

W-1904-P Automatic Side Sharpener

The W-1904-P Quad quickly and accurately sharpens the sides of swaged or stellite®-tipped bandsaws. The periphery grind option gives the operator an efficient and highly accurate finish grind, increasing saw performance.

The cupped wheel grinding heads rough grind the saw tip allowing the periphery grind heads to finish grind, resulting in unmatched bandsaw quality. The "for bandsaws only" design allows features that improve accuracy and speed.

Features

- Four (4) 1 hp spindle motors
- Filtered flood coolant
- Precision spindles
- Zero backlash system
- Grinding load monitor
- Full-length clamps
- Power saw lift
- Joystick control
- Finger-supported grind
- Dual- or quad-operated
