

**RESTRICTED USE PESTICIDE / PESTICIDA DE USO RESTRINGIDO  
DUE TO TOXICITY TO FISH AND AQUATIC ORGANISMS /  
DEBIDO A SU TOXICIDAD PARA PECES Y ORGANISMOS ACUÁTICOS**

For retail sale to and use only by Certified Applicators, or persons under their direct supervision, and only for those uses covered by the Certified Applicator's certification. / Para la venta al por menor y uso únicamente por aplicadores certificados o personas que estén bajo su directa supervisión y únicamente para los usos detallados en el certificado de la Certificación del Aplicador.

# Chakra

## INSECTICIDE

For Use In and Around the Home and Food and Non-Food Areas of: Schools, Warehouses, Office Buildings, Apartment Buildings, Theatres, Hotels, Motels, Kennels, Food Processing Plants, Food Service Establishments, Truck Trailers, Railroad Cars, and Food Manufacturing and Warehouse Establishments.

Also for Use on Lawns to Kill Fleas and Ticks.

For Use in Void Areas to kill hidden pests such as ants (including carpenter ants), bedbugs, cockroaches, scorpions and stored product pests.

ACTIVE INGREDIENT:	By Weight %
Esfenvalerate*: (S)-cyano (3-phenoxyphenyl) methyl (S)-4-chloro-alpha-(1-methylethyl) benzeneacetate	8.4%
OTHER INGREDIENTS**:	91.6%
TOTAL:	100.0%
*CAS No. 66230-04-4 **Contains 0.66 lb. active ingredient per gallon. **Contains petroleum distillate	

**KEEP OUT OF REACH OF CHILDREN /  
MANTÉNGASE FUERA DEL  
ALCANCE DE LOS NIÑOS  
WARNING/AVISO**

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you **DO NOT** understand this label, find someone to explain it to you in detail.)

See inside booklet for complete Precautionary Statements,  
Directions For Use, and Storage and Disposal.

### Manufactured For:

Sharda USA LLC 

7217 Lancaster Pike, Suite A  
Hockessin, Delaware 19707

EPA Reg. No. 82633-112-83529

EPA Est. No. **AG** 72159-GA-001; **GH** 70815-GA-002; **MC** 89332-GA-001;

**SC** 39578-TX-001

The EPA Establishment Number is identified by the circled letters above that match the first two letters in the batch number.

Net Contents: **1 Gallon**

<b>FIRST AID</b>	
<b>IF SWALLOWED:</b>	<ul style="list-style-type: none"> <li>• Immediately call a poison control center or doctor for treatment advice.</li> <li>• <b>DO NOT</b> induce vomiting unless told to by a poison control center or doctor.</li> <li>• <b>DO NOT</b> give any liquid to the person.</li> <li>• <b>DO NOT</b> give anything by mouth to an unconscious person.</li> </ul>
<b>IF ON SKIN OR CLOTHING:</b>	<ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Rinse skin immediately with plenty of water for 15 - 20 minutes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
<b>IF IN EYES:</b>	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15 - 20 minutes.</li> <li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
<b>NOTE TO PHYSICIAN</b>	
Contains petroleum distillate. Vomiting may cause aspiration pneumonia. If on skin, after drying, apply Vitamin E cream or oil, if available. If not available, apply vegetable oil liberally over painful areas. The oil or cream may be used repeatedly until relief is achieved.	
<b>HOTLINE NUMBERS</b>	
Have the product container or label with you when calling a poison control center or doctor or going for treatment. For emergency information concerning this product, call your poison control center at <b>1-800-222-1222</b> . For general information about this product, contact the National Pesticides Information Center (NPIC) at <b>1-800-858-7378</b> , Monday through Friday, 8 AM to 12 PM PST, or at <a href="http://npic.orst.edu">http://npic.orst.edu</a> .	

## **PRECAUTIONARY STATEMENTS**

### **HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

#### **WARNING/AVISO**

May be fatal if swallowed. Harmful if absorbed through skin. Causes moderate eye irritation. **DO NOT** get in eyes, on skin, or on clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

#### **PERSONAL PROTECTIVE EQUIPMENT (PPE)**

##### **Applicators and other handlers must wear:**

- Long-sleeved shirt and long pants
- Chemical-resistant gloves made of barrier laminate, butyl rubber  $\geq$  14 mils, nitrile rubber  $\geq$  14 mils, polyvinyl chloride (PVC)  $\geq$  14 mils, or Viton  $\geq$  14 mils
- Shoes plus socks
- Protective eyewear

Discard clothing or other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. **DO NOT** reuse them. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

## USER SAFETY RECOMMENDATIONS

### Users should:

- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

## ENVIRONMENTAL HAZARDS

This product is toxic to aquatic organisms, including fish and invertebrates. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through runoff. This product has a potential for runoff for several weeks after application. Poorly draining soils and soils with shallow water tables are more prone to produce runoff that contains this product.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. **DO NOT** apply this product or allow it to drift to blooming crops or weeds while bees are foraging in the treatment area.

**DO NOT** apply directly to water, to areas where surface water is present or to inter-tidal areas below the mean high water mark. **DO NOT** contaminate water when disposing of equipment wash-waters or rinsate.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read all Directions for Use carefully before applying.

### USE RESTRICTIONS

- **DO NOT** tank mix this product with dichlorvos-(DDVP)-containing products.
- **DO NOT** apply directly to food.
- **DO NOT** spray plants used for food or feed.
- **DO NOT** allow children or pets to contact treated surfaces until spray has dried.
- **DO NOT** apply this product in occupied patient rooms or in any rooms/areas while occupied by patients, the elderly or infirm.
- **DO NOT** apply to classrooms while in use. **DO NOT** apply in institutions (including libraries, sports facilities, etc.) in the immediate area where occupants are present.
- **DO NOT** spray directly on animals.
- **DO NOT** apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

### INDOOR FOOD PROCESSING/HANDLING ESTABLISHMENT USE RESTRICTIONS

- **DO NOT** treat establishments where livestock feed is present.
- **DO NOT** spray plants used for food or feed.
- **DO NOT** allow children or pets to contact treated surfaces until spray has dried.
- **DO NOT** apply this product in occupied patient rooms or in any rooms/areas while occupied by patients, the elderly or infirm.
- **DO NOT** apply to classrooms while in use. **DO NOT** apply in institutions (including libraries, sports facilities, etc.) in the immediate area where occupants are present.

#### As a Surface Spray:

- **DO NOT** apply when food processing facility is in operation or foods are exposed.
- **DO NOT** apply this spray to surfaces or utensils that may come into contact with food; excessive residues in food may result.
- **DO NOT** enter or allow others to enter until sprays have dried.
- **DO NOT** exceed more than one (1) application every fourteen (14) days to kill the accessible stages of granary insects.
- **DO NOT** exceed more than one (1) application every seven (7) days in restaurants and similar food service establishments or more than one (1) application every fourteen (14) days in all types of food handling establishments.

#### As a Space Spray:

- **DO NOT** remain in treated area. Keep area closed for at least 1/2 hour.
- **DO NOT** enter or allow others to enter until vapors, mists, and aerosols have dispersed, and the treated area has been thoroughly ventilated.
- **DO NOT** repeat application more than once every three (3) days.
- **DO NOT** apply when food processing facility is in operation or foods are exposed.
- **DO NOT** apply this spray to surfaces or utensils that may come in contact with food.
- **DO NOT** reapply more than every fourteen (14) days to treat voids in equipment and structures.

#### RESIDENTIAL/COMMERCIAL INDOOR USE RESTRICTIONS

- **DO NOT** permit humans or pets to contact treated surfaces until the spray has dried. Old bedding must be removed and replaced with clean, fresh bedding after treatment.
- **DO NOT** treat establishments where livestock feed is present.
- **DO NOT** apply using ULV equipment in residential buildings.
- **DO NOT** Spray Pets With This Product. Treat dogs and cats with a product registered for use on animals.
- **DO NOT** reapply more than every fourteen (14) days.

For both indoor and outdoor use.

**DO NOT** allow to enter indoor or outdoor drains.

*No permita la entrada a desagües internos o externos.*

#### PRODUCT INFORMATION

**Chakra** can be mixed with an EPA-registered Insect Growth Regulator (IGR) or pyrethrin-containing product in areas where these products are allowed to be sprayed. Please check product-specific label directions before using.

Cover or remove all food and food-processing equipment during application. After spraying in meat packing plants, bakeries, and other food processing plants, wash all equipment, benches, shelving, etc. where exposed food will be handled with an effective cleaning compound, and then rinse with potable water. In the home, all food processing surfaces and utensils must be covered during treatment or thoroughly washed before use following treatment. Cover exposed food.

Remove pets and birds and cover fish aquariums before spraying.

SHAKE WELL BEFORE USE.

---

## INDOOR USE

---

GENERAL: Use **Chakra** insecticide to control the pests indicated in the listed areas as a contact spray by mixing either 0.42 fluid ounces of concentrate in 1 gallon of water or oil or 0.83 fluid ounces of concentrate in 1 gallon of water or oil and mix thoroughly before use. One 0.42 fluid ounce of **Chakra** per 1 gallon of water or oil will make a spray containing 0.027% active ingredient, 0.83 fluid ounces per 1 gallon will make a spray containing 0.05% active ingredient. For initial clean out of heavy infestations use 0.83 fluid ounce of concentrate per 1 gallon of spray; for maintenance control or light infestations use 0.42 fluid ounce of concentrate per 1 gallon. When using oil as the diluent, an odorless light petroleum hydrocarbon as defined by CFR Title 21, Sec. 172.884 must be used for all food areas and food related applications. For all applications of contact sprays, use at the rate of one (1) gallon (diluted spray) per 1,000 square feet of surface area.

### APPLICATION IN FOOD PROCESSING/HANDLING ESTABLISHMENTS

#### DO NOT TREAT ESTABLISHMENTS WHERE LIVESTOCK FEED IS PRESENT

Application only within food and non-food areas of food service and handling establishments (places other than private residences) including or consisting of: restaurants, grocery stores, bakeries, food manufacturing and processing establishments, and food warehousing establishments. **DO NOT** treat establishments where livestock feed is present.

Food areas include areas for receiving, storage, packing, canning, bottling, wrapping, boxing, preparing, edible waste storage, enclosed processing systems, mills, and dairies. Serving areas are places where prepared foods are served, such as dining rooms, but excluding areas where foods may be prepared or held. Non-food areas include garbage rooms, lavatories, floor drains to sewers, entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, and storage after canning or bottling.

#### As a Surface Spray:

**DO NOT** apply when food processing facility is in operation or foods are exposed.

**DO NOT** apply this spray to surfaces or utensils that may come into contact with food; excessive residues in food may result. **DO NOT** enter or allow others to enter until sprays have dried.

To kill the accessible stages of granary insects, rice weevils, confused flour beetles, rust red flour beetles, saw-toothed grain beetles, cadelles, meal moth larvae and adults, cigarette beetles, drug store beetles and granary weevils: apply as a coarse wet spray to surfaces where these pests are normally found, such as floors and baseboards and around walls, benches, and pieces of equipment. Use at a dosage of one (1) gallon of spray per 1,000 square feet. Pay particular attention to cracks, crevices, and similar protected locations in floors and walls. Spray thoroughly around and into floor drains, non-food conveyors, and other areas where granary insects may be found. **DO NOT** apply when food processing facility is in operation or foods are exposed. **DO NOT** apply this spray to surfaces or utensils that may come into contact with food; excessive residues in food may result.

Repeat application as needed, but **DO NOT** exceed more than one (1) application every fourteen (14) days.

To kill Ants, Centipedes, Cockroaches, Crickets, Earwigs, Millipedes, Psocids, Scorpions, Silverfish, Sowbugs, Spiders, and Waterbugs: Apply this spray with a sprayer that produces coarse, wetting droplets into all cracks and crevices in woodwork and floors, underneath sinks, areas behind pipes, and in all places where these insects shelter. Use a dosage of one (1) gallon of spray per 1,000 square feet. Contact as many insects as possible with direct spray. Repeat applications as needed, but **DO NOT** exceed more than one (1) application every seven (7) days in restaurants and similar food service establishments or more than one (1) application every fourteen (14) days in all types of food handling establishments.

### As a Space Spray:

To kill Cockroaches, Houseflies, Mosquitoes, Gnats, Spiders, Silverfish, Scorpions, and Small Flying Moths: Close room and shut off all air conditioning or ventilating equipment. For space spray applications use a maximum of four (4) ounces of concentrate diluted in one (1) gallon of oil (or oil based-based pyrethrin product registered for space spray use) only to make a 0.25% spray. Use diluted spray in a mechanical aerosol fogger or generator which produces particles of aerosol size thirty (30 microns or less). Direct spray first into all cracks and crevices, behind all equipment, appliances, cupboards, or any dark harborage areas, then treat as a space spray directing the spray towards the ceiling and upper corners of the room at the rate of one (1) ounce diluted spray per 1,000 cubic feet of space. **DO NOT** remain in treated area. Keep area closed for at least 1/2 hour. **DO NOT** enter or allow others to enter until vapors, mists, and aerosols have dispersed, and the treated area has been thoroughly ventilated. **DO NOT** repeat application more than once every three (3) days.

To kill the adult and accessible forms of insect pests (such as Rice Weevil, Yellow Meal Worm, Cadelle, Confused Flour Beetle, Saw-toothed Grain Beetles, Angoumois Grain Moth, Mediterranean Four Moth, Indian Meal Moth, Cigarette Beetle, Grain Mites and Cockroaches) of stored food in warehouses, storage rooms and facilities and similar locations: **DO NOT** apply when food processing facility is in operation or foods are exposed. **DO NOT** apply this spray to surfaces or utensils that may come in contact with food. Food contact surfaces and equipment should be thoroughly cleaned with an effective cleaning compound and rinsed with potable water before using. Infested stored products should be removed and destroyed, fumigated or treated with other products approved for this use.

Use as above in mechanical aerosol foggers at the rate of one (1) ounce diluted spray per 1,000 cubic feet of space. Keep area closed for at least 1/2 hour. **DO NOT** repeat application more than once every three (3) days.

To Treat Voids in Equipment and Structures: To kill Ants (including Carpenter Ants), Bedbugs, Centipedes, Cockroaches, Crickets, Earwigs, Psocids, Scorpions, Silverfish, Spiders, Waterbugs, and Insect Pests of Stored Food: Dilution with oil or pyrethrin-containing oil based products (0.5% or 1.0% Pyrethrin should be sufficient) will provide best aerosol particle size for better penetration of wall, drop ceiling or other void - type spaces in structures or equipment with this type of application method. Addition of an IGR is also possible. To kill insects harboring in wall voids and other inaccessible spaces in equipment and structures, use injection equipment designed for deep void ULV (Ultra Low Volume) applications. Follow the injection equipment manufacturer's recommendations for proper set up and air pressures. Place the applicator tip at or into the void space to be treated. For inaccessible voids, it may be necessary to drill an access hole(s). Inject product into the void space in short bursts, allowing the air pressure to push insecticide deep into the space. Avoid applying to the point of runoff or drip. **DO NOT** reapply more than every fourteen (14) days.

### RESIDENTIAL/COMMERCIAL USE INDOORS

Application within residential and non-residential buildings including homes, apartment buildings, kennels, and non-food areas of industrial, institutional, and commercial buildings, such as hospitals, hotels, warehouses, truck trailers, railroad cars, theatres, office buildings, and schools.

**GENERAL:** Apply as a coarse wet spray to thoroughly treat hiding places, such as cracks, crevices, and moist areas around pipes, under refrigerators, and along baseboards to control pests listed below. Use at the rate of one (1) gallon of spray mixture per 1,000 square feet.

Spray directly on insects when possible. **DO NOT** permit humans or pets to contact treated surfaces until the spray has dried. Repeat as necessary. **DO NOT** treat establishments where livestock feed is present. **DO NOT** apply using ULV equipment in residential buildings.

To kill Ants, Centipedes, Cockroaches, Crickets, Earwigs, Millipedes, Psocids, Scorpions, Silverfish, Sowbugs, Spiders, and Waterbugs: Spray areas where these pests are found or may hide, including dark corners of rooms and closets; cracks and crevices in

walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators and cabinets; and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places must be sprayed directly. For Ants, apply to ant trails, around doors and windows, and wherever these pests may find entrance.

Repeat as necessary.

**To kill Brown Dog Ticks and Fleas:** For control of Brown Dog Ticks, thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters; nearby cracks and crevices; along and behind baseboards, window and door frames; and localized areas of floor and floor coverings where these pests may be present. For control of Fleas, thoroughly apply a fine particle broadcast spray using the 0.42 fluid ounce of concentrate per one (1) gallon of water dilution for infested rugs, carpets, and pet resting areas. Prior to treatment, aquariums and fish bowls must be covered and birds, such as canaries, removed from the area. **DO NOT** permit humans or pets to contact treated surfaces until the spray has dried. Old bedding must be removed and replaced with clean, fresh bedding after treatment. **DO NOT** Spray Pets With This Product. Treat dogs and cats with a product registered for use on animals.

**To kill Carpenter Ants:** Apply 0.83 fluid ounce per 1 gallon of water as a coarse spray around doors, door frames, windows, and other areas where these ants enter the premises or hide. Spray into cracks and crevices and through openings or small newly drilled holes into wall voids where these ants or their nests are present.

**To Treat Voids in Equipment and Structures:** To kill Ants (including Carpenter Ants), Bedbugs, Centipedes, Cockroaches, Crickets, Earwigs, Psocids, Scorpions, Silverfish, Spiders, Waterbugs, and Insect Pests of Stored Food: Dilution with oil or pyrethrin-containing oil based products ( 0.5% or 1.0% Pyrethroid should be sufficient) will provide best aerosol particle size for better penetration of wall, drop ceiling or other void- type spaces in structures or equipment with this type of application method. Addition of an IGR is also possible. To kill insects harboring in wall voids and other inaccessible spaces in equipment and structures, use injection equipment designed for deep void applications. Follow the injection equipment manufacturer's recommendations for proper set up and air pressures. Place the applicator tip at or into the void space to be treated. For inaccessible voids, it may be necessary to drill an access hole(s). Inject product into the void space in short bursts, allowing the air pressure to push insecticide deep into the space. Avoid applying to the point of runoff or drip. Ventilate area thoroughly before re- entry. **DO NOT** reapply more than every fourteen (14) days.

---

## OUTDOOR USE

---

All outdoor spray applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:

1. Application to pervious surfaces such as soil, lawn, turf, and other vegetation;
2. Perimeter band treatments of 7 feet wide or less from the base of a man-made structure to pervious surfaces (e.g., soil, mulch, or lawn);
3. Applications to underside of eaves, soffits, doors, or windows permanently protected from rainfall by a covering, overhang, awning, or other structure;
4. Applications around potential exterior pest entry points into man-made structures such as doorways and windows, when limited to a band not to exceed one inch;
5. Applications to vertical surfaces (such as the side of a man-made structure) directly above impervious surfaces (e.g., driveways, sidewalks, etc.), up to 2 feet above ground level;
6. Applications to vertical surfaces directly above pervious surfaces, such as soil, lawn, turf, mulch or other vegetation) only if the pervious surface does not drain into ditches, storm drains, gutters, or surface waters.

## OUTDOOR USE RESTRICTIONS

Spot treatments must not exceed two square feet in size (for example, 2 ft. by 1 ft. or 4 ft. by 0.5 ft.).

For soil or foliar applications, do not apply by ground within 25 feet of lakes, reservoirs, rivers, permanent streams, marshes or natural ponds, estuaries and commercial fish farm ponds.

**DO NOT** apply the product into fish pools, ponds, streams, or lakes. **DO NOT** apply directly to sewers or storm drains, or to any area like a drain or gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur.

**DO NOT** allow the product to enter any drain during or after application.

**DO NOT** apply directly to impervious horizontal surfaces such as sidewalks, driveways, and patios except as a spot or crack-and-crevice treatment.

**DO NOT** apply or irrigate to the point of runoff.

**DO NOT** make applications during rain. Avoid making applications when rainfall is expected before the product has sufficient time to dry (minimum 4 hours).

Rainfall within 24 hours after application may cause unintended runoff of pesticide application.

**DO NOT** apply when the wind speed is greater than 15 mph.

**DO NOT** spray directly on animals.

Treat surfaces to ensure thorough coverage but avoid runoff.

To treat insects harbored in voids and cracks-and-crevices, applications must be made in such a manner to limit dripping and avoid runoff onto untreated structural surfaces and plants.

GENERAL: Use **Chakra** at the rate of 0.83 fluid ounce per 1 gallon of water to control contact on Ants, Cockroaches, Crickets, Sowbugs, Spiders, and Ticks. Use at the rate of one (1) gallon per 1,000 square feet to outside surfaces of buildings, porches, patios, garages and other areas where these pests have been seen or are found. **DO NOT** spray in or near fish ponds or other bodies of water. Avoid soaking young or flowering plants. **DO NOT** water the treated area to the point of run-off. **DO NOT** make applications during rain. All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:

1. Treatment to soil or vegetation around structures.
2. Applications to lawns, turf, and or vegetations.
3. Applications to building foundations, up to a maximum height of 3 feet. Other than applications to building foundations, all outdoor applications to Impervious surfaces such as sidewalks, driveways, patios, porches, and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications only.

Building Perimeter Treatment: To help prevent infestations of buildings by Ants, Crickets, Spiders, Centipedes, and Sowbugs (Pillbugs), treat a 12-18 inch band of soil or other substrate adjacent to buildings and the building foundation to a height of 2 to 3 feet where these pests are active and may find entrance. Use 0.83 fluid ounce per 1 gallon of water and apply as a coarse wet spray at the rate of one (1) gallon per 1,000 square feet.

TO KILL EXPOSED/SWARMING TERMITES: **OUTDOORS ONLY.**

Use 0.83 fluid ounce of **Chakra** per 1 gallon of water and apply as a coarse, wetting spray where swarming termites are seen emerging from wood piles, wooden fence posts, wooden structures, or from the ground. Swarming usually occurs in the spring or at other times when a termite colony becomes overcrowded and new reproductive termites with wings emerge and fly away to mate and

establish new colonies. This treatment will control the sprayed termites and will not protect the structure from which the swarm is coming. Use only as a contact spray to kill emerging reproductive (winged) and worker termites emerging from infested wood.

**TO KILL WOOD-DESTROYING PESTS: OUTDOORS ONLY.**

Carpenter Bees, Carpenter Ants, Old House Borers, Powder Post Beetles, Furniture Beetles, Round-Headed House Borers, and Deathwatch Beetles. Use 0.83 fluid ounce of **Chakra** per 1 gallon of water and apply as a course, wetting spray to exposed pests and to the damaged areas of wood, spraying into galleries or tunnels in the exposed wood. Also spray around doors, door frames, windows, and other areas where these pests may enter the house or hide. Spray into cracks and crevices and, if necessary, drill small holes and spray into inaccessible wooden structural voids where these pests are suspected.

**LAWN FLEA AND TICK CONTROL:**

To kill Fleas and Ticks harboring in lawns and backyards: For power sprayers, dilute and apply as shown in the table below. (Use this concentrate in a hose-end sprayer. Place required amount of concentrate in sprayer jar (see chart below) and fill with water to the recommended level. Mix well. Attach to sprayer and spray as recommended.) For best results, lawn must be mowed one to two (1 - 2) days before spraying. Spray using a slow, even sweeping motion, being sure to cover the entire lawn surface where the pets will normally frequent. Spray under ornamentals and trees but avoid soaking young or flowering plants. Repeat treatments may be necessary at 7 to 14 day intervals. **Chakra** kills the Ixodes scapularis tick which may transmit Lyme disease.

**Chakra** also kills foraging fire ants upon direct contact. A registered fire ant mound treatment must also be used in conjunction with this product.

Keep pets and children out of the treated area until after the spray has dried. **DO NOT** spray directly on animals. Treat dogs and cats and their kennel or bedding area with a registered flea control product in conjunction with this application.

Amount of Product to Use Fluid Ounces	Amount of Water to Use	Area to be Treated
0.07 Fluid Ounce	3 gallons	500 sq. ft. (50' X 10')
0.14 Fluid Ounce	6 gallons	1,000 sq. ft. (50' X 20')
0.28 Fluid Ounce	12 gallons	2,000 sq. ft. (50' X 40')

**OUTDOOR CONTROL OF ASIAN COCKROACHES:**

To control outdoor infestations of Asian cockroaches: Dilute four (4) teaspoons of **Chakra** in 30 gallons of water to treat 5,000 sq. ft. Repeat as needed. Keep children and pets off treated areas for 24 hours or until the grass has completely dried.

## STORAGE AND DISPOSAL

**DO NOT** pour or dispose down-the-drain or sewer. Call your local solid waste agency for local disposal options.

**DO NOT** contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** Store in cool dry place in original container. Keep container closed when not in use. **DO NOT** store near food or feed.

**PESTICIDE DISPOSAL:** Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

### CONTAINER HANDLING:

**Less Than or Equal to 5 Gallons:** Nonrefillable container. **DO NOT** reuse or refill this container. Offer for recycling if available. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available or reconditioning if appropriate or puncture and dispose of in a sanitary landfill or by other procedures allowed by State and local authorities.

**Greater Than 5 Gallons:** Nonrefillable container. **DO NOT** reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Dispose of empty container in a sanitary landfill or by other procedures allowed by State and local authorities.

**For Bulk and Mini-Bulk Containers:** Refillable container. Refill this container with pesticide only. **DO NOT** use this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the person refilling. To clean container before final disposal, empty the remaining contents from this container into application equipment or mix tank. Fill the container about 10% full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinsate into application equipment or rinsate collection system. Repeat this rinsing procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, or by other procedures allowed by State and local authorities.

#### CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY

**NOTICE:** Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

The Directions for Use of this product must be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Ineffectiveness or other unintended consequences may result because of such factors as manner of use or application, weather, presence of other materials or other influencing factors in the use of the product, which are beyond the control of Sharda USA LLC or Seller. To the extent consistent with applicable law, all such risks shall be assumed by Buyer and User, and Buyer and User agree to hold Sharda USA LLC and Seller harmless for any claims relating to such factors.

Sharda USA LLC warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks referred to above, when used in accordance with directions under normal use conditions. This warranty does not extend to the use of this product contrary to label instructions, or under conditions not reasonably foreseeable to or beyond the control of Seller or Sharda USA LLC and Buyer and User assume the risk of any such use. To the extent consistent with applicable law, SHARDA USA LLC. MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.

To the extent consistent with applicable law, neither Sharda USA LLC nor Seller shall be liable for any incidental, consequential, or special damages resulting from the use or handling of this product. **TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF SHARDA USA LLC AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF SHARDA USA LLC OR SELLER, THE REPLACEMENT OF THE PRODUCT.**

Sharda USA LLC and Seller offer this product, and Buyer and User accept it, subject to the foregoing Conditions of Sale and Limitation of Warranty and Liability, which may not be modified except by written agreement signed by a duly authorized representative of Sharda USA LLC.

<b>PRIMEROS AUXILIOS</b>	
<b>SI SE INGIERE:</b>	<ul style="list-style-type: none"> <li>• Llame de inmediato a un centro de control de envenenamientos o a un médico para consejo de tratamiento.</li> <li>• <b>NO</b> induzca el vómito a menos que así se lo indique un centro de control de envenenamientos o un médico.</li> <li>• <b>NO</b> administre ningún líquido a la persona.</li> <li>• <b>NO</b> administre nada por boca a una persona que haya perdido el conocimiento.</li> </ul>
<b>SI CAE EN LA PIEL O LA ROPA:</b>	<ul style="list-style-type: none"> <li>• Quite la ropa contaminada.</li> <li>• Enjuague la piel inmediatamente con bastante agua por 15 - 20 minutos.</li> <li>• Llame al centro de control de envenenamientos o a un médico para consejo de tratamiento.</li> </ul>
<b>SI ENTRA EN CONTACTO CON LOS OJOS:</b>	<ul style="list-style-type: none"> <li>• Mantenga los ojos abiertos y enjuáguelos lenta y cuidadosamente con agua, durante 15 a 20 minutos.</li> <li>• Si utiliza lentes de contacto, retírelos después de los primeros 5 minutos, luego continúe enjuagando los ojos.</li> <li>• Llame al centro de control de envenenamientos o a un médico para consejo de tratamiento.</li> </ul>
<b>NOTA AL MÉDICO</b>	
<p>Contiene un destilado de petróleo. El vómito puede causar neumonía por aspiración. Si la zona está en contacto con la piel, después de secarla, aplique crema o aceite de vitamina E, si dispone de él. Si no dispone de él, aplique aceite vegetal generosamente sobre las zonas doloridas. Puede usar el aceite o la crema repetidamente hasta obtener alivio.</p>	
<b>NÚMERO DE TELÉFONO DIRECTO</b>	
<p>Cuando llame a un centro de control de envenenamiento, o a un médico, o intente obtener tratamiento, tenga a la mano el recipiente o la etiqueta del producto. Para información emergencia sobre este producto, llame al centro de control de envenenamientos a <b>1-800-222-1222</b>. Para información general sobre este producto, contacte al Centro Nacional de Información de Pesticidas (NPIC, por sus siglas en inglés) a <b>1-800-858-7378</b>, Lunes a Viernes, 8 AM a 12 PM PST (hora del Pacífico), o a <a href="http://npic.orst.edu">http://npic.orst.edu</a>.</p>	

## DECLARACIONES PREVENTIVAS

### RIESGOS PARA LOS SERES HUMANOS Y ANIMALES DOMÉSTICOS

#### AVISO

Puede ser letal si se ingiere. Dañino si se absorbe por la piel. Causa irritación moderada en los ojos. **NO** permita que caiga en los ojos, la piel o la ropa. Lávese con abundante agua y jabón luego de manejar (pesticidas) y antes de comer, beber, masticar chicle, utilizar tabaco, o usar al baño. Quite y lave la ropa contaminada antes de reutilizarla.

#### EQUIPO DE PROTECCIÓN PERSONAL (PPE, por sus siglas en inglés)

**Los aplicadores y otros manipuladores de pesticidas (plaguicidas) deberán usar:**

- Camisa de manga larga y pantalones largos
- Guantes resistentes a productos químicos fabricados con laminados impermeables, goma de butilo  $\geq$  14 mils, goma de nitrilo  $\geq$  14 mils, cloruro de polivinilo  $\geq$  14 mils, o Viton  $\geq$  14 mils
- Zapatos y calcetines
- Lentes o gafas protectoras

Deseche la ropa y otros materiales absorbentes que hayan sido empapados o muy contaminados con el concentrado de este producto. **NO** vuelva a reutilizarlos. Siga las instrucciones del fabricante para la limpieza/mantenimiento del equipo de protección

personal (PPE, por sus siglas en inglés). En caso de no existir dichas instrucciones de lavado, utilice detergente y agua caliente. Mantenga y lave el PPE separadamente de otra ropa para lavar.

#### **RIESGOS AMBIENTALES**

Este producto es tóxico para los organismos acuáticos, incluidos peces e invertebrados. La deriva o el rociado y las escorrentías pueden ser peligrosas para los organismos acuáticos en las áreas vecinas. Este producto puede contaminar el agua a través de la escorrentía. Este producto tiene un alto potencial de escurrimiento durante varias semanas después de su aplicación. Los suelos mal drenados y los suelos con capas freáticas poco profundas son más propensos a producir escorrentías que contengan este producto.

Este producto es altamente tóxico para las abejas expuestas al contacto directo con cultivos en flor o malas hierbas. **NO** aplique este producto ni permita que derive sobre cultivos en floración o malezas mientras las abejas estén buscando alimento en la zona de tratamiento.

**NO** aplique el producto directamente al agua, a zonas donde haya presencia de agua superficial ni a las zonas intermareales por debajo de la marca de pleamar media. **NO** contamine el agua al desechar el agua de lavado o enjuague del equipo.

El uso de este producto de forma contraria a lo indicado en su etiqueta constituye una infracción de la ley federal. Lea atentamente todas las instrucciones de uso antes de aplicar este producto.

## ALMACENAMIENTO Y DESECHO

**NO** verter ni desechar en el desagüe ni en el alcantarillado. Llame a su agencia local de residuos sólidos para conocer las opciones de eliminación local.

**NO** contamine agua, comida ni forrajes mediante el almacenamiento y desecho.

**ALMACENAMIENTO DE PESTICIDAS:** Conservar en un lugar fresco y seco. Mantenga el envase cerrado cuando no lo use. **NO** almacenar cerca de forraje o alimentos.

**DESECHO DE PESTICIDAS:** Los residuos resultantes del uso de este producto pueden eliminarse en el sitio o en una instalación de eliminación de residuos aprobada.

### MANIPULACIÓN DE ENVASES:

**Menor o igual a 5 galones:** Recipiente no rellenable. **NO** reutilice ni rellene este recipiente. Ofrezca para el reciclaje si está disponible. Enjuague tres veces (o equivalente) el recipiente inmediatamente después de vaciarlo. Enjuague tres veces siguiendo estas indicaciones: vacíe los contenidos restantes en el equipo de aplicación o un tanque de mezclar, y drene por 10 segundos después de que el flujo empiece a gotear. Llene el recipiente 1/4 lleno con agua y tape de nuevo. Agite por 10 segundos. Eche el enjuague en el equipo de aplicación o tanque de mezclar, o almacene el enjuague para uso más tarde o eliminación. Drene por 10 segundos después de que el flujo empiece a gotear. Repita este procedimiento dos veces más. Luego ofrezca para el reciclaje si está disponible o el reacondicionado si está adecuado, o perforo y deseche en un área adecuada para desechos sanitarios o por otros procedimientos aprobados por las autoridades estatales y locales.

**Más de 5 galones:** Recipiente no rellenable. **NO** reutilice ni rellene este recipiente. Ofrezca para el reciclaje si está disponible. Enjuague tres veces (o equivalente) el recipiente inmediatamente después de vaciarlo. Enjuague tres veces siguiendo estas indicaciones: vacíe los contenidos restantes en el equipo de aplicación o un tanque de mezclar. Llene el recipiente 1/4 lleno con agua. Reemplace y asegure los cierres. Vuelque el recipiente al lado y hágalo rodar por 30 segundos, asegurando por lo menos una revolución completa. Ponga el recipiente vertical e inclínelo hacia adelante y hacia atrás varias veces. Dé vuelta al recipiente hacia el lado opuesto e inclínelo hacia adelante y hacia atrás varias veces. Eche el enjuague en el equipo de aplicación o tanque de mezclar, o almacene el enjuague para uso más tarde o eliminación. Repita este procedimiento dos veces más. Deseche el recipiente vacío en un vertedero sanitario o mediante otros procedimientos aprobados por las autoridades locales y estatales.

**Para Contenedores y mini-contenedores a granel:** Recipiente rellenable. Rellene este recipiente únicamente con pesticida. **NO** reutilice este recipiente para ningún otro propósito. La limpieza del recipiente antes de su eliminación final es la responsabilidad de la persona que se deshace del recipiente. La limpieza antes de rellenar es la responsabilidad de la persona que lo va a rellenar. Para limpiar el recipiente antes de su eliminación final, vacíe el contenido restante de este recipiente en el equipo de aplicación o en el tanque de mezcla. Llene el recipiente con un 10% de agua. Agitar vigorosamente o haga recircular el agua con la bomba durante 2 minutos. Vierta o bombee el agua de enjuague en el equipo de aplicación o en el sistema de recolección de agua de enjuague. Repita este procedimiento dos veces más. Luego ofrezca para el reciclaje si está disponible o perforo y deseche en un área adecuada para desechos sanitarios, o por otros procedimientos aprobados por las autoridades estatales y locales o la incineración.

**NOTES**

NOTES

# RESTRICTED USE PESTICIDE DUE TO TOXICITY TO FISH AND AQUATIC ORGANISMS

For retail sale to and use only by Certified Applicators, or persons under their direct supervision, and only for those uses covered by the Certified Applicator's certification.

## Chakra

For Use In and Around the Home and Food and Non-Food Areas of: Schools, Warehouses, Office Buildings, Apartment Buildings, Theatres, Hotels, Motels, Kennels, Food Processing Plants, Food Service Establishments, Truck Trailers, Railroad Cars, and Food Manufacturing and Warehousing Establishments.

Also for Use on Lawns to Kill Fleas and Ticks.

For Use in Void Areas to Kill hidden pests such as ants (including carpenter ants), bedbugs, cockroaches, scorpions and stored product pests.

### ACTIVE INGREDIENT:

Esfenvalerate\*: (S)-cyano (3-phenoxyphenyl) methyl(S)-4-chloro-alpha-(1-methylethyl) benzeneacetate. .... 8.4%

OTHER INGREDIENTS\*\* : ..... 91.6%

TOTAL : ..... 100.0%

\*CAS No. 66230-04-4 \*Contains 0.66 lb. active ingredient per gallon.

\*\*Contains petroleum distillate

By Weight %

## KEEP OUT OF REACH OF CHILDREN WARNING/AVISO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.

(If you **DO NOT** understand this label, find someone to explain it to you in detail.)

**FIRST AID - IF SWALLOWED:** • Immediately call a poison control center or doctor for treatment advice. • **DO NOT** induce vomiting unless told to by a poison control center or doctor. • **DO NOT** give any liquid to the person. • **DO NOT** give anything by mouth to an unconscious person. **IF ON SKIN OR CLOTHING:** • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15 - 20 minutes. • Call a poison control center or doctor for treatment advice. **IF IN EYES:** • Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.

**NOTE TO PHYSICIAN** - Contains petroleum distillate. Vomiting may cause aspiration pneumonia. If on skin, after drying, apply Vitamin E cream or oil, if available. If not available, apply vegetable oil liberally over painful areas. The oil or cream may be used repeatedly until relief is achieved.

**HOTLINE NUMBERS** - Have the product container or label with you when calling a poison control center or doctor or going for treatment. For emergency information concerning this product, call your poison control center at **1-800-222-1222**. For general information about this product, contact the National Pesticides Information Center (NPIC) at **1-800-858-7378**, Monday through Friday, 8 AM to 12 PM PST, or at <http://npic.orst.edu>.

**PRECAUTIONARY STATEMENTS - HAZARDS TO HUMANS AND DOMESTIC ANIMALS - WARNING/AVISO** - May be fatal if swallowed. Harmful if absorbed through skin. Causes moderate eye irritation. **DO NOT** get in eyes, on skin, or on clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

**ENVIRONMENTAL HAZARDS** - This product is toxic to aquatic organisms, including fish and invertebrates. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through runoff. This product has a potential for runoff for several weeks after application. Poorly draining soils and soils with shallow water tables are more prone to produce runoff that contains this product. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. **DO NOT** apply this product or allow it to drift to blooming crops or weeds while bees are foraging in the treatment area. **DO NOT** apply directly to water, to areas where surface water is present or to inter-tidal areas below the mean high water mark. **DO NOT** contaminate water when disposing of equipment wash-waters or rinsate.

**DIRECTIONS FOR USE** - It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read all Directions for Use carefully before applying.

## STORAGE AND DISPOSAL

**DO NOT** pour or dispose down-the-drain or sewer. Call your local solid waste agency for local disposal options. **DO NOT** contaminate water, food or feed by storage or disposal. **PESTICIDE STORAGE:** Store in cool dry place in original container. Keep container closed when not in use. **DO NOT** store near food or feed. **PESTICIDE DISPOSAL:** Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER HANDLING: Less Than or Equal to 5 Gallons:** Nonrefillable container. **DO NOT** reuse or refill this container. Offer for recycling if available. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available or reconditioning if appropriate or puncture and dispose of in a sanitary landfill or by other procedures allowed by State and local authorities.

See label booklet for additional  
Precautionary Statements and Directions For Use.
