

Sharda USA LLC

THICK™ WDG

FUNGICIDE

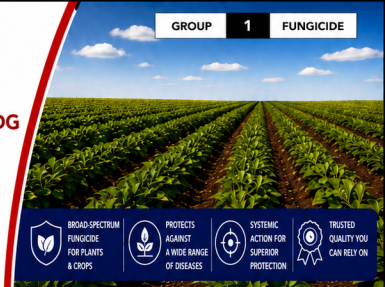

PROVEN PROTECTION.

POWERFUL PERFORMANCE.

TRUSTED RESULTS.

Contains thiophanate-methyl, the active ingredient used in Topsin® and Cleary's 3336.

Thick WDG is not manufactured or distributed by Cerexagri or Cleary.

BROAD-SPECTRUM
FUNGICIDE
FOR PLANTS
& CROPS

PROTECTS
AGAINST
A WIDE RANGE
OF DISEASES

SYSTEMIC
ACTION FOR
SUPERIOR
PROTECTION

TRUSTED
QUALITY YOU
CAN RELY ON

ACTIVE INGREDIENT:

Thiophanate-methyl: (dimethyl[(1,2-phenylene)-bis[iminocarbonothioyl(bis(carbamate))]) 85.0%

OTHER INGREDIENTS: 15.0%

TOTAL: 100.0%

Contains 0.825 Pound of Active Ingredient
per 1.0 Pound of Product

BROAD
PROTECTION

Effective control of
many important
plant diseases.

SYSTEMIC
ACTION

Systemic activity
helps protect
new growth.

LONG-LASTING
CONTROL

Provides extended
protection for
better results.

RELIABLE
PERFORMANCE

A trusted solution
for professional
growers.

THICK WDG

FEATURE	THICK WDG
Active Ingredient	Thiophanate-methyl
Chemical Class	Benzimidazole
Group Number	1
Formulation	Water Dispersible Granule (WDG)
Active Ingredient	85.0%
Systemic Activity	Yes
Use Rate Efficiency	High
Ease of Handling	Easy to measure & mix
Compatibility	Excellent
Value	High Performance & Convenience

IDEAL FOR USE ON:

- Field Crops
- Fruits & Vegetables
- Ornamentals
- Turf & Ornamentals
- Nurseries
- Greenhouses
- Seed Treatment

CONTROLS A WIDE RANGE OF DISEASES

...AND MANY MORE LISTED DISEASES

TECHNICAL SNAPSHOT

Active Ingredient	Thiophanate-methyl
Concentration	85.0%
Formulation	Water Dispersible Granule (WDG)
Chemical Class	Benzimidazole
Group Number	1 (FRAC)
Mode of Action	Disrupts fungal cell division
Signal Word	CAUTION
Use Sites	Agricultural Crops, Ornamentals, Turf, Nurseries & More

PRODUCT FEATURES

- Broad-spectrum protection for many diseases
- Systemic activity for effective and long-lasting control
- High concentration for better performance
- Easy-to-use water dispersible granule formulation
- Trusted solution for professional growers
