

CARIBIQUE

OCEAN VIEW NATURAL CONDOMINIUM

Welcome to paradise!

Wake up every day to the parrots singing and the ocean breeze lightly blowing from the sea.

Walk the beautiful beach with crystalline turquoise water, relax in a hammock,
have a drink in the jacuzzi, or do some morning yoga.

This could be your new lifestyle.

Wake up in Caribique in Mayan Riviera Mexico

What is Caribique?

Caribique is an apartment complex located in Playa del Carmen, one of Mexico's favorite touristic centers on the Caribbean coast. The building focuses on modern but natural & ecological style "eco-chique". There are 23 completely equipped and furnished studios from 430 ft² to 564 ft² for sale all with the possibility of short-term rentals. Owners can decide how to best enjoy the property. Come for a holiday whenever you like and then rent the apartment as if it were a hotel. The proceeds will be deposited into your account every month. Plus, we will take care of the logistics and administration of all the services related to renting the unit. As the third sunniest country in the world with almost year round sun, the tourist and thus rental season is never ending.

Caribique is designed to be a boutique hotel with its own reception and 24 hour security, and thus is a smaller, intimate, and luxurious hotel with a Caribbean atmosphere.

Location

Playa del Carmen, Mexico.

Caribique is located only 45 minutes from Cancun International Airport. The distance to the beach entrance is less than 900 feet.

Direct flight from Denver, Colorado USA to Cancun, Mexico is only 4 hours 15 minutes.

From an investment point of view

Playa del Carmen is the fastest growing real estate market on the American continent! It is the second fastest growing city, only second to Dubai. With a real estate investment in Playa del Carmen, one can have the best of both worlds - business and pleasure. Fly on in whenever you like for a dream vacation in the Mexican Caribbean and the remainder of the year, rent your apartment and receive income 8-13% ROI per year. Caribique is created to be a boutique hotel that brings of guests all the comforts of being in an exclusive and intimate place, where they can relax and loose themselves in a natural paradise. That's why we offer the service of Property Management, with our specialized administration partner who will take care of all hotel services from A to Z. The Property Manager will receive all incoming guests, market to potential clients, book reservations, and manage the cleaning and maintenance of the units — just like a hotel . Actually you are buying part of a hotel, but with the advantage, you need not worry about any of the logistics. In short, you are an investor who just so happens to be able to stay in your investment. In addition, given the zone's current real estate market, the property will appreciate an estimated 15% to 20% annually.

About us

European Quality Development S.A. de C.V. is a Mexican company with European owners who have a myriad of construction project experience, especially from Ireland and The Czech Republic. We offer a European quality standard of building in Mexico. Being conscious that individuals from the USA, Canada, and Europe are accustomed to a higher quality of living. We strive to bring that same high standard to Mexico. We collaborate with the best European and local providers. For example, in the area of **Property Management**, we plan to implement an approved short-term vacation rental model to ensure the highest possible return for our clients. The interior of our developments is done by French designers with a sense for natural and ecological materials that harmonize with the beautiful Caribbean environment. Our architect has been featured in **USA Today** and **The New York Times**.
