

Job Description

React.js Developer

Position Title: React.js Developer

Experience Required: 3+ years

Location: Mumbai

Job Summary:

We are seeking a skilled React.js Developer to join our team in Kurla, Mumbai. The ideal candidate will have a strong command of modern JavaScript, React.js, and front-end development best practices. You'll work closely with designers and backend engineers to build responsive, high-performance web applications.

Key Responsibilities:

- Develop and maintain web applications using React.js and related technologies.
- Write clean, reusable, and scalable code following best practices.
- Collaborate with UI/UX designers and backend developers to implement seamless user experiences.
- Optimize application performance, speed, and responsiveness.
- Troubleshoot and debug application issues.
- Stay updated with the latest trends and advancements in front-end development.

Required Skills and Qualifications:

- 3+ years of hands-on experience in front-end development.
- Proficiency in React.js, JavaScript (ES6+), and TypeScript (preferred).
- Experience with state management tools such as Redux or Context API.
- Solid understanding of RESTful APIs and integration with backend services.
- Familiarity with modern front-end tooling (Webpack, Babel, etc.).
- Proficient in Git and version control workflows.
- Strong knowledge of responsive design and cross-browser compatibility.

What We Offer:

- Competitive compensation and benefits.
- Opportunities to work on cutting-edge technologies and projects.
- A collaborative and innovative work environment.
- Continuous learning and professional development support.
