

# RACE 13<sup>®</sup>

## INTERNATIONALLY AVAILABLE, HIGH ENERGY, HIGH PERFORMANCE RACING MIX

Race 13<sup>®</sup> is a high energy sweetfeed, formulated to maintain the equine athlete during the rigours of a strenuous racing campaign.

### Research

BMC<sup>®</sup> (Buffered Mineral Complex) is a natural mineral source derived from a marine algae that is high in bioavailable minerals, including calcium, magnesium, boron, silicone, iodine, zinc and manganese. BMC<sup>®</sup> is used in all of the Saracen specialist racing feeds following extensive research by Kentucky Equine Research (KER) into the positive effects on digestive health and bone development.

### Feeding requirements

Feeding requirements will vary subject to individual needs, level of work, body condition and feed management practices. To discuss in further detail, please contact one of our Thoroughbred Specialists.
