# SHAOLIN FLO 191™

AQUATIC ALGAECIDE AND HERBICIDE

POWERFUL ALGAE & AQUATIC PLANT CONTROL.

EFFECTIVE. RELIABLE. PROVEN.

SHAOLIN FLO 191™ is a liquid aquatic algaecide and herbicide for fast and effective control of a broad spectrum of algae and aquatic plants in lakes, ponds, reservoirs, irrigation canals and flowing water systems.

BROAD-SPECTRUM  
ALGAE & AQUATIC  
PLANT CONTROL

EFFECTIVE IN  
STILL & FLOWING  
WATER

FAST ACTING  
VISIBLE  
RESULTS

RELIABLE  
PROVEN  
PERFORMANCE

## ACTIVE INGREDIENT:

|                                                                       |        |
|-----------------------------------------------------------------------|--------|
| Mono(N,N-dimethylalkylamine) salt of endothall* .....                 | 53.0%  |
| Other Ingredients .....                                               | 47.0%  |
| Total .....                                                           | 100.0% |
| *7-oxabicyclo [2.2.1] heptane-2,3-dicarboxylic acid equivalent 23.36% |        |
| Contains 2 lbs. endothall acid per gallon                             |        |

### BROAD-SPECTRUM CONTROL

Controls a wide range of algae and submerged, floating and emergent aquatic plants.

### FOR STILL & FLOWING WATER

Effective in quiescent, slow moving and flowing water aquatic sites.

### FAST & EFFECTIVE ACTION

Acts quickly to eliminate unwanted algae and aquatic plants and restore water quality.

### DEPENDABLE RESULTS

Trusted by water managers for consistent and reliable performance.

## SHAOLIN FLO 191™

| FEATURE           | SHAOLIN FLO 191™                               |
|-------------------|------------------------------------------------|
| Active Ingredient | Mono(N,N-dimethylalkylamine) salt of endothall |
| Herbicide Group   | Group 7                                        |
| Mode of Action    | Contact Herbicide                              |
| Spectrum          | Broad Spectrum                                 |
| Application Sites | Still & Flowing Water                          |
| Speed of Action   | Fast Acting                                    |
| Effectiveness     | High                                           |
| Water Use         | Restores Water Use                             |
| Compatibility     | Compatible with Many                           |
| Ease of Use       | Easy to Apply                                  |

## IDEAL FOR USE IN:

Lakes & Ponds

Reservoirs

Irrigation Canals

Golf Course Water Hazards

Industrial Water Systems

Drinking Water Storage (Non-Potable)

Fish Hatcheries & Aquaculture

Drainage Ditches

## CONTROLS A WIDE RANGE OF AQUATIC PLANTS

PLANKTONIC ALGAE

FILAMENTOUS ALGAE

BRANCHED ALGAE

COONTAIL

HYDRILLA

MILFOIL

WATER LILY

AND MORE

SUBMERGED • FLOATING • EMERGENT

## APPLICATION METHODS

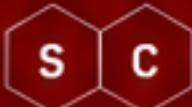

- Surface Applications
- Drip or Metering Systems
- Direct Spray Applications
- Shoreline Treatments
- Boat-Based Applications
- Irrigation Canal Applications
- Custom Treatment Programs

## PRODUCT FEATURES

- Contains 2 lbs. endothall acid per gallon
- Broad-spectrum algae & aquatic plant control
- Effective in still, slow moving and flowing water
- Fast acting for visible results
- Restores water quality
- Easy-to-use liquid formulation
