

# CAMP STATUS REPORT

**Aircraft:** Demo Aircraft 1  
**Registration:** D-EMO1  
**Serial Number:** 4321  
**Report Date:** 26 January 2026  
**Data source:** Provided by owner / listing (data shown as provided)

## Aircraft Overview

|                        |                 |
|------------------------|-----------------|
| Date of Manufacture    | 10 October 2020 |
| Date Placed in Service | 01 January 2021 |
| Total Airframe Time    | 1,568 FH        |
| Total Landings         | 1,040           |

## Maintenance Status

|                       |  |
|-----------------------|--|
| Last 12M Inspection   | Performed 10/2024 by Jet Aviation City |
| Last 24M Inspection   | Performed 10/2024 by Jet Aviation City |
| Operating Environment | EASA                                   |
| Connectivity          | Ka-Band Internet installed             |

## Engines

|               | Engine 1 | Engine 2 |
|---------------|----------|----------|
| Serial Number | E-4321   | E-4320   |
| Total Time    | 1,568 FH | 1,568 FH |
| Total Cycles  | 1,040    | 1,040    |

## APU

|                   |          |
|-------------------|----------|
| APU Serial Number | P-4321   |
| APU Total Time    | 1,568 FH |
| APU Total Cycles  | 1,040    |

## Maintenance Programs

|          |                    |
|----------|--------------------|
| Airframe | Demo Power Program |
| Engines  | DM Engines Program |
| APU      | DMO APU Program    |

## Technical Summary

- Aircraft maintained with latest available data
- All major inspections current as of report date
- Aircraft presented with clean maintenance status at time of report
