

Community Reach of
Montgomery County

Rising to the Occasion

Healthcare | Housing | Emergency Assistance | Education | Eldercare

ANNUAL REPORT FY2022 / JULY 1, 2021–JUNE 30, 2022

Community Reach of Montgomery County

Over our past fiscal year, the world and our organization continued to grapple with pandemic-related changes, new variants and strains, and the ensuing difficulties. Our Mansfield Kaseman Health Clinic and Rockville Emergency Assistance Program faced a unique challenge when the Clinic unexpectedly flooded. Thanks to our strong support system of hardworking employees, volunteers, and partnering organizations, we were able to face these challenges head on and “rise to the occasion.”

Reach not only responded to these difficult challenges; FY22 offered many causes for optimism as well. As COVID vaccines became available, more (masked) in-person interactions between clients, co-workers, and colleagues took place. Here are some updates about how each of our five programs served the most vulnerable in our community in FY22:

- Due to heavy flood damage, Kaseman Clinic served patients at Rockville United Church (thank you, RUC!) from January through August as our space was rebuilt. Clinic staff had to think strategically and make necessary changes in scheduling, location of equipment, and services to operate smoothly.
- Our Housing Program gained a new manager, Ann Hamlin. Jefferson House residents helped Ann settle in to the position. Two Rockland House residents used their creative talents to provide those in need with pieced placemats and crocheted blankets.
- Rockville Emergency Assistance Program (REAP) assisted clients in applying for COVID rental assistance and other government benefits. Case management became a much bigger piece of the services provided. In total, 666 individuals received financial assistance, referrals, and other support.
- The Language Outreach Program (LOP) took advantage of remote learning to expand the range of available class schedules. Students received instructions in computer skills as well as ESOL. LOP also experimented with a hybrid class, with some students attending in the physical classroom and others via Zoom. 328 students took classes, and 62% graduated to the next course level.
- Senior Reach provided volunteers to help residents in a Housing Opportunities Commission (HOC) apartment building prepare to move when the building was closing and transferring leases to a new location close by. Our Faith Advisory Committee donated welcome baskets for the seniors.
- Our Holiday Giving program was an example of the resilience and generosity of our community to respond to increased needs. For Thanksgiving 2021, supporters committed to providing over 350 Thanksgiving Dinner baskets, meaning Reach could help more than 100 additional families.

Our organization is only able to meet both the typical and changing needs of our community because of our supporters. Thank you for helping us do the work. Together we can rise to the occasion and meet whatever challenges come our way.

With gratitude,

Paul Love
Chair, Board of Directors

Aghes Saenz
President and Executive Director

MISSION of Community Reach of Montgomery County ESTABLISHED 1967

We seek to improve the quality of life for the most vulnerable Montgomery County residents by providing them with basic health and human services and advocating on their behalf, with the goal of helping them achieve and maintain self-sufficiency. Community Reach of Montgomery County hopes to provide the vulnerable population of Montgomery County self-sufficiency and an improved quality of life.

Rockville Emergency Assistance Program (REAP)

Financial Assistance and Referrals for Social Programs

Established 1981

FY 2022 Statistics

Financial Assistance: 59 Households with 192 Total Residents

34 households with 118 people remained housed with \$27,332 in financial assistance	15 households with 48 people were able to keep utilities working with \$12,560 in financial assistance	26 people received a total of \$4,295 in Prescription/Medical assistance	\$186 was provided for other financial assistance
-----------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------	-------------------------------------------------------------

Total Financial Assistance: \$44,188

In FY22, case management hours increased as the program continued to receive increased numbers of referrals and requests for assistance. Staff guided clients through the stressful and time-consuming process of locating and applying for assistance like COVID rental relief, SNAP benefits, child care and energy subsidies. Many clients lacked computer access, felt hesitant about using computers, or struggled with confusing online portals.

Referrals for Assistance: 474 Individuals Helped

Food Referrals: 254 individuals	Dental Care: 89 individuals	Vision Care: 50 individuals	Clothing Referrals: 3 individuals	Subsidy Referrals: 78 individuals
-------------------------------------------	---------------------------------------	---------------------------------------	---------------------------------------------	---------------------------------------------

Case Management: 496 Hours

Volunteers:
4

Volunteer Hours:
496

In-Kind Goods and Services:
\$12,400

Rockville Emergency Assistance Program (REAP)

REAP receives more requests for help in completing applications for Montgomery County COVID rental assistance, food stamps, childcare subsidies, and more. Frequently, a family needs financial assistance, a referral, and help locating other social services.

Rockville Emergency Assistance Program (REAP)

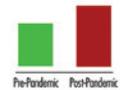

When a family lives paycheck-to-paycheck, there is no way to absorb constant price hikes.

More residents are requesting referrals so they do not go hungry and their children can wear clothes that fit.

Rockville Emergency Assistance Program (REAP)

The amount of financial assistance to prevent families from becoming homeless or lose their heat, electricity, or water, has increased by about 1/3 compared to pre-pandemic.

BUDGETS

Even as COVID restrictions have eased, inflation is stretching tight budgets beyond the breaking point.

Her church referred Ms. J, a single mother of four, to REAP when her rent was past due and the family was facing eviction. COVID complications forced her to cut back on work hours, and the family's monthly income was greatly reduced. REAP helped with the past-due rent so the family could remain in their home. Then REAP helped Ms. J apply for SNAP, childcare vouchers, and energy subsidies. These programs provided enough assistance that Ms. J could cover her rent until she was well enough to return to full-time work. She reported that without REAP's help, she and her children would probably be homeless, as she had not known she was eligible or how to apply for other benefits. Ms. J was able to concentrate on her health so she could more quickly get back to a full-time schedule.

Senior Reach Program

Homecare and Home Repair Services for Rockville Seniors Aging in Place
Established 1983

Home Care Services

Number of clients served:
28

Hours of Client Care:
3,205

Value of Client Care:
\$89,055

In FY22, Senior Reach continued our efforts to rebuild a client base that had shrunk due to the pandemic, as we serve a population that is disproportionately vulnerable to severe COVID outcomes. Although some clients remained hesitant, others reopened their doors to our services. We continued to receive new client referrals through our many partnerships with local government, healthcare providers, and community organizations. We discussed new ways to reach out to current and potential clients to determine their service needs and to provide assistance.

- Case Management
- Assistive Devices
- Food Deliveries
- Social Opportunities

In FY22, a high-rise building that rented to lower-income seniors was closing, and most tenants were moving to the new building a few blocks away. Senior Reach offered to assist all residents, whether or not they were program clients, prepare for the move. Volunteers and staff helped each tenant based on their specific needs. Later in the year, an intern from Georgetown University surveyed our client base to determine ongoing and new needs related to COVID and other challenges.

*Dusting, vacuuming, floor care, bathrooms, kitchens, trash removal, meal preparation, laundry, bathing assistance, nail care, etc.

Mr. and Mrs. Z live independently in Rockville. As the temperature dropped, Mr. Z realized their home's heating system was not working. He contacted Senior Reach after regular work hours, and we were able to schedule a contractor to make an assessment the following day.

The issue was minor, and the system was quickly fixed. Mr. Z. expressed his gratitude for getting an immediate response to his after-hours call and a quick resolution to his problem.

Due to maintenance issues, Mrs. H needed to move from one apartment to another within her senior living complex. Senior Reach helped her choose another unit and communicate her needs to property management. A Reach board member and her son helped Mrs. H organize, pack, and transport her belongings to the new apartment.

She reported that "Rae and her son did an awesome job!"

Housing - Jefferson House

- Client Support
- Life Skills
- Affordable Housing

A resident successfully followed through with all case management recommendations including: applying for two forms of subsidized transportation (Call-n-Ride and Senior Rides through Senior Connection); applying for an M&T Bank secured credit card to begin to establish credit; re-applying for SNAP (food stamps) benefits, which had lapsed; and following through with medical appointments to address long-standing health concerns. His positive actions moved him forward toward his long-term goal of independence including his ultimate goal to move to his own apartment.

Another resident proudly celebrated his seventh year of sobriety with the help of the stability that living at Jefferson House provided. As a direct result of this success, his family members have rekindled once lost relationships with him. Family members regularly visit with him at Jefferson House, invite him to their homes, and prepare meals for him.

- Affordable Housing

A resident, Ms. S, donated handcrafted items to a charity that held special meaning to her. She completed numerous handmade blankets to donate to Comfort Cases, a nonprofit that prepares backpacks filled with items to be given to children entering the foster care system. This resident, once in foster care herself, visited Comfort Cases to see their operation in person and felt gratified that she could contribute to such a wonderful organization.

Another Rockland House resident, Ms. M, serves on Rockville's Human Services Advisory Commission as a consumer representative. In that role, she helps advise the Mayor and City Council on issues relating to human service needs. Her participation involves attending monthly meetings, conducting site visits for agencies that receive funding, and testifying at government hearings, among other things.

Ms. M was asked by Reach's Executive Director to join the Commission. She considers it one of the many opportunities and blessings that living at Rockland has afforded her. In her words, it is "an honor and a blessing to be on the commission," as it is "hard work but well worth it" to contribute to a good cause.

Language Outreach Program (LOP)

English as a Second Language, Citizenship, and Conversation Classes
Established 1993

The **goal of LOP** communication classes is to ensure that **students will be able to fully participate in their community** by clearly understanding and speaking with employers, medical providers, their children's teachers, and their neighbors. Strong English skills provide better employment opportunities and a path to financial independence.

FY 2022 Statistics

 **# of Unduplicated Clients: 328**
265 Adults | 63 Children

ESL Instruction:
696 Hours

Conversation Instruction:
456 Hours

Tutoring:
510 Hours

71% of students who enroll **complete the semester of ESOL instruction**. In FY 2022, 62% of students who completed a course "graduated" to the next ESOL course level. **It takes the average adult learner seven years to become proficient in English.**

Citizenship Instruction: 108 Hours
of students who became U.S. Citizens: 18

Volunteers:
6

Volunteer Hours:
688

In-Kind Goods and Services:
\$11,533

A student, who is a single mother, received a promotion at work and has been using English on the job. She expressed a lot of satisfaction in the improvement in her comprehension and speaking ability.

One student was studying for a certification exam for her workplace. The exam was in English. She was very nervous about the exam and studied hard. Teachers could see her confidence building during classes, and by the time she took the exam, she felt well-prepared and assured. She, of course, passed the exam and was quite proud!

- Toy Distribution

Every holiday season, Reach works with the Montgomery County Holiday Giving Coalition to support all residents of Montgomery County and ensure they can celebrate with the seasonal traditions. Thanks to our generous supporters, Reach was able to provide Thanksgiving dinner to 88 more families than in November 2020.

Mansfield Kaseman Health Clinic

Established 2009

Patient care and the improved health of our patients is one of the main goals of the Kaseman Health Clinic. The Clinic tracks medical quality measures using the Healthcare Effectiveness Data Information Set (HEDIS) benchmarks for chronic care screening, including diabetes and hypertension, and for cancer screenings, including cervical, colon, and breast cancer.

FY22 HEDIS Outcomes at MKHC

Diabetes

62%

of diabetic patients had an H1c under control below 8 (HEDIS benchmark 48.1%)

Hypertension

62%

of hypertensive patients had blood pressure readings under 140/90 (HEDIS benchmark 56.8%)

Breast Cancer Screening

62%

of age-appropriate female patients received breast cancer screenings (HEDIS benchmark 50.4%)

Cervical Cancer Screening

70%

of female patients received cervical cancer screenings (HEDIS benchmark 66.7%)

Colorectal Cancer Screening

45%

of age-appropriate patients received colorectal cancer screenings (HEDIS benchmark 59%)

Depression Screening

89%

of all patients received depression screenings (HEDIS benchmark 75%)

A patient, Ms. F, was of age to have a colonoscopy, but she was very hesitant. As with all patients, Clinic staff reminded her about this recommended procedure until she acquiesced and had the test for colon cancer. Cancerous polyps were found and removed.

The patient sent a thank-you letter:

To the Kaseman Clinic Cancer Prevention Program, The clinic staff called me over and over again to get tested for colon cancer (Colonoscopy). I followed their recommendations and thanks to all the staff, the doctor and the manager, I was saved from advanced cancer. They discovered my cancer early and thanks to them I no longer have cancer. I am very grateful to them and to the cancer prevention program.

-Ms. F

In early 2022, a catastrophic flood occurred at Kaseman Clinic due to a faulty pipe in the business located above. The premises were no longer usable to see patients. Rockville United Church generously provided space for a temporary relocation. Though this was a difficult start to the new year, our staff, volunteers, and patients showed remarkable resilience and rose to the occasion, finding ways to make the borrowed classrooms usable for medical visits. Staff members helped move to the new location, accommodated themselves to having only one exam room and less equipment, and dealt with spur-of-the-moment changes. Patients adapted to traveling to a new location.

REAP has prevented approximately **15,800 individuals** from being evicted since the program began in 1981.

In FY22, Senior Reach provided **3,205 hours of home care** service to keep senior residents self-sufficient.

9,531 students have enrolled in ESOL classes since the Language Outreach Program began in 1993.

A family with children is more likely to face eviction, and each additional child raises that likelihood.¹

Seniors using paid in-home care reported **25% fewer doctor visits** each year than older adults who did not have such care.³

Depending on location, workers proficient in English **earn between 17% to 135% more** than non-proficient workers.²

In FY22, Kaseman Health clinic served approximately **1,811 patients** who identify as Latino (81% of the total Clinic patients).

In FY22, **376 volunteers** increased their social wellbeing by providing 6,302 hours of service to Reach. The value of these hours equaled **\$211,555**.

Since their founding, Rockland and Jefferson Houses have provided **68,041 nights** in permanent supportive housing to formerly homeless men and women.

In Montgomery County, almost **one in five Hispanic/Latino** community members are uninsured.⁴

Surveys have reflected an **11% increase in social wellbeing** for those who volunteer.⁶

People who are homeless have higher rates of illness and die on average **12 years sooner** than the general U.S. population.⁵

Our Impact

"When we talk about learning a new language, we know it takes dedication, time, and a lot of practice, but when you have two jobs and family to care for, it is not that easy. It takes courage, which is a word to which every immigrant can relate. We know studying English is the only way we can build a fuller life in the community. English is the key to success for our families."

- Cecilia Rojas, Language Outreach Program Graduation Ceremony

"Rewards come from having a gentle conversation with someone to encourage them during the day to assisting with the resolution of a rental payment."

- Ann Hamlin, Housing Program Manager

"Senior people have specific needs and you know this, thank you so much for 'reading the senior soul,' seeing what is lacking and that is personal care...You really meet the personal care need. I've never had anybody care that much..."

- A note from a Senior Reach client

"I was thrilled to be invited to serve on the Reach Board because I was very impressed with the services that the organization provides to our community and especially the most vulnerable members of our community."

- Nancy Sushinsky, Board Member

"During a global pandemic, many Montgomery County residents found themselves sick and in the hospital unexpectedly. Having patients see their primary care is really important after a hospital stay to ensure continuity of care, and Kaseman is there for our community in this way. Since the Kaseman Clinic is a Montgomery Cares clinic, it serves uninsured and underinsured patients.

This is a really great service they do to make sure that people have the care they need regardless of their ability to pay."

- Margie Hackett at Suburban Hospital, 2021 Clinic Event

Financials + Ways to Help

PROGRAM	CASH REVENUE	IN-KIND GOODS & SERVICES	TOTAL REVENUE	PCT
Rockville Emergency Assistance Program	\$47,362	\$12,400	\$59,762	2%
Senior Reach Program	\$176,521	\$8,933	\$185,453	6%
Housing Program - Jefferson House	\$73,787	\$31,497	\$105,285	3%
Housing Program - Rockland House	\$68,130	\$8,045	\$76,175	2%
Language Outreach Program	\$228,174	\$11,534	\$239,708	8%

Ways to Support Community Reach of Montgomery County

- Schedule a group project
- Attend an event and bring a friend
- Sponsor a Reach supply drive
- Volunteer at an event
- Volunteer with a Reach program
- Serve on a committee
- Donate items
- Make a financial donation
- Offer your expertise on a subject

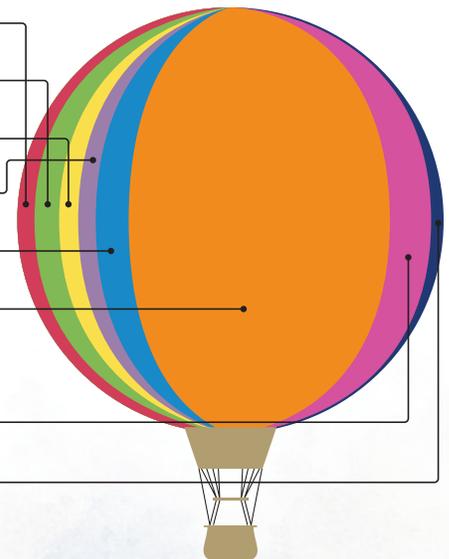

THE IMPACT OF YOUR DONATION

- \$25** could provide a toy for a child in our Holiday Giving Program
- \$50** could pay for tuition and books for a student enrolling in our ESOL classes
- \$100** could cover a gynecological visit co-pay and PAP test costs at MKHC
- \$250** could offer a Senior Reach client 6 months of Life Link services
- \$500** could cover the deposit for an apartment when a Housing resident is ready to return to self-sufficiency
- \$1000** could protect a REAP family from sleeping in their car after an eviction
- \$2000** could help update our IT, increasing staff efficiency and patient services
