

Unify Privileged Access

Secure, simplify, and scale privileged access — without agents, complexity, or delays.

Fudo Security delivers a next-generation Privileged Access Management (PAM) platform designed for modern enterprises. Our AI-powered platform combines session intelligence, secure third-party access, and compliance automation into a single, unified solution — deployable in minutes.

Why Fudo?

AI-Powered Security

Learns user behavior to detect and block abnormal activity instantly.

Zero Complexity Deployment

Agentless, infrastructure-light, and cloud-ready.

Instant Third-Party Access

Secure external collaboration without VPNs or configuration headaches.

Audit-Ready Compliance

Complete logs, reports, and forensic tools with automatic policy enforcement.

Traditional PAM is Broken. Fudo Fixes It.

THE PROBLEM

-  **Dumb Security**
Static controls can't detect compromised insiders.
-  **Manual Compliance**
Audits are slow and painful.
-  **Complex Deployment**
Requires agents, re-architecting, and delays.
-  **Painful Vendor Access**
VPNs, credentials, and tool sprawl.

THE SOLUTION — FUDO INTELLIGENT PAM

-  **AI Behavioral Analysis**
Detects anomalies at the keystroke/mouse level.
-  **Streamlined Compliance**
Generate audit-ready reports in real time.
-  **Agentless Deployment**
Installs instantly, integrates anywhere.
-  **One-Click Secure Access**
Just-in-time access with full visibility.

Trusted by Global Leaders

Fudo Benefits – Built for Enterprise at Scale

SECURITY

AI-Powered Threat Prevention

Fudo profiles every user based on 1,400+ behavioral signals. Our AI instantly detects and responds to deviations in real time.

- Live monitoring, termination, or isolation of risky sessions
- Biometric-grade profiling and threat detection
- Automated blocking of suspicious activities

EASE OF USE

Enterprise-Grade Without the Complexity

Skip the agent sand set up headaches. Fudo deploys in hours, not months — on-prem, hybrid, or cloud.

- 01 Zero software agents or endpoint installs
- 02 Lightweight footprint with deep control
- 03 Adaptive to any infrastructure

THIRD-PARTY ACCESS

Secure External Collaboration

Empower contractors, vendors, and partners with instant, secure access — no VPN required.

- 01 Just-In-Time access provisioning
- 02 Full session auditing and monitoring
- 03 One-click access with full visibility and control

COMPLIANCE

Streamlined Regulatory Adherence

No more scrambling before audits. Fudo generates complete, tamper-proof records to support compliance across major frameworks.

- 01 Prebuilt reports for NIS2, GDPR, ISO 27001, HIPAA, PCI-DSS
- 02 Immutable session recordings with forensic replay
- 03 Automated alerts and policy enforcement

OPERATIONAL PRODUCTIVITY

Insights That Drive Efficiency

Fudo tracks user activity to identify inefficiencies, reduce waste, and optimize workflows.

- 01 User inactivity and system load insights
- 02 Complete session visibility and replays
- 03 Access analytics for capacity and usage

About Fudo Security

Fudo is a global leader in Privileged Access Management and Zero Trust Access, founded by industry veterans. With customers in 35+ countries and a rapidly growing global presence, we deliver agentless, AI-powered solutions trusted by financial, healthcare, energy, and government sectors.

- 📍 Office in U.S and Poland
- 📈 Scaling globally to meet modern PAM needs with cloud-native speed and control
