Jacal Arquitectos

About Us

We are a developers & constructors group, always in a constant reinvention, both in terms of architecture and design, and in its aspirations and search for new challenges.

We create balanced between our clients/guests needs and nature. Always looking for harmony in each exclusive design.

An architectural rendering of a courtyard for Casa Emilia Tulum. The scene features a two-story building with a stone base and arched openings, and a second story with arched balconies draped in greenery. A central path with a wooden stripe leads through the courtyard, flanked by lush tropical plants and a tall, slender tree. A set of stairs is visible in the background against a light-colored wall.

Casa Emilia Tulum

Boutique condo with only nine exclusive apartments, mainly developing the classic atmosphere and simplicity at the same time.

Located in la Veleta, area with the greatest property capital gain within tulum.

Concept based on the contemporary reinterpretation of classic spaces, that make reference to the Yucatan Haciendas Architecture.

Status: Under Construction.

Casa Laguna Tulum

Created to offer you a place in balance between luxury and nature.

With only 10 apartments making privacy the best asset.

Based on a modular architecture we fit your needs. You could choose between 1 or 2 Bedrooms.

Status: Delivered.

Kiino Country Club Cozumel

Kiino located in Cozumel, a majestic island in the Mexican Caribbean.

The magnificent surroundings, with their singular topography, formed the basis around which the layout of the proposal revolved, in order to ensure that it was fully adapted to its context, in a balance between the natural and the man-made.

Status: Under Construction.

Nerea Tulum

As the result of the success of Alea Tulum, we develop Nerea.

Opening its doors in January 2022, this 22-room boutique hotel is conceptualized as a space to relax, feel fulfilled and connect with oneself through mental, physical and emotional balance.

Status: Delivered.

Alea Tulum

Located in the bay of Tankah, each of the 17 rooms have spectacular views over the second largest coral reef of the world.

Developed to create luxury designs and comfort in harmony with the surrounding nature.

Status: Delivered

Casa Axxkaba Tulum

- Casa Axxkaba located in Tulum, in a new potential area, closer to the Tulum's international airport.
- Design based on the ancestral domes.
- Surrounded by vegetation, seeking to maintain the simplicity that nature entails.
- Status: Under Construction.

Cossio 2013 CDMX

- Vertical condominium developed in Mexico City within a restored house, creating 4 different type of apartments. Highlighting luxury and privacy for each of these exclusive designs.
- Status: Delivered.
- Address: González de Cossio 213, Del Valle Centro, Benito Juárez.

Casa de Sal Playa del Carmen

The design concept is born of respect for the natural conditions of the climate, topography and native vegetation.

The proposed construction has the least impact on the terrain

Status: Delivered.

An architectural rendering of a multi-level, circular stone structure built into a lush tropical jungle. The structure features several tiers with terraced gardens, a central circular pool, and a small waterfall cascading down the side. The design is inspired by Mayan architecture and integrates with the surrounding dense vegetation.

Casa Sian Kaan Tulum

- On the beautiful Sian Kaan Biosphere this luxury residential project is surrounded by abundant local vegetation and 100 meters of beachfront, offering superb views of the Mexican Caribbean.
- The project is based on the guiding concept of fully respecting the site and its existing vegetation, resulting in a design that reflects a clear unity between an amazing design and natural surroundings.
- Status: Under Conceptualization.
