

Audit Offshoring Services

The Right **People.**

The Right **Platform.**

The Right **Audit** from Day One.

Platform-trained talent. Structured offshore delivery.
Firm-wide quality maintained by design.

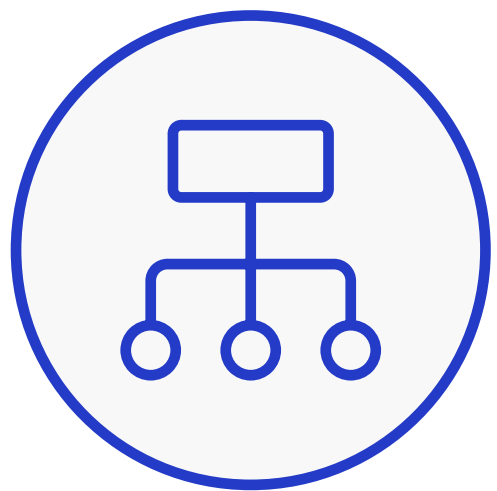

175+

Years of Big Four audit
experience behind the platform

The Audit Corpus Offshore Model

A structured offshore model where talent is trained on the platform before they touch a single client file. Work with seasoned audit specialists that:

Execute audits within
system-enforced workflows

Enable quality management and
engagement execution at scale

We employ a time-tested two-phase approach to accelerate platform-readiness:

Training Phase

- Staff trained on Audit Corpus Platform
- Simulated environments and edge-case training for context-based solutioning
- Curriculum includes training on written and verbal communication, technology skill on use of Microsoft Excel and guardrails on use of AI

Deployment Phase

- Work performed in system-enforced workflows offshore
- Reviewed onshore through live access on every file
- Quality maintained by design

Skilled Staffing and Workforce Solutions

Scaling your audit practice shouldn't mean compromising on quality. Audit Corpus Offshoring delivers pre-trained, platform-ready talent, so your firm grows without the friction of traditional hiring and onboarding.

Talent Challenges

Trained staff take time to develop

The cost of onboarding is high

Remote work is hard to monitor

Quality varies when processes aren't standardised

Inadequate communication skills, both spoken and written

The Audit Corpus Difference

Graduates arrive pre-trained on the Audit Corpus platform. Day One is productive, not preparatory

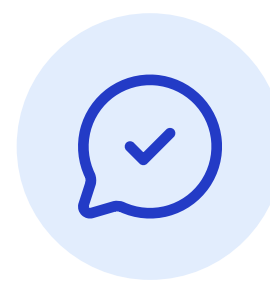

Zero platform ramp-up cost. Talent is trained before deployment, not billed to your engagement

Full firm visibility. Live access to every file, review note, and workflow stage from your desk

System-enforced workflows apply the same standards offshore as onshore. Quality by design, not exception

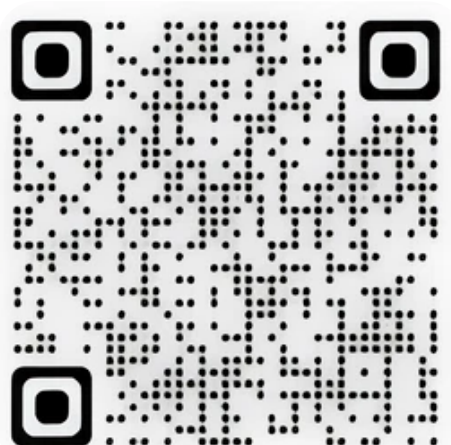

Staff are onboarded after appropriate training on spoken and written communication skills

Audit Demand is Growing.

Scale revenue with **high-performance**
off-shore audit teams

- ✓ Led by Big Four experienced practitioners
- ✓ System-enforced quality controls
- ✓ Role-based, risk-driven workflows
- ✓ Platform trained talent pool
- ✓ Instant deployment, minimal setup
