

# KENTUCKY BALANCER

## A HIGH SPEC CONCENTRATED OAT BALANCER MIX

A densely concentrated mix specifically designed to be fed to racehorses alongside oats.

### Research

BMC® (Buffered Mineral Complex) is a natural mineral source derived from a marine algae that is high in bioavailable minerals, including calcium, magnesium, boron, silicone, iodine, zinc and manganese. BMC® is used in all of the Saracen specialist racing feeds following extensive research by Kentucky Equine Research (KER) into the positive effects on digestive health and bone development.

### Feeding requirements

Feeding requirements will vary subject to individual needs, level of work, body condition and feed management practices. To discuss in further detail, please contact our Nutrition Team.
