LIGHT VEHICLE

MK07

TOYOTA LANDCRUISER 4.2L

LIGHT VEHICLE

170 LTS	3500 KGS
FUEL CAPACITY	TOWING CAPACITY

OVERVIEW

A rugged and dependable field support vehicle configured to provide water, tools and operational support to drilling crews in remote and demanding environments.

This Landcruiser provides simple, reliable mechanical performance and strong off-road capability making it well suited for remote-site operations.

The vehicle is fitted with a 1,000-litre water tank, allowing it to support drilling operations with an independent water supply while also carrying essential tools, hoses and field equipment.
