OUR REAL ESTATE PROJECTS

ENCANTO DE PLAYA

★ AN URBAN OASIS

Encanto de Playa is not just a place to live, but a prosperous, inspiring space designed to enjoy life in Playa del Carmen.

A designed space
with exceptional views
that feed my interior.

Its architecture captures the essence of modernity and well-being. The spaces create an aesthetic harmony that generates peace with the environment by incorporating vegetation that refreshes the air, while its materials isolate temperature and acoustics, ensuring incomparable tranquility.

GREEN MELAMINE
VENEERED MDF

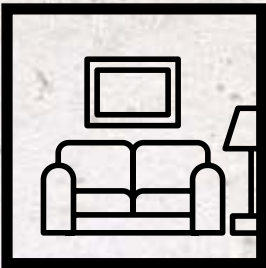

TRAVERTINE MARBLE FLOOR

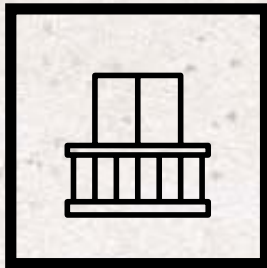

One of the main benefits of having marble floors in all the interior spaces of this project is to provide freshness (ideal for the climate of Playa del Carmen), as well as high wear resistance and easy to clean.

Its natural beauty, durability and versatility to combine with modern, classic or rustic designs, make it a material that adds value to the property.
