

DK | DEL KARIBE

The Riviera Maya has become a major tourist attraction, offering a connection with oneself, fun, travel, gastronomy, culture, and investment.

It is one of the most important tourist zones in Mexico and worldwide. This destination is a favorite for travelers and has seen a rise in both international and national tourist arrivals in recent years. According to the Quintana Roo Tourism Department, 12.6 million passengers are recorded at the airport and 1.8 million cruise ship visitors, generating over 6.3 billion USD in revenue from this sector.

Thanks to its diverse tourist attractions and investment from both the government and private sector, the Riviera Maya is a land of opportunities.

Real estate investment is one of them, as Mexico's inflation rate remains stable between 2% and 4%. Housing prices increase significantly depending on the area, resulting in higher property value.

The region's economic growth is fast and steady. Two of the cities standing out in real estate investment are Playa del Carmen and Tulum.

The vacation rental market is another alternative, driven by Airbnb. It is currently one of the most important income sources and continues to grow with the increase in tourism.

Therefore, investing in real estate in the right location guarantees a secure investment and can also become a profitable business, offering the opportunity to generate additional income through vacation rentals.

We create exclusive developments for you. These spaces feature modern designs and luxury finishes with unique amenities, especially designed to create unforgettable moments.

We are located in two of the most iconic cities of the Riviera Maya, internationally recognized and loved: Tulum and Playa del Carmen. Here, we have had the opportunity to complete three developments: DK 05, DK 52, and DK Exclusive in Playa del Carmen, and three more: DK Tulum, Jade DK, and Chaac DK in the magical town of Tulum.

Rarely do you find such unique and magical places, full of history and natural wonders, with growing infrastructure and expanding markets that support and strengthen the best investment plans.

At DK del Caribe, we have revolutionized the investment model in the real estate sector, with a strong focus on in-depth studies and analysis in land acquisition, choosing strategic locations that maximize the potential of each development.

It is worth noting that our effective processes in administration, legal certainty, and financial backing allow us to offer excellent support to our investors.

MISSION

We build real estate projects focused on tourism in high-value, high-return locations, creating exceptional business models for our clients.

VISION

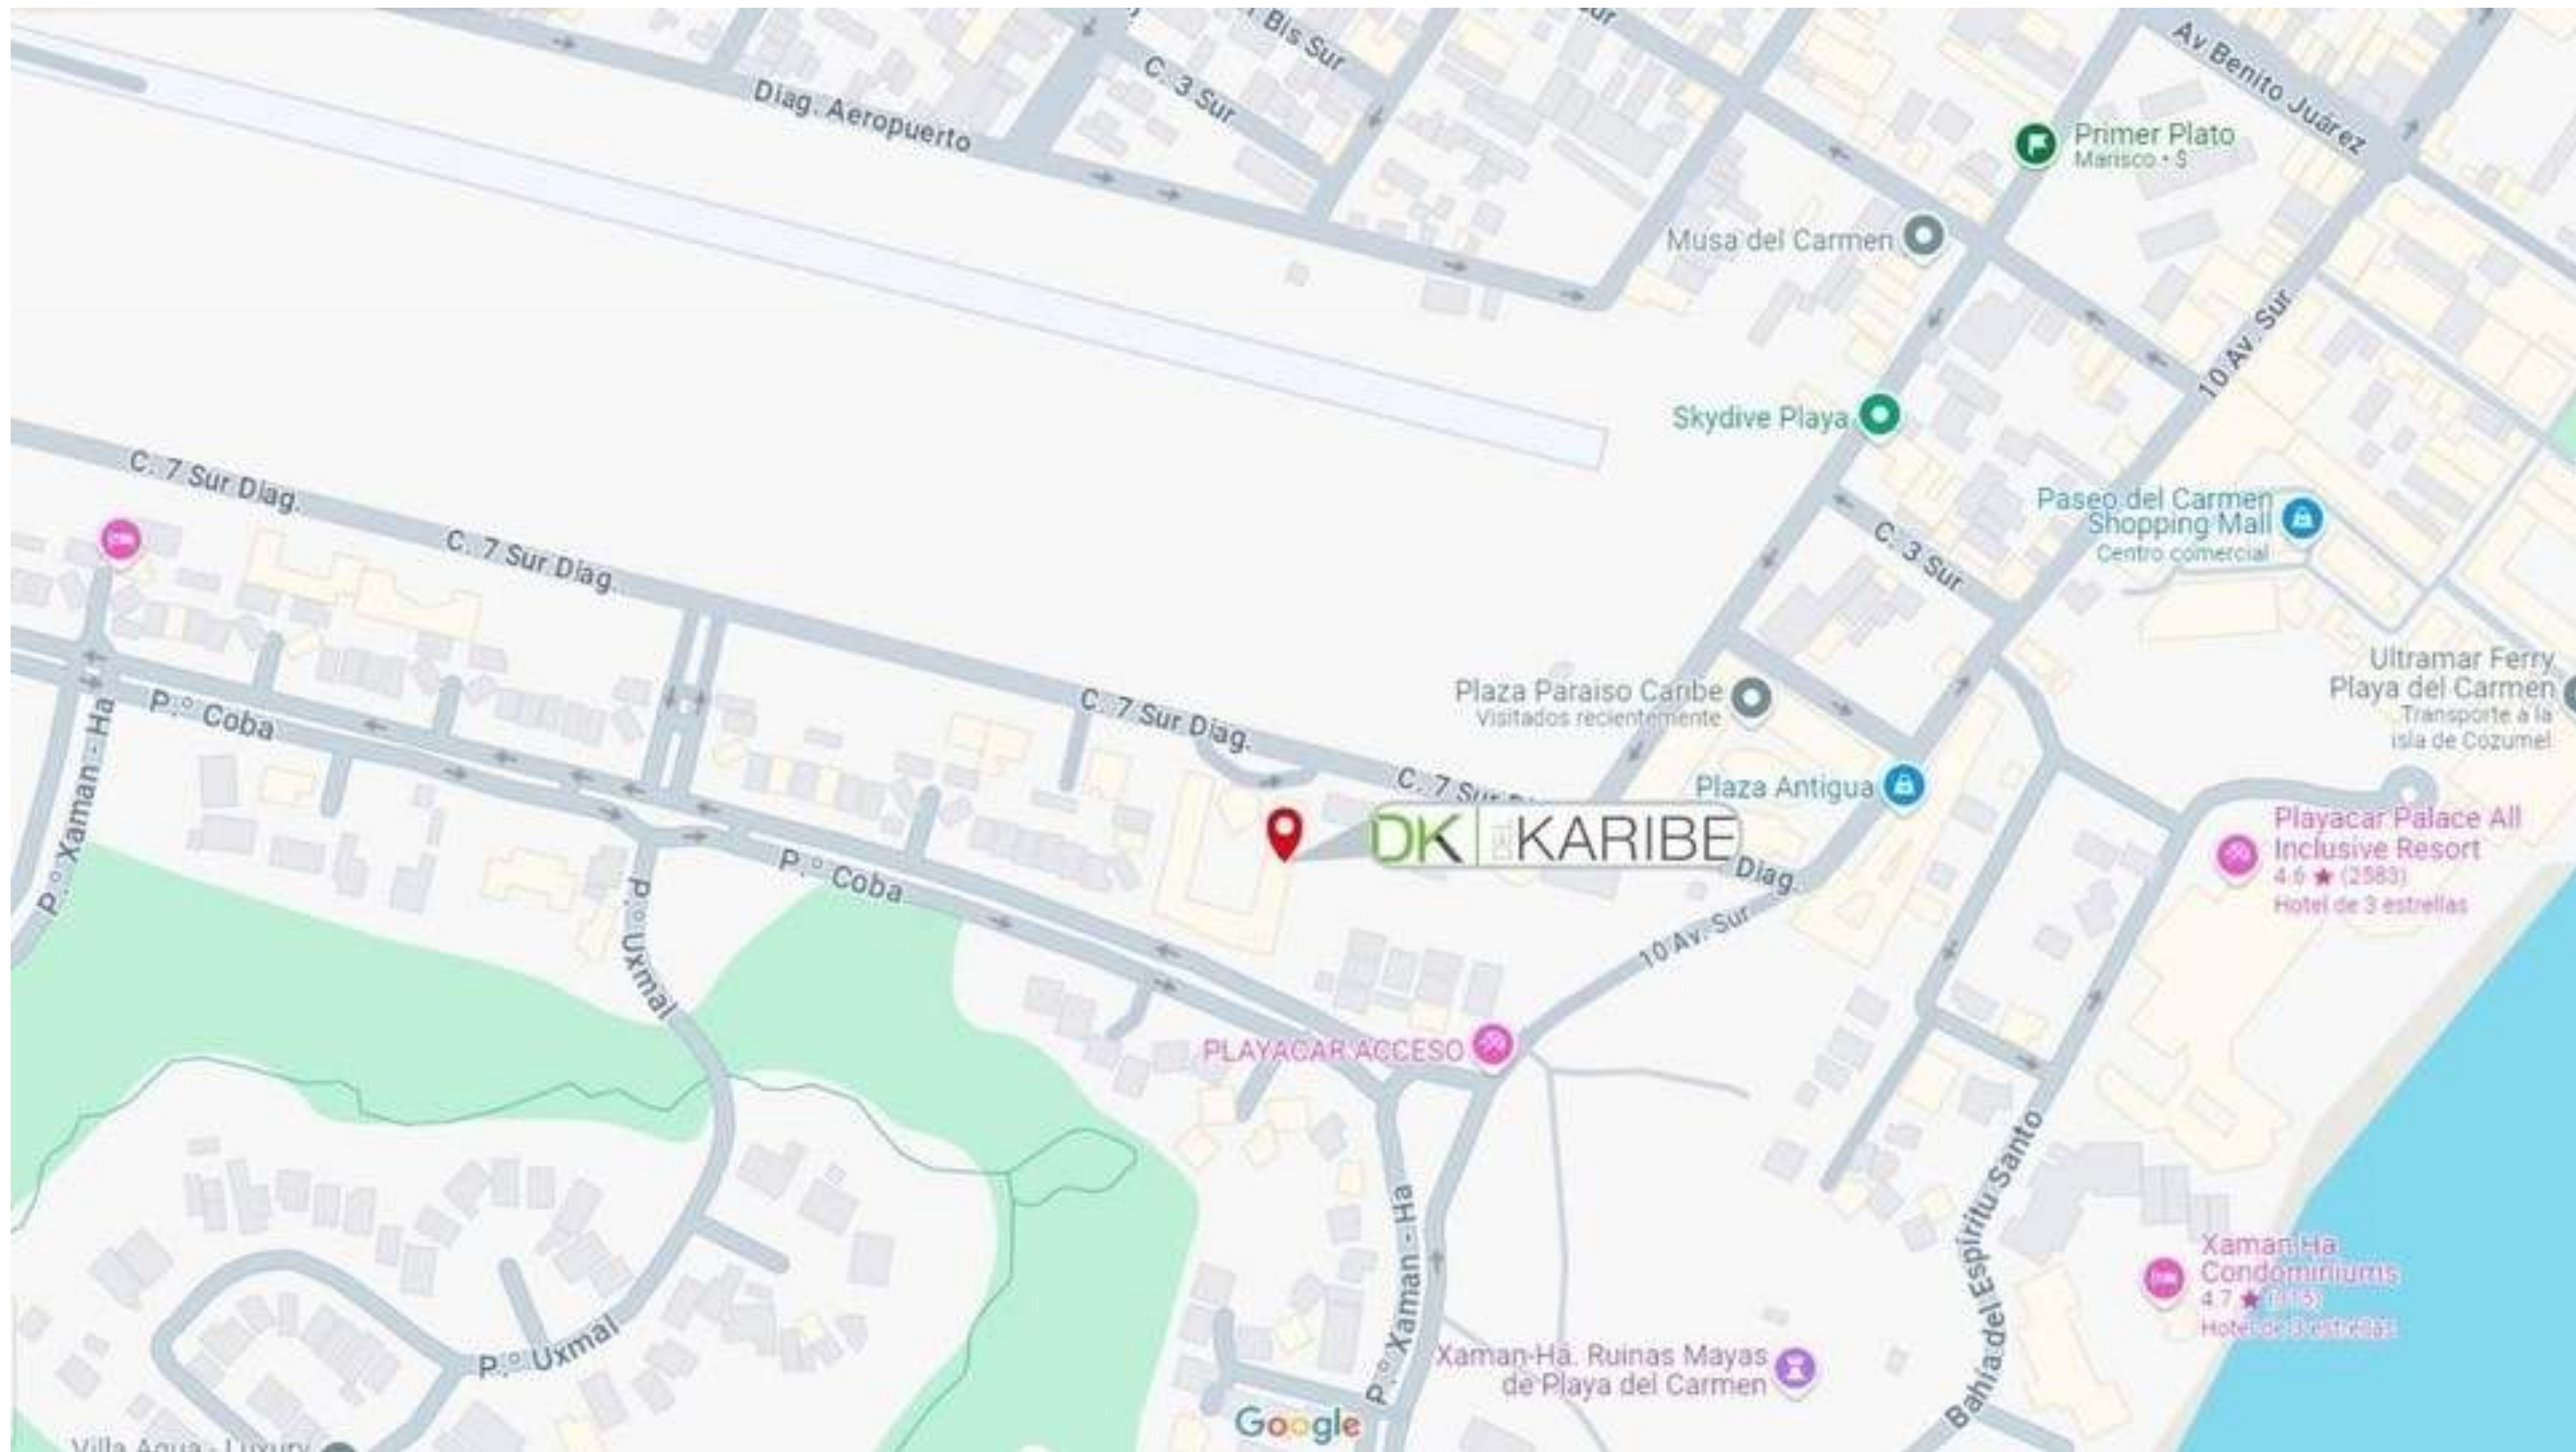

To be a leading international real estate company in constant expansion, developing comprehensive tourist spaces in the most in-demand destinations.

PLAYA DEL CARMEN

DK | 05

Welcome to one of the most beautiful and exotic places on the planet: the Riviera Maya, located on the Yucatán Peninsula, Mexico.

Surrounded by white sand, embraced by the Caribbean Sea, and infused with the fascinating Mayan culture is the DK 05 development.

A residential condominium with 14 apartments, located just 300 meters from the beach and 20 meters from 5th Avenue, surrounded by restaurants, shops, and beach clubs—guaranteeing fun and adventure.

With excellent connectivity, Playa del Carmen receives over 2 million visitors per year, mostly international, driving growth and increasing property values.

Playa del Carmen ranks among the 25 most popular tourist destinations in the world and is a must-see when visiting the Mexican Caribbean. Enjoy numerous activities, sports, relaxation, and leisure.

DK 52 is a development with 43 units and 2 penthouses, located in one of the best areas of Playa del Carmen, near restaurants, department stores, the best beaches, and just steps from the famous 5th Avenue.

Its standout feature: a stunning Caribbean Sea view from its incredible rooftop on the sixth floor.

CHAAC DK, a one-of-a-kind development, aims to envelop guests in a completely natural setting that feels like a journey back in time.

Chaac, in Mayan culture, was the god of rain, the prevailing element of this project's design.

The goal is to offer tourists apartments with a variety of views, including panoramic jungle views. Its contemporary architecture creates open spaces connected by walkways and uses local materials and colors like wood and *chukum*, giving the project the rustic aesthetic characteristic of Tulum.
