Job Description
Senior Applications Analyst

Position Title: Senior Applications Analyst

Experience Required: 5+ years

Location: US (Remote) - Must be a U.S. Citizen or Green Card Holder

Job Summary:

We are seeking a highly skilled Senior Applications Analyst to provide technical leadership, application support, and workflow optimization for healthcare-related systems. This role involves collaborating with cross-functional teams, mentoring peers, and driving process improvements while ensuring the stability, scalability, and performance of mission-critical applications.

Key Responsibilities:

- Collaborate with Applications Team members and internal stakeholders to deliver expert technical guidance for application tools and workflows.
- Configure, implement, and optimize clinical information systems and healthcare applications.
- Translate business requirements into design specifications, maintain technical documentation, and follow change control processes.
- Mentor team members to enhance their technical and professional capabilities.
- Manage small to medium-sized IT projects and process improvement initiatives.
- Facilitate and influence multidisciplinary work groups in application development or support settings.
- Develop, manage, and deliver project work plans on schedule.
- Create, execute, and document test plans and test cases.
- Support large-scale enterprise customers, ensuring application performance and reliability.

Required Skills and Qualifications:

- 5+ years of recent healthcare or IT experience.
- 2+ years in application/system configuration and implementation of clinical information systems or healthcare applications.
- Proven experience in business requirement gathering, technical design, and documentation.
- Demonstrated mentoring experience.
- Strong project management skills with experience leading small to medium-sized initiatives.
- Expertise in facilitating multidisciplinary workgroups.
- Strong problem-solving and communication skills.

What We Offer:

- Fully remote U.S. opportunity with flexibility to work onsite as required.
- Competitive salary and benefits package.
- Opportunity to work on mission-critical healthcare applications.
- Collaborative team culture with professional growth opportunities.
