# BriefCatch

The Next Generation of BriefCatch is Here

Experience powerful new capabilities and AI-powered features in BriefCatch 4, the latest version of our trusted legal editing platform.

AI-Powered Citation Style Checks
Automate your compliance with the Bluebook.

BriefChat: Your 24x7 Writing Advisor
The legal writing expertise of Ross Guberman by your side.

Security and Control
BriefCatch 4 introduces AI capabilities with enterprise-grade security controls that keep legal writers at the center of the experience:

- These tools are completely optional.

- IT managers have complete control over activation down to the individual level.

- You can require user approval each time before AI is invoked.

Suggestion Filters and Controls
Focus on what matters most based on your objective.

In-Line Suggestion Highlighting
Navigate edits faster and more intuitively.

Express Editing with Tracked Changes
Save time by implementing all edits with a single click.

Streamlined UI
Enjoy a sleek new design to speed through your work.
