underground – 120 g/t, Oxide Tailings -50 g/t.

# Proven and Probable Mineral Reserves

Prepared in Accordance with NI43-101, Under the supervision of a Qualified Person – the full technical report will be available on [www.avino.com](http://www.avino.com), Sedar+, and Edgar within 45 days of April 16, 2026

**127 million AgEq oz of proven and probable mineral reserves** *NI 43-101 effective date October 31, 2025*

Area	Location	Category	Mass (Mt)	Average Grade				Metal Content			
				Ag (g/t)	Au (g/t)	Cu (%)	AgEQ (g/t)	Ag (million tr oz)	Au (thousand tr oz)	Cu (million lb)	AgEQ (million tr oz)
