

W-150 HD B/54 Automatic Sharpener

The Wright W-150 HD-B/54 automatic sharpener sharpens the top, or face, of circular saws with more accurate and long-lasting results.

Heavy-duty construction increases grind accuracy, productivity, and machine life. Dependability and the versatility to grind many different tooth geometries in a single setup provides years of performance you can count on.

You'll get improved saw sharpening accuracy thanks to the lift off grind on the return stroke, and you'll get precision multi-bearing spindles and heavy-duty slide system.

The load monitor adjusts the feed rate, making quick work of tooth replacement and reducing the chance of grinding wheel damage. The powered saw lift automatically places the saw at the correct position, reducing set up time. Plus, simple controls makes for easy and efficient operation.
