PLAYA DEL CARMEN CONDOS

Your *dreamed* home
in the caribbean
paradise...

The Project

With a fresh and attractive design, we have created an extraordinary project with a marked personality that reflects elegance and harmony. In addition, **Centurmex10** provides welcoming spaces for an unforgettable stay.

Every element included has been well thought out to create the **perfect balance between luxury, nature and modernity**. Its spaces and amenities are aimed at making the resident feel like at home and have everything you need close at hand.

Location

Centurmex10 is located on **Calle 10 almost on the corner of CTM**, hence its name. Your privileged location places it **a few meters from the famous 5th avenue** and the **spectacular beaches of the Mexican Caribbean** that stand out for their impressive turquoise blue tones and the white sand of the area.

The area is surrounded by international **food restaurants**, scuba clubs, yoga venues, regional food, as well as numerous local shops where you can buy fruits and vegetables and more...Which makes it an interesting amalgamation of cosmopolitan, a very “Playense” experience.
