

RE-VIVE MASH

A FULLY FORTIFIED, CORRECTLY BALANCED, HIGHLY APPETISING MASH

Designed to support strategic rehydration and recovery rates, and to maintain appetite by masking medication with a tempting banana flavour.

Research

BMC® (Buffered Mineral Complex) is a natural mineral source derived from a marine algae that is high in bioavailable minerals, including calcium, magnesium, boron, silicon, iodine, zinc and manganese. BMC® is used in all of the Saracen specialist feeds following extensive research by Kentucky Equine Research (KER) into the positive effects on digestive health and bone development.

Feeding requirements

Feeding requirements will vary subject to individual needs, level of work, body condition and feed management practices.
