

RECOUP CUBES®

A LOWER PROTEIN, LOWER STARCH,
HIGHER FIBRE CUBE DESIGNED FOR
EARLY FITTING WORK

Recoup Cubes® makes for a smooth transition between the lower and higher energy racing feeds, as the nutrient levels and ingredients are very compatible.

Research

BMC® (Buffered Mineral Complex) is a natural mineral source derived from a marine algae that is high in bioavailable minerals, including calcium, magnesium, boron, silicon, iodine, zinc and manganese. BMC® is used in all of the Saracen specialist racing feeds following extensive research by Kentucky Equine Research (KER) into the positive effects on digestive health and bone development.

Feeding requirements

Feeding requirements will vary subject to individual needs, level of work, body condition and feed management practices.
