## OVERVIEW

The Certificate III in Food Processing course will equip you to work in a range of roles within the food processing, logistics and transport industry.

In this power-packed course, we cover everything including topics such as food safety, temperature management, manual handling, warehousing processes and working in teams. By the end of the course, you'll have job-ready skills to kickstart your career in the food, logistics or transport industry. Whether you're interested in working on processing lines, driving trucks for high-end food chain companies or operating forklifts in a warehouse, the opportunities are endless.

So, why wait? Enrol in the Strategix Certificate III in Food Processing course to join this fast-paced industry and make your mark today!
