ELDERCARE

Dear Friends,

For most of this past fiscal year, Reach and the rest of our community remained in the throes of the COVID-19 pandemic. However, in May 2023, we saw light at the end of the tunnel when the World Health Organization declared that the pandemic had ended. Like so many, however, we continued to address challenges stemming from the yearslong ordeal. Despite this, Reach persisted in fulfilling our mission to help the most vulnerable in Montgomery County achieve and maintain self-sufficiency by providing vital human and healthcare services. We welcome you to read about how Reach, through our five service areas, uplifted our community and worked toward “building a better tomorrow” during one of the most difficult times in our history. Below are a few highlights:

- **Mansfield Kaseman Health Clinic (MKHC)** returned to its newly renovated location at West Middle Lane in August 2022 (having experienced a devastating flood there in late 2021) and continued to provide high-quality healthcare to over 1,200 uninsured or underinsured patients, accommodating over 5,500 patient visits. Key services included primary care, behavioral health visits and screenings, laboratory and telehealth visits, and many other services.
- **Housing Program** helped two Jefferson House residents and one Rockland House resident move into their own homes, advancing them on their path to self-sufficiency. In addition, Jefferson House welcomed two new residents who had previously lived at substance abuse treatment centers, one of whom is currently pursuing a degree at a local college.
- **Language Outreach Program (LOP)** provided English as a Second Language (ESL) classes, conversation instruction, and citizenship test preparation for 354 students and tutoring to 70 school-aged children. Seventy-two percent (72%) of students improved their English language skills (per course evaluations), and over 70% of children showed progress in their schoolwork.
- **Senior Reach Program** expanded its services (including home care, home repair/maintenance, case management, and other services) to accommodate new clients, addressing the increased need for low-income seniors to comfortably age in place. Senior Reach also resumed providing social activities for its clients, allowing them opportunities to interact with other seniors and individuals from other generations and helping them build a sense of community.
- **Rockville Emergency Assistance Program (REAP)** helped 203 individuals receive financial assistance that allowed them to prevent impending evictions and/or foreclosures and maintain their utility services; provided food, clothing, and dental/vision referrals; and assisted clients in applying for Supplemental Nutrition Assistance Program (SNAP) benefits and other needed support.
- **Holiday Giving Project (HGP)** distributed 395 holiday meals to families, toys to 306 children, and gift cards to 42 teens.

Thank you so much for your unwavering support of Reach and our important work. Because of your support and that of others like you, Reach has empowered tens of thousands of individuals in our community for over five decades to achieve their own versions of the American Dream. For that, we will always be grateful. Join us in the coming year as we continue to build a better tomorrow within our organization with a new Clinic space and a new Executive Director.

Warm Regards,

Paul Love
Chair, Board of Directors

Sarah Basehart
Executive Director

MISSION + VISION

ESTABLISHED 1967

MISSION of Community Reach of Montgomery County

We seek to improve the quality of life for the most vulnerable Montgomery County residents by providing them with basic health and human services and advocating on their behalf, with the goal of helping them achieve and maintain self-sufficiency.

Community Reach of Montgomery County's VISION

The vulnerable population of Montgomery County achieves self-sufficiency and an improved quality of life.

Rockville Emergency Assistance Program (REAP)

Financial Assistance and Referrals for Social Programs
Established 1981

FY 2023 Statistics

Financial Assistance: 74 Families with 203 Total Residents

66 families with 183 people remained housed with \$117,882 in financial assistance	6 families with 17 people were able to keep utilities working with \$5,876 in financial assistance	3 people received a total of \$296 in Prescription/Medical assistance
--	--	---

Total Financial Assistance: \$124,054

In FY23, case management hours remained high as REAP continued to receive increased requests for assistance with identifying and applying for SNAP benefits, child subsidies, and energy subsidies.

Although the COVID-19 pandemic officially ended in FY23, REAP clients continued to feel the long-term effects. Requests for food referrals increased drastically, reflecting the ongoing food insecurity in the County. Clients struggle as they strive to return to stability, needing to develop new skills that help them find better work opportunities.

Referrals for Assistance: 923 Individuals Helped

Food Referrals: 534 individuals	Dental Care: 130 individuals	Vision Care: 46 individuals	Clothing Referrals: 24 individuals
---	--	---------------------------------------	--

Case Management: 1040 Hours

Volunteers: 6	Volunteer Hours: 866	In-Kind Goods and Services: \$22,114
-------------------------	--------------------------------	--

Mrs. A came to Reach's Rockville Emergency Assistance Program (REAP) because she did not know how to complete the online Supplemental Nutrition Assistance Program (SNAP) application. Getting SNAP benefits was important so she could provide her children with nutritious food to help them grow strong, both physically and mentally. REAP staff helped her complete and submit her application and other required documents through the government portal. When Mrs. A received her approval for benefits soon after, she called the REAP office to share the news. She stated that it had been difficult for her to find someone willing and able to help her apply for assistance and that she was grateful she had found REAP.

Senior Reach Program

Homecare and Home Repair Services for Rockville Seniors Aging in Place
Established 1983

FY 2023 Statistics

Total # of Clients Served in FY22: 83 **Total Households Served: 77**

Number of clients served: 51	Home Care Services Hours of Client Care: 3,772	Value of Client Care: \$73,274
--	---	--

In FY23, Senior Reach focused on expanding services to reach pre-COVID client levels. Our program manager tapped into partnerships to recruit new clients, particularly at senior independent living facilities, and successfully grew the number of clients. Need among the community continues to increase as higher cost of living makes it harder for lower income seniors to age in place, and the elderly population grows in size.

Senior Reach also resumed planning social activities for clients, hosting luncheons, games afternoons, and even a tech Q&A event. As part of the Q&A event, seniors were able to meet with students from local high schools to get tips on using their devices. This type of event was a big hit among the seniors!

Total projects: 49	Safe & Secure Services Value of Projects: \$25,000	Months of Life Alert Systems Provided: 297
Volunteers: 39	Volunteer Hours: 219	In-Kind Goods & Services: \$7,515

★ Services

- Home Care*
- Home Modifications/Repair
- Case Management
- Assistive Devices
- Food Deliveries
- Social Opportunities

*Dusting, vacuuming, floor care, bathrooms, kitchens, trash removal, meal preparation, laundry, bathing assistance, nail care, etc.

Mrs. G, a Senior Reach client who lives on her own with a limited income, receives home care services that help her comfortably age in her Rockville home. She contacted Senior Reach when her refrigerator broke not long after the warranty expired. She was not sure she could afford to repair or replace the fridge on her own.

As part of the Safe & Secure Homes service, the Senior Reach program manager located a repairman who examined the fridge but discovered an irreparable system failure. The repairman suggested contacting the company, as the malfunction was something unusual. The program manager spent numerous hours working with the manufacturer's customer service representative to find a way to help the client secure a new fridge. He was able to get a 25% discount on the replacement, along with delivery and removal of the old appliance.

Even at the heavily discounted price, replacement was a true financial burden for Mrs. G., so Senior Reach used Safe and Secure service funds to replace the refrigerator at the negotiated price. Now Mrs. G does not have to worry about where to store her perishable items and can purchase whatever foods she wishes.

Housing - Jefferson House

Permanent Supportive Housing for Men
Established 1991

FY 2023 Statistics

Number of Clients Served: 10	Nights Spent in One's Own Bedroom: 1,407	Case Management Hours: 500
Volunteers: 33	Volunteer Hours: 135	In-Kind Goods & Services: \$29,264

★ Services

- Case Management
- Client Support
- Life Skills
- Affordable Housing

In FY23, our Housing Program helped two Jefferson House residents move into their own homes. One long-term Jefferson resident moved into his own apartment, where he is glad to have the space to focus on his hobbies of tinkering with and rebuilding furniture and bikes. The other resident moved into his own one-bedroom apartment where his children can visit and where he is close to shopping and public transit. Both residents received "welcome baskets" of items to help them settle into their new homes from the Maryland section of NCNW.

Jefferson House welcomed two new residents from a substance abuse treatment center. Both were particularly grateful to have their own rooms. Living in Jefferson House has brought stability to their lives and has allowed them to focus on moving towards self-sufficiency. One new resident has the time and energy to focus on long-neglected healthcare needs, with case management from the program manager that has helped him apply for subsidized transport and find healthcare providers. The other new resident is industriously pursuing a degree in cybersecurity in hopes of landing a career in this field upon completion of his studies.

Housing - Rockland House

Permanent Supportive Housing for Women
Established 2014

FY 2023 Statistics

Number of Clients Served: 5	Nights Spent in One's Own Bedroom: 1,428	Case Management Hours: 500
Volunteers: 50	Volunteer Hours: 226	In-Kind Goods & Services: \$8,194

★ Services

- Case Management
- Client Support
- Life Skills
- Affordable Housing

In fall 2022, a long-term Rockland resident moved into a brand-new senior community and has happily settled into her one-bedroom apartment. She is glad to be able to welcome family and friends for visits and is enjoying the convenience of living so close to shopping and public transit.

Language Outreach Program (LOP)

English as a Second Language, Citizenship, and Conversation Classes
Established 1993

The **goal of LOP** communication classes is to ensure that **students will be able to fully participate in their community** by clearly understanding and speaking with employers, medical providers, their children's teachers, and their neighbors. Strong English skills provide better employment opportunities and a path to financial independence.

FY 2023 Statistics

 # of Unduplicated Clients: 424
354 Adults | 70 Children

ESL Instruction:
1408 Hours

Conversation Instruction:
528 Hours

Tutoring:
1013 Hours

In FY23, 72% of ESL students showed an improvement on the post-instruction evaluations and 56% graduated to the next course level. **It takes the average adult learner seven years to become proficient in English.**

79% of children who received tutoring showed progress in their schoolwork. Given the existing academic gap between children from immigrant families and their English-speaking peers, it is crucial that our tutors can help these students with their online schoolwork, given that it is much harder for non-English speaking parents to understand and help explain instructions in a language they do not fully understand.

Citizenship Instruction: 96 Hours
of students who became U.S. Citizens: 30

Volunteers:
6

Volunteer Hours:
476

In-Kind Goods and Services:
\$7,354

Ms. M felt anxious about leaving the house and worried about conversing in English. She spent most of her time at home. Though Ms. M had completed elementary school in El Salvador, learning in a classroom was not very familiar to her. She worked hard to develop the necessary strategies to succeed in class.

Ms. M started as a beginner and now studies at High Intermediate. She checks out library books in English and encourages fellow students. This spring, she applied for her first job in the US.

Three and a half years ago, Mr. C and his family immigrated to the United States. Leaving his homeland was a matter of life and death: originally from Nicaragua, he was a community leader and a leader of the country's democratic movement. In 2018, however, the government began reprisals against community organizers. Mr. C, his wife, and his brother were imprisoned for a year. International support secured their release in 2019, but they were stripped of their property and citizenship. Mr. C chose to move to the US, as he stated "It is important for me to rebuild my life, and I think I can do that best here." At the beginning, he felt that every word was a challenge and that he did not understand anything. Now, with encouragement and invaluable feedback from teachers, he has more confidence both inside and outside the classroom. Classes have helped him find a sense of community and a support network in his new home.

Holiday Giving

Mansfield Kaseman Health Clinic

Established 2009

FY23 HEDIS Outcomes at MKHC

Diabetes
65% (165/269)

of Diabetic patients had an A1c below 8 (HEDIS benchmark 48.1%)

Hypertension
64% (428/600)

of Hypertensive patients had blood pressure readings under 140/90 (HEDIS benchmark 56.8%)

Breast Cancer Screening
66% (732/1101)

of age-appropriate female patients received Breast Cancer Screenings (HEDIS benchmark 50.4%)

Cervical Cancer Screening
67% (509/755)

of female patients received Cervical Cancer Screenings (HEDIS benchmark 66.7%)

Colorectal Cancer Screening
45% (273/610)

of age-appropriate patients received Colorectal Cancer Screenings (HEDIS benchmark 59%)

Depression Screening
78% (1757/2277)

of all patients received Depression Screenings (HEDIS benchmark 75%)

After the catastrophic flood of late 2021 that forced the Clinic to relocate, we moved back to West Middle Lane in August 2022. We are so grateful to Rockville United Church for providing temporary premises. Being in a location designed for a medical facility makes daily operations much easier for staff, who have access to more equipment. The location is also easier for patients to access via public transit. With a full staff of medical providers and more exam rooms, we are better able to provide high-quality care to our patients. The Clinic welcomed guests to tour the new location at an open house event.

Many patients struggle to pay for costly but important procedures like mammograms, biopsies, and laboratory testing. The Clinic works with private and government partners to help cover some or all costs for these crucial tests. For example, a young woman in her 20s came to the Clinic concerned about masses she had discovered in her breasts. She had just come to the United States from Nicaragua, where she had left behind a young son. Not knowing what was going on in her body, she was anxious and worried that she had cancer and might not be able to see him again. Clinic staff contacted a program that subsidizes breast and cervical cancer treatment for uninsured Maryland residents and arranged for the cost of the breast biopsy to be fully covered. The patient was thrilled to learn that the masses were benign and that she no longer had to worry about never seeing her son again.

Patients Served: 1,259

BUILDING A BETTER TOMORROW FOR MONTGOMERY COUNTY

Reach

1

For over 56 years, **Reach** has continued to grow and change, with many people contributing to its mission. In FY23, we started laying the groundwork for the leadership of tomorrow when Executive Director Agnes Saenz announced her upcoming departure after 30 years with the organization and 15 years as the executive director.

REAP

The **Rockville Emergency Assistance Program** has a 43-year history of responding to urgent community needs. In FY23, REAP provided financial emergency assistance to 2x as many clients and disbursed almost 3x in total funding compared to the previous fiscal year. Case management hours showed a 109% increase.

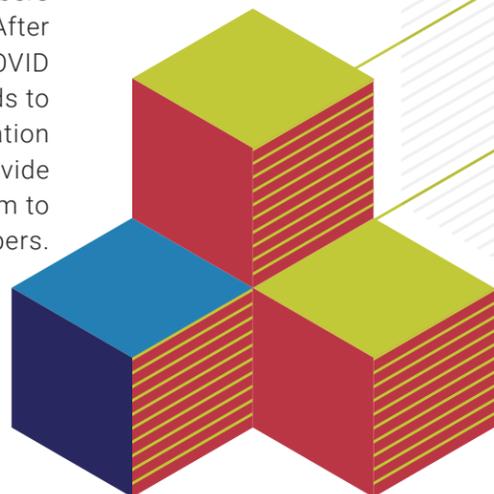

2

Senior Reach

Senior Reach has worked to help elderly community members age in place for 30 years. After boosting client rolls to pre-COVID numbers, Senior Reach intends to focus on expanding transportation access for clients and provide more opportunities for them to interact with community members.

3

LOP

5

Since 1993, the **Language Outreach Program** has responded to need in the immigrant community. In FY23, we began to offer flexible learning options to provide the best choices for our students, including both in-person and virtual classes and one-on-one and group tutoring.

4

Housing

Our two **permanent supportive residences** offer a home to six previously unhoused men and five women. The program hopes to increase the number of educational workshops and learning opportunities offered to residents to help them on their path to self-sufficiency.

6

MKHC

The **Mansfield Kaseman Health Clinic** opened in 2009 to address the health service needs of the uninsured. After 14 years at the current location, the clinic will be moving to a new facility in early spring 2024.

FY23 In Words

"Your organization has made it possible for me and my beloved cat to overcome the emotional difficulties of moving house by introducing us to two extremely bright and friendly volunteers, who have remained regularly in touch with us!"

I cannot adequately express to you what your generosity means to us. I can only say it means: Life with Dignity, Life without fear!"

-Ms. Frederica Fox Winter, Senior Reach Client

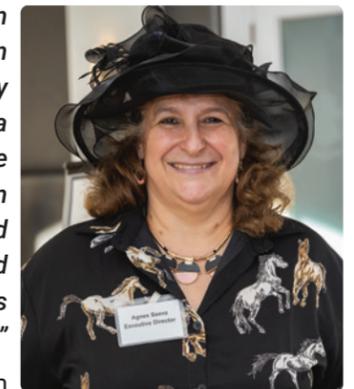

"In [LOP], I have learned that you have to try, and as you can see, the teachers have been a key part in increasing my confidence. They create spaces free of judgment and full of encouragement. I've been integrating into society; for example, I can go to my medical appointments and tell my doctor what I'm feeling, I can go to the store and do my groceries, ask for my medicines, answer email in English, talk with my American neighbors and participate in conversations with friends..."

-Yamile Angarita, Advanced LOP Student

"It has been a wonderful journey of almost 32 years! Having been part of the CMR family earlier on and now the REACH and Kaseman Clinic family has been a great ministry and service to our community that I feel very proud of. We have grown so much, and I leave in a time that the organization is stable and will continue to grow. Like anything in life, there are ups and downs, and a moment and a reason for everything and it is my time to move on. I love this organization and will always be a friend and a donor and will continue to support and attend our events. Thanks to the Board and Staff of all these 32 years for allowing me to serve."

-Agnes Saenz, former Executive Director of Reach

"I feel very lucky to volunteer at Kaseman because of the incredible team. They have created such a supportive and understanding environment not just for myself but for every single patient that walks in. The initiative, the ability to overcome, and the dedication that they have to their community is incredible and leaves me inspired."

-Emily Ruiz Escobar, MKHC Volunteer

FINANCIALS + WAYS TO HELP

PROGRAM	CASH REVENUE	IN-KIND GOODS & SERVICES	TOTAL REVENUE	%
REAP	196,138	22,114	218,252	6%
Senior Reach	254,965	7,515	262,480	7%
Housing-Jefferson House	113,398	29,263	142,661	4%
Housing-Rockland House	64,650	8,193	72,843	2%

Operational Services	492,123	90,667	582,790	15%
TOTAL REVENUE	2,477,034	1,372,840	3,849,874	100%

Ways to Support Community Reach of Montgomery County

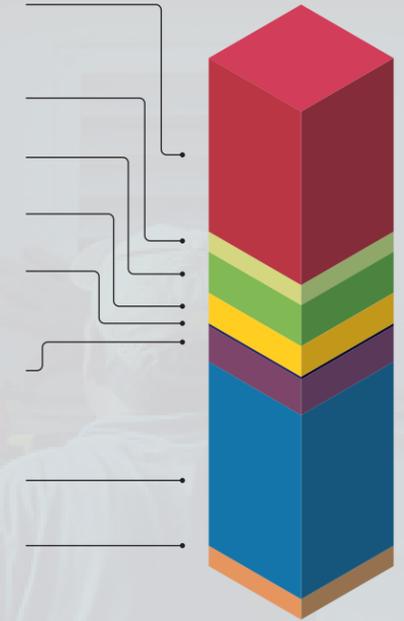

- > Schedule a group project
- > Attend an event and bring a friend
- > Sponsor a Reach supply drive
- > Volunteer at an event
- > Volunteer with a Reach program
- > Serve on a committee
- > Donate items
- > Make a financial donation
- > Offer your expertise on a subject

The Impact of Your Donation

- \$25** would provide a toy for a child in our Holiday Giving Program
- \$50** would pay for tuition and books for a student enrolling in our ESOL classes
- \$100** would give a diabetic patient a week's supply of insulin
- \$250** would offer a Senior Reach client 6 months of Life Link services
- \$500** would cover the deposit for an apartment when a Housing resident is ready to return to self-sufficiency
- \$1,000** would protect a REAP family from sleeping in their car after an eviction
- \$2,000** would provide an ultrasound-guided breast biopsy to detect breast cancer in an MKHC patient
