About us

At **Creare IC** we create real estate projects of the highest quality.

With more than **10 years of experience** in construction and more than 100,000 m2 finished.

We design ideal spaces to provide unparalleled living experiences and excellent investment opportunities in an increasingly competitive market, where we differentiate ourselves by the highest quality, care for the environment and avant-garde design, always hand in hand with the best architectural firms.

Together with TAC - Taller Alberto Calleja, under the premise of designing a fresh and luxurious space, we created **Tanah**. A space that is a true reflection of our values, where we take care of every detail, creating cosy atmospheres to enjoy with family or as a couple, reflecting and living the traditions of the magical environment that the city of Tulum gives us.

An unpretentious space, where raw luxury gives us a feeling of classic comfort, designed to give us mental smiles to share with our loved ones.

Location

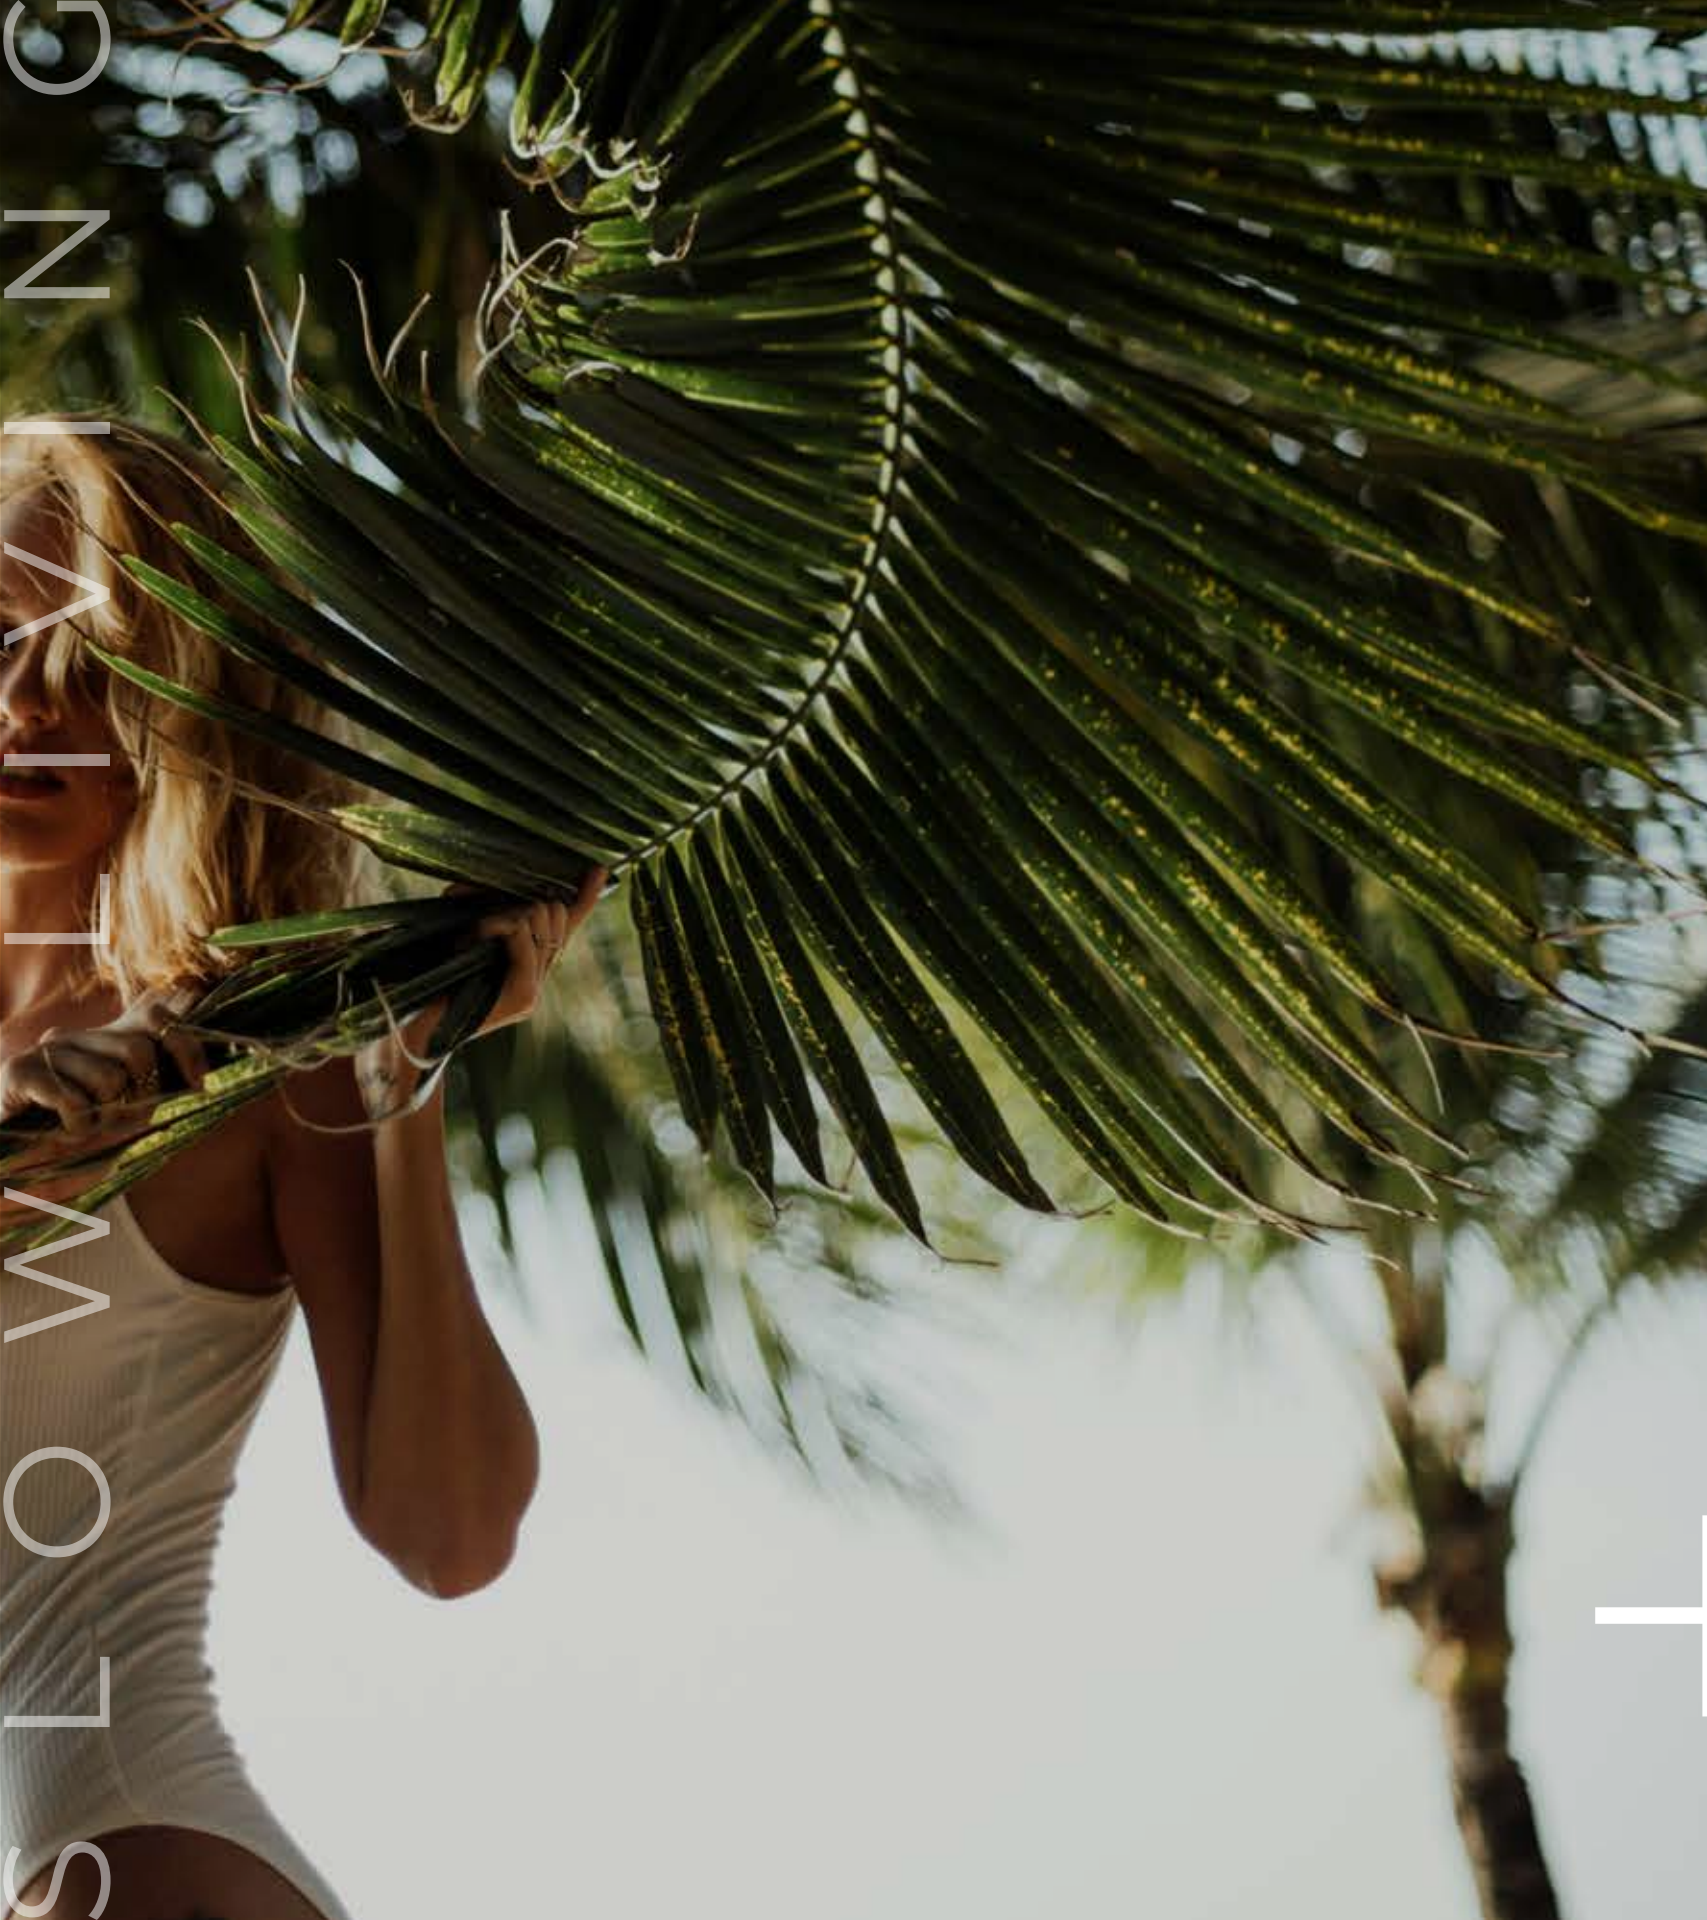

Just steps away from the most luxurious holistic hotels in **Tulum**, in a controlled development area, away from the noise of the more developed areas of the region, we created **Tanah**. Just 5 to 10 minutes from the best restaurants, beach clubs and boutiques.

When you live in **Tanah**, you will have the best of both worlds; you can relax in the comfort of your flat and common areas, without the noise and disorder characteristic of certain areas of the city, or you can move to the busiest areas easily and comfortably.
