MITSUBISHI FUSO

FUSO CANTER SUPPORT TRUCK 4X4

6,500 KG GROSS VEHICLE MASS	**10,000** KG GROSS COMBINATION MASS	**3,320** KG NOMINAL PAYLOAD	**4X4** DRIVE CONFIGURATION

OVERVIEW

Our 2022 Mitsubishi Fuso Canter 4×4 is a tray-mounted support vehicle used to transport tools, consumables, water and equipment between drilling locations. Its commercial tray provides a flexible platform for day-to-day drilling support and site mobilisation.

A turbo-diesel engine, five-speed manual transmission and high/low-range four-wheel drive provide a practical combination for road travel and off-road site access.

With a 6,500 kg GVM and 3,320 kg nominal payload, MK11 provides carrying capacity for field-support loads, personal, fitted equipment and operating supplies.

FULL SPECIFICATION

TRUCK YEAR	2022	**SEATING CAPACITY**	3 INCLUDING DRIVER
TRUCK TYPE	Wide Cab Tray Support Truck	**WHEELBASE**	3,415 MM
