

Tired of network problems?

Transcend Security now offers Meter network.

We've partnered with Meter to bring commercial properties a fully managed network solution that keeps the entire building connected, secure, and ready to scale.

Reliable.

High-performance connectivity you and your business can count on.

Secure.

Enterprise-grade protection for properties, tenants, and systems.

Managed.

Design, monitoring, software, support, and hardware management.

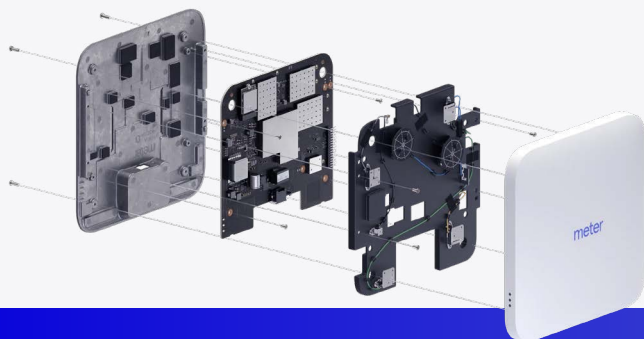

One partner. One plan. Total connectivity.

Transcend Security + Meter deliver the network foundation modern properties need.

**No capital outlay.
No upfront cost.**

Predictable monthly pricing.

*Subject to qualification and agreement terms.

Networks shouldn't be your problem.
Let us make it ours.

sales@transcendsecurity.com

A complete, fully-managed network solution.

Business Internet

Firewalls & Security

Meter Switches

Wi-Fi Access Points

Power Management

24/7 Monitoring

**Full-stack networks.
Internet, wired, Wi-Fi, and cellular.**

A unified stack— from power to Wi-Fi.

Meter's network service platform, delivered by Transcend Security, takes the complexity out of building connectivity.

Zero capital. Zero upfront.

No large hardware investment. No upfront payments. Just a simple monthly subscription.

Predictable monthly pricing.

One monthly rate can include hardware, software, support, maintenance, and upgrades.

Fully managed, fully supported.

Design, deployment coordination, proactive monitoring, updates, and 24/7 network operations.

Built to scale.

Add locations, standardize portfolios, and refresh hardware as your needs or staff grow.

Perfectly connected.

A network foundation designed to support security, tenants, and building technology.

A smarter network. A better building experience.

Let Transcend and Meter build you the network foundation your property deserves.
