

# RE-LEVE® MIX

## SUPPORTS DIGESTIVE HEALTH & MUSCLE FUNCTION

Provides long-lasting energy and digestive support for EGUS-prone horses.

### Research

Re-Leve® Mix is based on extensive collaborative research carried out by Dr. Stephanie Valberg at the University of Minnesota and Kentucky Equine Research. It is formulated to provide the equine athlete with the level of energy that is required for performance, using alternative energy sources to cereals. To gain full advantage of this specific research, it is recommended that 0.5-1.5kg of Equi-Jewel® (high fat rice bran) is fed daily alongside Re-Leve® Mix to boost energy levels and increase the reliance on fat as a primary energy source.

### Feeding requirements

Feeding requirements will vary subject to individual needs, level of work, body condition and feed management practices. To discuss in further detail, please contact one of the Saracen Equine specialists.

|  | FEEDING RATE FOR MIX<br>1 SCOOP = 1.5kg | Bodyweight (kg) | Feed (kg) |
|------------------------------------------------------------------------------------|-----------------------------------------|-----------------|-----------|
|                                                                                    |                                         | 200-400         | 1.0-2.0   |
|                                                                                    |                                         | 400-600         | 2.0-3.5   |
|                                                                                    |                                         | >600            | 3.5-5.0   |

### Feeding rate notes

The feeding rates are offered as a guide. If you would like to discuss your horse's individual requirements, please contact a member of our Nutrition Team on **+44 (0)1622 718 487**

Saracen Horse Feeds recommend that Re-Leve® Mix is fed soaked and mixed with a quality chaff. If fed soaked, soak for 10 minutes using 1 part mix to 2 parts water.

### Pack size

20 kg

### Ingredients

Soya Hulls\*, Dried Sugar Beet Pulp, Pea Flakes, Soya Flakes\*, Cane Molasses, Grass Pellets, Soya Oil\*, Sunflower Seed Meal Dehulled, Dicalcium Phosphate, Sodium Chloride, Maerl (calcareous marine algae), Mixture of flavouring compounds. \*Genetically modified material

### Nutritional Info:

- Crude Fibre - 18.5%
- Crude Protein - 13.0%
- Lysine - 0.79%
- Methionine - 0.19%
- Crude Oil - 9.0%
- Crude Ash - 9.8%
- Starch - 8.0%
- Sugar - 6.0%
- Digestible Energy - 12.9 MJ/kg

### Vitamins:

- Vitamin A - 12,100 IU/kg
- Vitamin D - 1,200 IU/kg
- Vitamin E - 319 IU/kg
- Vitamin E (natural) - 61 IU/kg
- Vitamin C - 170 mg/kg
- Vitamin B1 - 8.0 mg/kg
- Vitamin B2 - 8.0 mg/kg
- Vitamin B6 - 3.0 mg/kg
- Vitamin B12 - 0.03 mg/kg
- Pantothenic Acid - 11.0 mg/kg
- Niacin - 29.0 mg/kg
- Folic Acid - 3.0 mg/kg
- Biotin - 0.3 mg/kg

### Minerals:

- Calcium - 1.25%
- Phosphorus - 0.50%
- Magnesium - 0.35%
- Sodium - 0.48%
- Chloride - 0.80%
- Potassium - 1.20%
- Iron - 320 mg/kg
- Iodine - 0.44 mg/kg
- Copper - 44 mg/kg
- Zinc - 140 mg/kg
- Manganese - 61 mg/kg
- Selenium - 0.53 mg/kg

### Zootechnical additives (Yeast)

4b1710 Saccharomyces cerevisiae MUCL 39885 (Vistacell).  
Number of Colony Forming Units (CFU): 8.7x10(9) CFU/KG
