TRACK CARRIER

MK24

MOROOKA MST700

TRACKED CARRIER

4,000 kg FACTORY LOAD CAPACITY	4000 LITRES WATER CARYING CAPACITY	DUAL PURPOSE WATER OR EQUIPMENT TRASNPORT	10 KM/H MAXIMUM TRAVEL SPEED

OVERVIEW

The Morooka MST700 is a versatile tracked support carrier configured to deliver water and equipment directly to drilling locations. With capacity to transport 4,000 litres of water and/or drilling spoil. MK24 also provides mobile support with the capacity to transport drilling tools, rods, hoses, consumables and other essential equipment.

The tracked undercarriage supports off-road movement between supply points and work areas, while the tilting tray adds flexibility for handling and unloading suitable loads. Combining water transport, equipment carrying and a tipping function, MK24 provides practical site support for all drilling projects.

FULL SPECIFICATION

MANUFACTURER	Morooka
MODEL	MST700
MACHINE TYPE	Tracked water and equipment carrier
DRIVE CONFIGURATION	Rubber crawler tracks
LOAD PLATFORM	Tilting tray
WATER/SPOIL CAPACITY	4,000 litres
ALTERNATIVE LOAD CONFIGURATION	Drilling equipment and field supplies
MAXIMUM LOAD RATING	4,000 kgs
WATER TRANSFER SYSTEM	Mobile pump and hose
ENGINE	3.3 litre turbocharged diesel

CAPABILITY

WATER/SPOIL TRASNSPORT	4000 LITRES
EQUIPMENT TRANSPORT	Drilling tools, hoses, consumables, engineering gear and drilling equipment
TRACKED SITE ACCESS	Fully tracked carrier for off road and isolated field support
TILTING TRAY	Tilt function for unloading suitable loads

Configurations as fitted. Capability may vary with operating conditions.

SAFETY & COMPLIANCE

- Completed daily pre start checks and scheduled servicing
- Suitable water tank mounting and equipment restraints
- Battery isolation and emergency stop function
- Fire extinguisher
- Rotating beacon and support lights
- Tracking alarm
- First aid kits
