BUY IT RIGHT. RUN IT SECURE. DEFEND IT AROUND THE CLOCK.

Koniag Cyber protects what organizations buy, run, and defend, so security is always at your core.

For decades, we've built and defended critical systems against the toughest adversaries the United States faces. Koniag Cyber applies that same federal-grade expertise across the full technology lifecycle: the hardware and cloud you buy, the systems we run for you, and the defenses that guard it all. We create tailored IT & cybersecurity solutions for regulated industries like defense, government, healthcare, banking, and energy, and the mid-market organizations that can't build this depth on their own.

Buy

Value-Added Reseller (VAR)

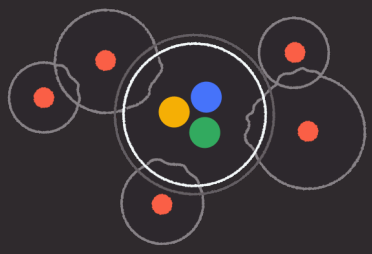

Security starts at the purchase order. We source, configure, and harden the hardware, cloud, and infrastructure your operations run on, ready to run and accountable to the team that built it.

Run

Managed IT Services (MSP)

Security only holds if the systems underneath run well. We manage the servers, endpoints, networks, and OT behind your operations like a security company would: patched, monitored, built to shrink risk before it starts.

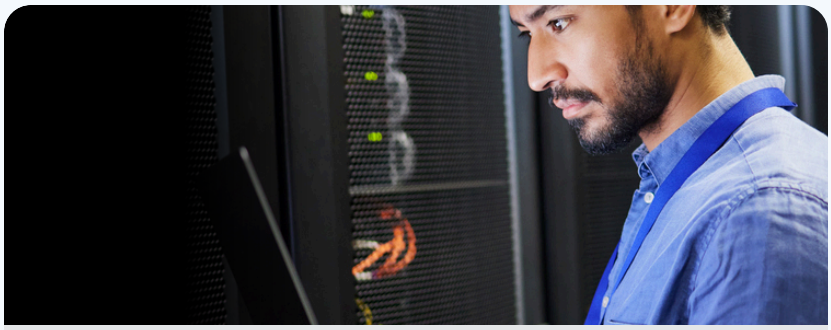

Defend

Managed Security Services (MSSP)

When incidents occur, speed and precision matter. We assess your risk, harden your environment, watch it around the clock, and move fast when something gets through: AI Security, MDR/SOC, Compliance, CMMC, OT/ICS.

Ready to fortify your cybersecurity with a partner who's relentless, meticulous, and trusted? Visit koniagcyber.com to get started.

CASE STUDY

Driving Transformational Cybersecurity for a Major Federal Agency

We implemented a full-scale cybersecurity program for a major U.S. government agency, modernizing their SOC and standing up a fully compliant SIEM.

Results:

- 212% Reduction in Mean Time to Contain (MTTC)
- 57% Decrease in Mean Time to Detect (MTTD)
- Increased FISMA cybersecurity score from 1.5 to 4
- Awarded an "A" on FITARA Scorecard

> *The team is amazing. You far exceeded my expectations.*

WHY CHOOSE KONIAG CYBER?

Client-First Commitment

We're in service to you. Every part of the relationship is handled with care, honesty, and intentionality.

Built to Last

Backed by Koniag, one of twelve Alaska Native regional corporations, we're a "forever" company built for the long term.

Proven Expertise

Born from Koniag Government Services, we recently marked our 50th anniversary, always focused on your unique security landscape.

Trusted Authority

Some of the most complex U.S. agencies, protecting the nation's most critical assets, turn to us for custom planning and continuous innovation.

One Unified Team

Buying, running, and defending used to mean three vendors pointing fingers. With us, one accountable team owns every decision, purchase to defense.

The Hard Work, Handled

Most organizations were never meant to run cyber, IT, and procurement at this level. We take on the hard work so your people can focus on the mission.

We serve the most regulated and challenging industries

- National Security & Defense
- State, Local & Federal Government
- Healthcare & Life Sciences
- Banking, Finance & Insurance
- Energy, Utilities, Manufacturing & Industrial Systems
