## Design Story:

The design narrative of the Curvivo Series unfolds as a testament to its commitment to maximum versatility and seamless deployment. Crafted with interchangeable components, the Curvivo Desking System envisions a workspace that effortlessly adapts to the dynamic nature of modern workstyles. The name “Curvivo” itself is derived from the series’ defining feature – the elegantly curved edges that grace every element, from the worktops to the planters, the leg and pedestals. This deliberate choice in design symbolizes not just a visual aesthetic but a philosophy: one that embraces fluidity, innovation, and a harmonious blend of form and function.

## Linear

The Curvivo series introduces a cutting-edge solution for collaborative workspaces with its back-to-back workstation design. Seamlessly blending style and functionality, these workstations feature a distinctive architectural layout. This not only enhances the visual appeal of the workspace but also ensures a harmonious environment for teamwork and creativity. The adaptability of the Curvivo series shines through, offering a dynamic and contemporary approach to collaborative office setups.

## 120 Degree

The 120-degree workstation configuration within the Curvivo series redefines office spaces by introducing a dynamic layout that fosters collaboration and creativity. The uniquely designed triangular work surface encourages fluid interaction, promoting a sense of unity among team members. The sturdy Curvivo legs, with their innovative bridge structure, not only provide aesthetic appeal but also ensure stability and durability. The 120-degree design is a testament to the series' commitment to adaptable and contemporary workspaces, where ergonomic considerations meet modern aesthetics, creating an inspiring setting for productivity and innovation.

## L-Shape

Step into a realm of unrivaled productivity and aesthetics with the Curvivo series L-shape workstation. Engineered for dynamic workspaces, this configuration marries ergonomic innovation with a touch of modern elegance. The Curvivo L-shape isn't just about corners; it's about crafting an inspiring haven where creativity thrives, setting the stage for a truly distinctive work experience.

## Elevate Leadership with Curvivo Elegance

The Curvivo series cabin table epitomizes sophistication and functionality, featuring a latest curvy design with customizable finishes. Crafted for executives and professionals, it blends seamlessly into modern office aesthetics while providing ample workspace for taking the right decision. Elevate your office with the elegance of Curvivo's cabin table, where style meets purpose.

## Meeting Table

Curvivo series meeting tables redefine collaboration with their contemporary design and versatile functionality. Crafted for productive discussions, these tables effortlessly combine aesthetic appeal with practical features, creating a conducive environment for successful meetings.

## Fostering Dialogue, Inspiring Innovation at Every Discussion Table.

Streamlined aesthetics paired with a flawless finish and robust structural integrity

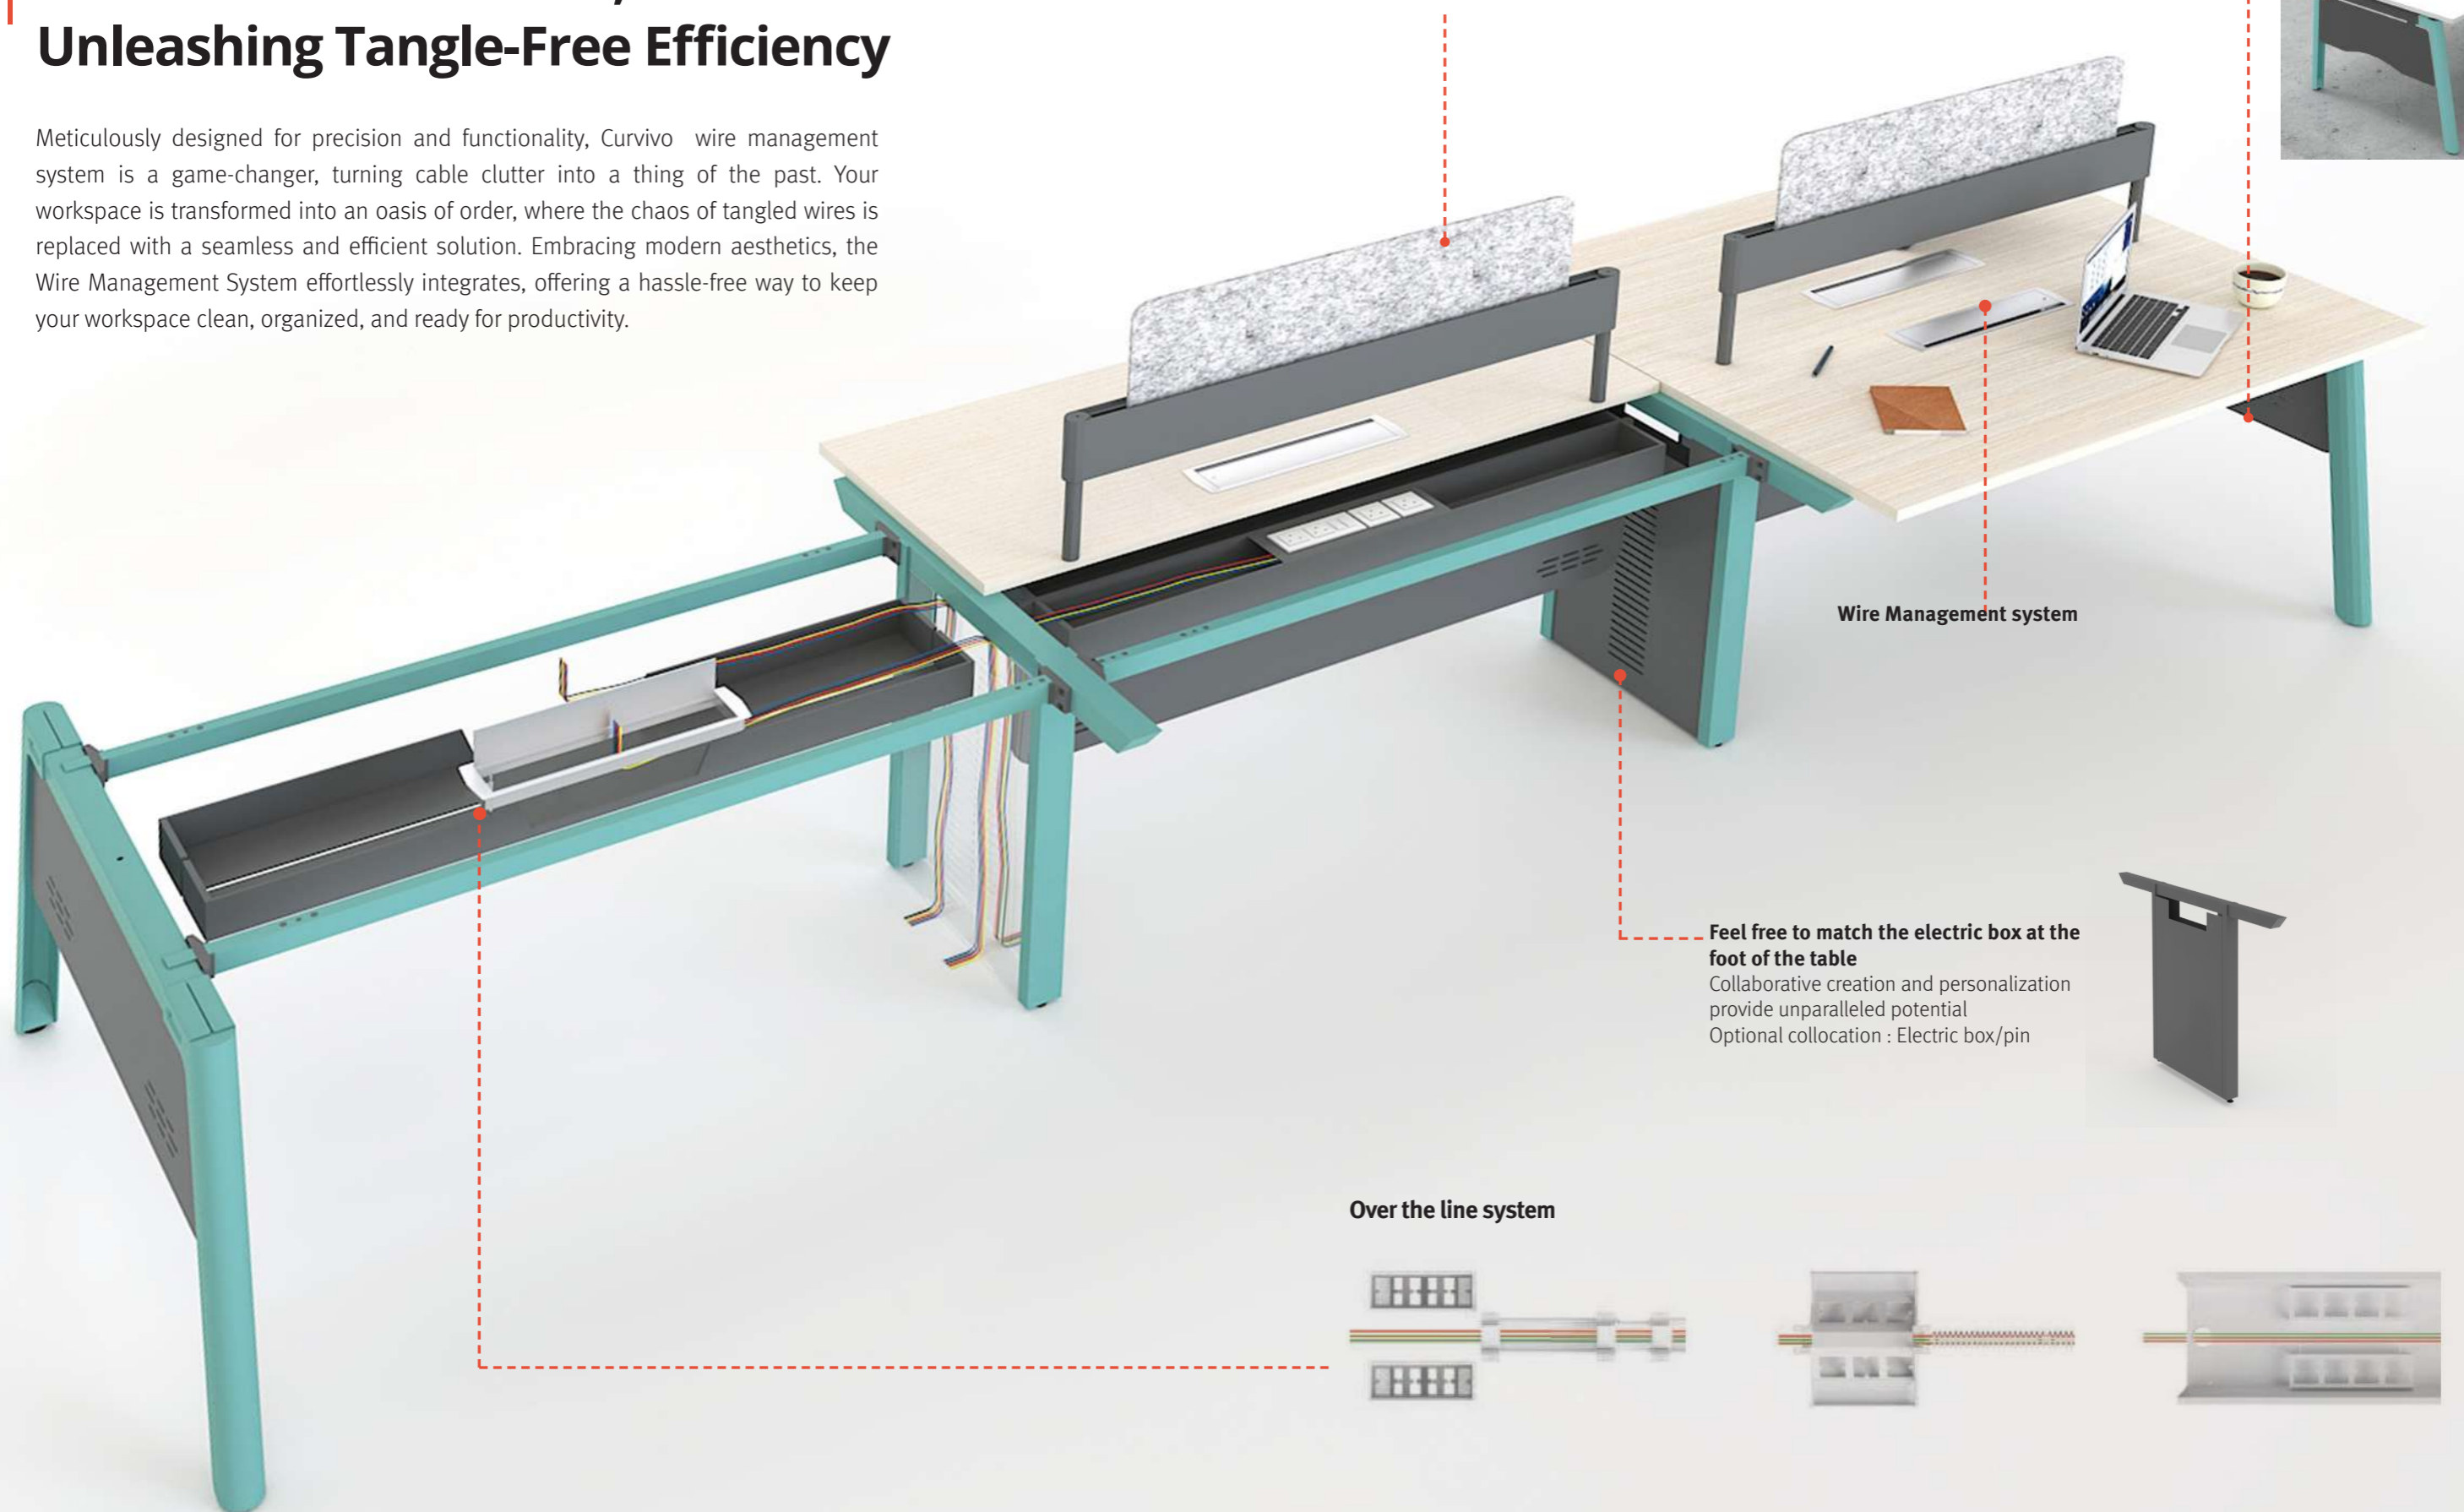

Environmentally conscious and durable, crafted from sustainable materials.

Tailored to your needs: Customize finish, size, and more for a personalized touch.

## Power Meets Precision, Unleashing Tangle-Free Efficiency

Meticulously designed for precision and functionality, Curvivo wire management system is a game-changer, turning cable clutter into a thing of the past. Your workspace is transformed into an oasis of order, where the chaos of tangled wires is replaced with a seamless and efficient solution. Embracing modern aesthetics, the Wire Management System effortlessly integrates, offering a hassle-free way to keep your workspace clean, organized, and ready for productivity.

### Acoustic Screen

Can be removed or can be made adjustable/ lifting screen.

### Modesty under the table/ Side Modesty

The modesty under the desk can be added or removed as you want to support individuals at work.

### Wire Management system

### Feel free to match the electric box at the foot of the table

Collaborative creation and personalization provide unparalleled potential  
Optional collocation : Electric box/pin

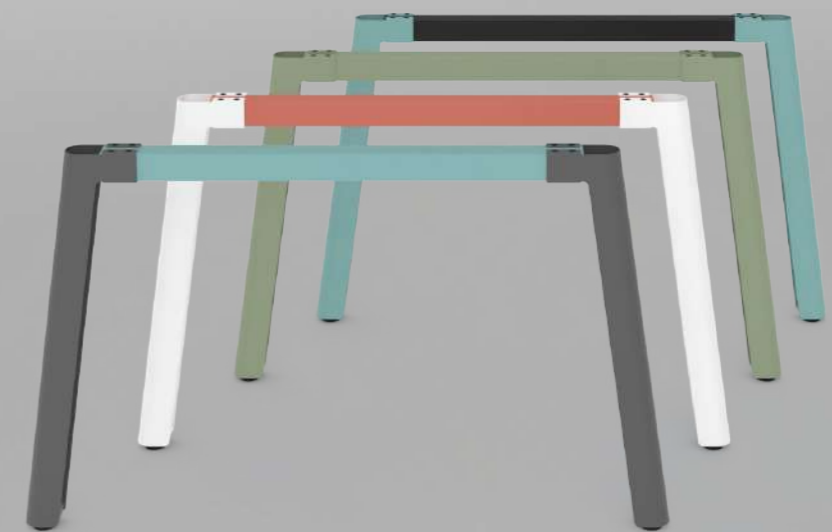

### Over the line system

## Time to elevate Your Workspace with Innovative Form and Structural Grace.

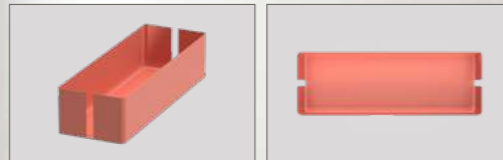

Now, designers have the option to select from a range of table legs and diverse finishes that complement their preferences. The Curvivo series leg stands out with its distinctive bridge structure, featuring vertically aligned legs of equal height anchored on either side of a structural beam.

- Leg vertical is 3mm thick CRCA sheet bended with single form tool to achieve the uniformity of the curvature of the leg
- Leg horizontal is 50x50x1.6mm thick CRCA tube clamped with the leg vertical to form a robust structure of the leg
- Connecting beam is 50x25x1.5 mm thick CRCA tube fixed with the help of zinc alloy heavy duty pressure die-casted connector, to connect with the end curvivo leg forming a stable understructure.

## Nature in Every Curve

Experience the harmony of nature and innovation with Curvivo's screen design featuring integrated planters. Seamlessly blending form and function, the planters' curved edges perfectly align with the aesthetic language of Curvivo, creating a cohesive and visually striking workspace. Elevate your environment with greenery while maintaining the modern design ethos of Curvivo.

Curvivo Mobile Pedestal seamlessly integrates with the design language of Curvivo, boasting curved edges that echo the collection's aesthetic finesse. An absolute answer to organizing small accessories and files discreetly, Curvivo's Mobile Pedestal provides a seamless storage solution without compromising on aesthetics.

# Elevate Your View: Tailor Your Screen, Tailor Your Comfort

## Lifting screen

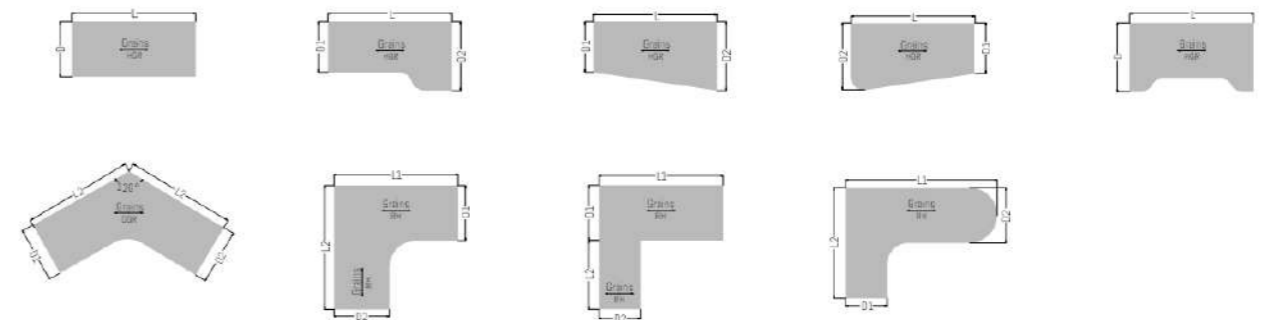

Lifting screen, can be integrated or installed independently, with a slot at the bottom, its very expressive and practical accessories can highlight the space

- Intermediate baffle screen is 9mm thick raw PET (polyethylene terephthalate) acoustic board with 0.9-0.95 NRC (noise reduction coefficient)
