- Estate planning

## Biography

Ira is often highly rated in various local and international publications including Chambers and Partners and Best Lawyers, which list globally renowned lawyers and law firms.

Acknowledged as a “well-respected lawyer with considerable commercial experience. His knowledge spans the full range of issues in this space, such as joint ventures, restructurings and M&A”, Ira needs little introduction in legal circles.

A highly respected corporate and commercial lawyer with international and local clients across all sectors, Ira is known for his leadership skills and prodigious legal expertise.

Prior to joining Fluxmans, Ira was a founding shareholder of a niche corporate finance house where he advised corporate clients and high net worth individuals. He then returned to mainstream corporate and commercial law where he continues to thrive and excel. In addition to his busy practice and the management of the firm, Ira regularly shares his vast knowledge on podcasts for various leading publications and in interviews.

Ira obtained his B.Com. and LL.B. (with distinction) degrees at the University of the Witwatersrand. He was appointed Joint Chief Executive Officer and Managing Director of Fluxmans in 2020.
