### **AREA OVERVIEW**

## TAMPA, FLORIDA

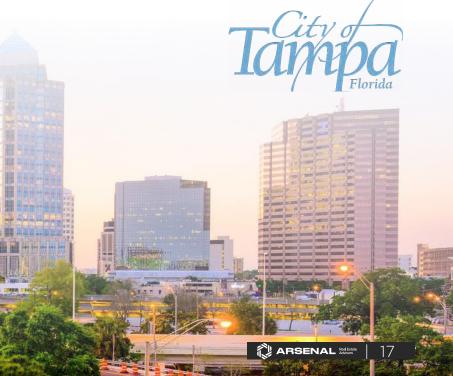

The City of Tampa is the largest city in Hillsborough County, and is the third most populous city in Florida. It is located on the west coast of Florida, approximately 200 miles northwest of Miami, 180 southwest of Jacksonville, and 20 miles northeast of St. Petersburg. The City of Tampa is the 3rd largest city in Florida with a population of 408,440 as of 2024.

The City of Tampa is a diverse city with a diverse economy comprised of a well-established and growing business community that represents retail industrial and emerging technologies. Major features of the economy include the Port of Tampa Bay, Tampa International Airport, the central business district, several professional sports teams, institutions of higher learning, museums and other cultural facilities.

The Tampa Bay Area (including Tampa, St. Petersburg and Clearwater) continues to be the home to a diverse set of industries and employers. The Tampa Bay area is home to large company headquarters such as Publix, Raymond James Financial, Jabil, TECO Energy, Sykes Enterprises and Tech Data.

The City of Tampa is home to MacDill Air Force Base (AFB) employing approximately 14,500 military and civilian personnel.

Tampa is served by three airports (one in Tampa, two in the metro area) that provide significant scheduled passenger air service: Tampa International Airport, St. Petersburg–Clearwater International Airport, Sarasota–Bradenton International Airport. The Port of Tampa is the largest port in Florida in throughput tonnage, making it one of the busiest commercial ports in North America. Petroleum and phosphate are the lead commodities, accounting for two-thirds of the 37 million tons of total bulk and general cargo handled by the port in 2009. The port is also home to Foreign Trade Zone #79, which assists companies in Tampa Bay and along the I-4 Corridor in importing, exporting, manufacturing, and distribution activities as part of the United States foreign trade zone program.

## MARKET TO WATCH

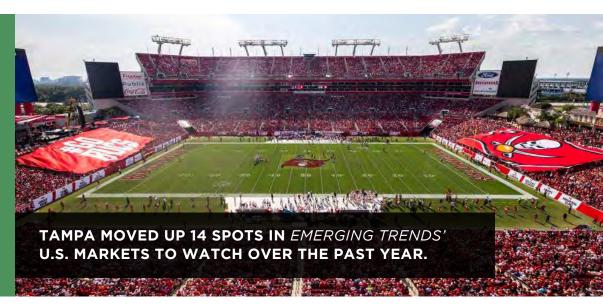

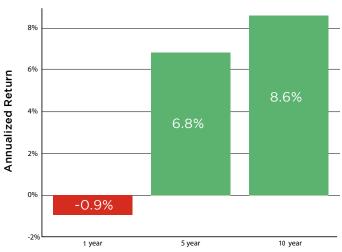

# #4 TAMPA-ST. PETERSBURG

Though Tampa-St. Petersburg might fly under the radar compared to its neighbors—the colorful Miami and heavily touristed Orlando—the metro area is no slouch amid Florida's formidable peers. Tampa's sunny climate, year-round sports, no state income tax, and booming economy have created a longtime draw for workers and retirees alike, leading Money magazine to name Tampa the ninth best place to live in the United States in 2022. The metro area has proven a good place for real estate investment capital to live as well, with 10-year annualized total returns of 8.6 percent in NCREIF's NPI. Tampa moved up 14 spots in Emerging Trends' U.S. Markets to Watch over the past year, the most improved ranking among Florida's major metro areas (and tied for highest upward movement in the state with Deltona/Daytona Beach and Gainesville); Tampa is also the first U.S. Market to Watch for homebuilding prospects.

# TAMPA-ST. PETERSBURG TRAILING TOTAL RETURNS ANNUALIZED AS OF 2024 Q2

Source: NCREIF NPI Database, accessed 2024 Q3

Tampa models an enviable economy with strong growth, high-paying job drivers, and economic diversity. The MSA's population grew 1.5 percent per year from 2013 to 2023, approximately 2.5 times the national pace. Similarly, Tampa's job growth has nearly doubled the national pace over the 10 years ending August 2024. The metro area is driven by white-collar jobs, particularly in the financial services sector. The share of private office-using jobs is 39 percent higher in Tampa than in the United States overall, while financial services jobs' share is 59 percent higher here. There are four noteworthy finance and insurance companies with over 5,000 jobs in the metro area. But despite this notably outsized industry cluster, Moody's Analytics gives the area an industrial diversity score of 0.83 (U.S. = 1.0), which ranks fourth most diverse among the 390 ranked MSAs.

Housing affordability is perhaps Tampa's greatest headwind, as Moody's data on the cost of living puts Tampa's relative costs at 111 percent of the national average. Homeowner's insurance expense now ranks among the 10 highest nationally. Rising costs might slow in-migration from the 50,000 to 70,000 the

metro area saw each year from 2021 to 2023, which calculated to a top 10 rate per capita for metro areas with more than 1 million residents. Some relief will come from lower interest rates, while Tampa home prices have moderated a bit since their January 2024 peak. But with house prices up 66 percent in the four years ending July 2024, much of Tampa's previous housing affordability has eroded, with little hope of returning in the near term.

On the bright side, costs of doing business remain below national averages (95 percent of the national rate, per Moody's), with costs considerably lower than U.S. averages for energy, state, and local taxes, and office rent.

Despite these outlined risks, local economic growth is expected to be conducive to outsized real estate returns. Continued in-migration, an attractive business climate, and job growth forecast at 2.3 times the nation's five-year forecast set the stage for continued demand for Tampa real estate.
