

# SIMPLIFYING CMMC LEVEL-2 COMPLIANCE AND CONTINUOUS MAINTENANCE

Koniag Cyber's CAMO: An Easier and More  
Affordable Path to CMMC L2 Compliance

## 3 Keys in the New CMMC Compliance Landscape

01

The Department of War's (DoW's) CMMC mandate formally established the DoD CMMC Program, requiring almost half of all companies within to do business with the DoW to establish, maintain, and attest to a 100% compliant company-wide CMMC Program. CMMC Level-2 (L2) requires 100% compliance of 320 Security Objectives within NIST SP800-171 r2's 110 Controls.

02

Starting in November of 2025, the DoW began a phased rollout of solicitations that now requires companies to achieve CMMC Level-2 Certification at the time of contract award. An estimated 80,000+ companies will be impacted by this new requirement between 2025 and 2028.

03

The Cyber Accreditation Body (Cyber-AB) is the only organization authorized by the DoW to certify individual companies to conduct CMMC Certification Assessments.

If your company currently does or aspires to do business with the Department of War (DoW), and a contract or solicitation contains an applicable CMMC-related DFARS clause (such as DFARS 252.204-7021), your organization must achieve the required CMMC level certification for the appropriately scoped environment prior to contract award. In addition, prime contractors and higher-tier vendors are increasingly flowing CMMC requirements down through their supply chains, meaning organizations may be required to obtain CMMC certification to conduct business even when their direct customer is not the DoW.

CMMC Level-2 Compliance is complex, and missteps in either achieving or maintaining compliance can have a massive, negative impact on your organization. Koniag Cyber is a CMMC 3rd Party Assessor Organization (C3PAO), and we are verifiably qualified to provide your company with the services and support needed to obtain and maintain your CMMC L2 Compliance and Certification.

## Koniag Cyber's CAMO: CMMC Adaptive & Managed Operations

CAMO is a comprehensive program and continuous service, making CMMC compliance and maintenance easier and less expensive for your organization. With CAMO, we pair Koniag Cyber CMMC Certified Professionals (CCP) security analysts & IT engineers to continuously satisfy over 80% of CMMC L2 compliance and the evidentiary artifacts required for your company to achieve and maintain CMMC L2 compliance. **This means 255 of the 320 Security Controls are achieved and continuously maintained for you, continuously.** With a managed services approach, Koniag Cyber offers you a cash-flow-friendly, simpler way to stay compliant and avoid costly False Claims Acts.

### Benefits of Koniag Cyber's CAMO Program

#### CAMO Includes:

- Endpoint Protection
- Evidentiary Artifacts
- Our Governance, Risk & Compliance (GRC) tool
- Incident Response guidance
- Access to our CAMO Crisis Management Hotline
- And more...

#### Lower Cost

CAMO significantly reduces the price of your CMMC L2 Certification Assessment

#### Team Relief

Allow your team to focus on the work that drives revenue and growth

Continuously fulfills 80%+ (255 of the 320) security objectives required for L2 certification

#### Right to Audit

Ability to audit our managed services provided to you

Fulfills the Separation of Duties requirement

# Partnering to Achieve and Maintain Comprehensive CMMC L2 Compliance:

Do not go it alone. We will work with you to understand your specific risk landscape and chart a custom CAMO plan to meet and exceed your CMMC needs. In a typical CAMO engagement from Koniag Cyber, you can expect a shared responsibility plan similar to what is presented below.

## Continuously Fulfill 80%+ Security Objectives Required for L2 Certification

### Access Control

### Media Protection

### Awareness & Training

### Personnel Security

### Audit & Accountability

### Physical Protection

### Configuration Management

### Risk Assessment

### Identification & Authentication

### Security Assessment

### Incident Response

### System & Communication Protection

### Maintenance

### System & Information Integrity

Since September of 2022, Koniag Cyber (via Soundway Consulting, now Aapit Koniag Cyber Solutions) has been a Cyber-AB Authorized C3PAO committed to helping the Defense Industrial Base (DIB) and research facilities achieve CMMC compliance through our innovative programs, our CMMC Certified Professionals (CCP) and CMMC Certified Assessors (CCA)

Obsess over your clients,  
and we'll obsess over your  
CMMC L2 Compliance
