

LEVEL-GROW® SUMMER CUBES

LOW-GLYCAEMIC STUD CUBES DESIGNED
TO SUPPORT BALANCED GROWTH IN
YOUNG HORSES FROM APRIL TO OCTOBER

Formulated to support steady growth and help maintain normal skeletal development and strength.

BMC® is a natural mineral source derived from a marine algae that is high in bioavailable minerals, including calcium, magnesium, boron, silicon, iodine, zinc and manganese. BMC® is used in all of the Saracen specialist breeding feeds following extensive research by Kentucky Equine Research (KER) into the positive effects on digestive health and bone development.
