

# 10 Reasons

Why it is easy to switch to Tangle

**Keep Every Piece of Your History**

1

We import all of your job history, quotes, orders, and customer data so you can pick up exactly where you left off. Most systems make you start fresh. With Tangle, your history is part of your future.

**AI Assistant On Your Team**

2

Need a new report? A custom dashboard? Tangle's AI assistant (MILO) can build it for you in seconds. No consultants or coding required

**Workflows Stay Intact**

3

Our no-code/low-code tools adapt to how you already run your shop, not the other way around. You don't need to retrain your team from scratch.

**Proven Setup Process**

4

We've migrated dozens of shops from spreadsheets, old ERPs, and homegrown systems with zero data loss and minimal downtime.

**Done-For-You Implementation**

5

We handle the heavy lifting: data import, configuration, and initial training. You focus on running your shop.

# 10 Reasons

Why it is easy to switch to Tangle

## Training That Fits Your Team

6

Simple, role-specific training sessions so everyone's ready to go without pulling them off the floor for days.

## Side-by-Side Go-Live

7

Run your old system in parallel during the transition so you can test and tweak without risk.

## Reporting Without Limits

8

From day one, you can track quoting times, on-time delivery, material usage, and more, all with custom reports you design (or have MILO design them for you).

## Faster Quoting & Scheduling

9

Shops switching to Tangle typically cut quoting time by 80–90% and see fewer production errors.

## One-Month Full-Setup Trial

10

Test Tangle in your real environment before making a commitment, everything fully set up and ready to use. Switching systems shouldn't slow you down.
