APRIL 2026

Welcome to the Liskeard Library
April 2026 Newsletter!

We had a fantastic March at the Library with plenty of creative activities from writing groups to art workshops at Golitha! We also welcomed Mama Rita's Kitchen to the library for a delicious Caribbean inspired quiz night.

We hope you all enjoyed meeting Sam Horton when he delivered his book talk and folklore writing workshop this month too!

We're looking ahead to a cram-packed April full of Easter Holiday activities as well as a delicious new menu at the Library.

Read on to discover everything happening at the library this April!

Young Author's book in Library Service!

Liskeard Library is celebrating an exciting milestone as 14-year-old Jennifer Hooper, a Year 10 student at Liskeard School and Community College, becomes the first young local writer to have a book added to the Cornwall Library Service collection since Real Ideas began running the library. Her debut fantasy novel, *The Dragons*, is now available on the shelves at Liskeard Library and will

also be accessible digitally through BorrowBox as well as via major booksellers.

Jennifer not only wrote *The Dragons* herself but also designed the bold, imaginative cover. The novel is already available online through major retailers, including Amazon and Waterstones.com, and its addition to the Cornwall Library Service means readers across the county — and far beyond — can now discover her work.

Our regular events!

Live & Later - our open mic, spoken word night - continues as usual as well as our monthly quiz night with Himalayan Spice as the guest restaurant. Yummy!

Coding Club, Rhyme Time, and Moo Music continued to bring challenges, laughter, and learning each week, offering something fun and engaging for children of all ages.

What's coming up in April?

Dungeons & Dragons!

Step into a world of imagination, teamwork, and epic storytelling! This three-hour introduction to Dungeons & Dragons (D&D) is designed especially for young people who are curious about the world's most famous tabletop role-playing game.

Lino Printing!

Join us this Easter for a creative lino printing workshop designed especially for young adults (11+). This practical, guided workshop introduces the basics of lino cutting and printmaking, allowing participants to experiment with tools, textures, and design while creating their own printed artwork.

***WE ACCEPT
PARD CARD!***

pardcard.com

Pard Cards at the ready!

We're excited to share that we've partnered with Pard Card, giving members 10% off our events and café purchases when you book in person at the library.

It's another way we're proud to support local and strengthen our community connections.
