### MULTICOLORED

#### 10EF / 12EL / 12EA

VIVIT Supply eyewear is a convenient and cost-effective solution for clinicians, protecting vulnerable mucous membranes from exposure to harmful fluids and particles that spread infection and illness. With top-down fluid protection ridges and single-use lenses, the VIVIT Supply eyewear line is well-equipped for procedures with a risk of fluid splash. Reusable wrap-around frames provide a secure fit that is both comfortable and accommodating when worn with prescription glasses. The addition of lenses with anti-glare technology and double-sided anti-fog coating help maintain an unobstructed view during medical procedures.

SKU#	PRODUCT TYPE	PIECES/BOX	BAGS/CASE	PIECES/CASE
10EF	Frame	25	8	200
12EL	Lenses	100	5	500
12EA	Assembled	10	10	100

- ① **Premium Anti-glare/Anti-fog Lenses**
  - Increased optical clarity for a clear line of sight, unencumbered by OR or other hospital lights.
  - Protection from direct and peripheral spray of fluids with full facial coverage
- ② **Comfortable and Secure Fit**
  - Comfortable and secure fit, even over prescription glasses.
- ③ **Colored Handling Strip**
  - Keeps lenses free of fingerprints while allowing for easy assembly.
  - Multicolored:
