

Upgrade merchants to Verifone Android POS

Grow your business by boosting customer in-store sales and improving their shoppers' payment experience with new POS terminals from Verifone

Leverage the industry's best payment solutions

Our market expertise and innovative drive support you in creating new value for business customers. Enable merchants to thrive with our future-proof payment ecosystems.

Unbeatable solution portfolio

We provide partners with opportunities for long-term revenue streams with a strong portfolio of products and an array of value-added services that deliver efficiency and cost savings, and allow businesses to effectively manage their payments.

Dedicated support

We are dedicated to ensuring the success of our partners. We have a committed Partner Relationship Management team and Partner Service teams to assist you in building optimized, long-term collaborations with your user base.

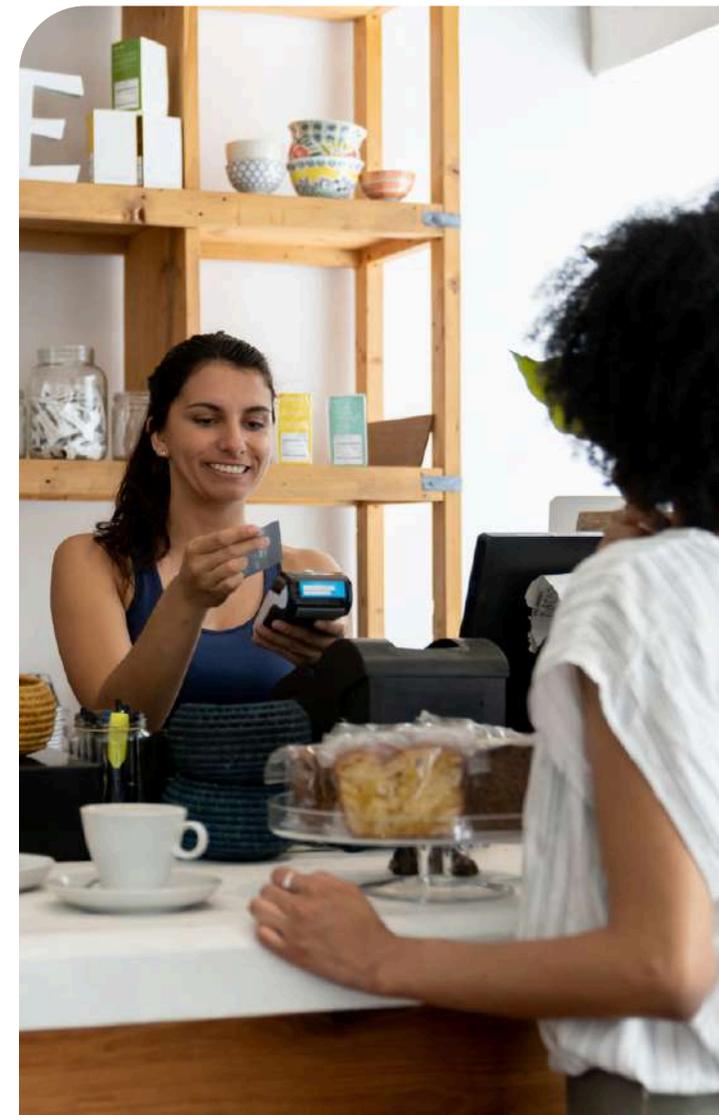

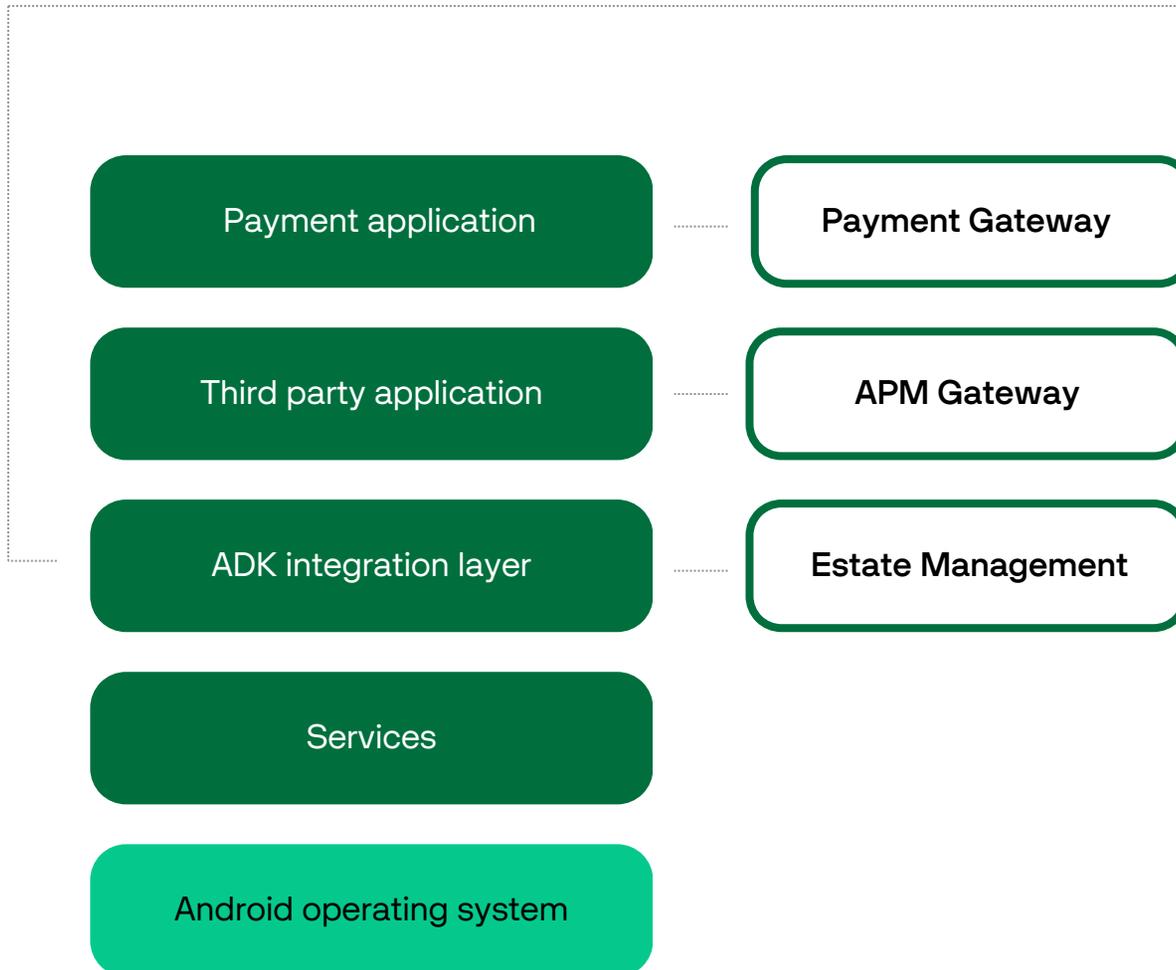

Business success

Verifone's industry-leading solutions align with your needs and consumption models, opening up opportunities to become a critical component of your customers' success. Our partnership program is built to maximise profitability and expertise.

Verifone devices with Android-based OS

Packed with features, functionality, and versatility, Verifone devices leverage the power and performance of a flexible open architecture to transform the POS into rich, two-way conversations.

Verifone Terminals

P630
PIN Pad

Pair with a host device for a complete consumer-facing solution that will be reliable for years to come. Delivering world-class performance, flexibility, advanced security and optional advanced commerce capabilities.

T650c
Countertop

Everything a merchant needs in a countertop device and more. Packed with more speed, an interactive user interface and enhanced security, the T650c provides customers with a unique experience at the point of sale.

T650p and T650m
Portable and Mobile

Experience fast, secure payments in store or on the move with multiple connectivity options - available either with a built-in printer (T650p) or fully mobile (T650m).

Features

Powered by Verifone Secure OS based on Android

High-speed processing & performance

Large storage

Multiple communication methods

Large, high-resolution touchscreen

Stylish, durable, easy-to-use

Rugged, ergonomic design

Fully compliant with PCI 6.x requirements

Drive shopper engagement

Support merchants in boosting customer loyalty and better returns with payment devices with loyalty and personalization capabilities.

Multimedia rich experience

Enable customers to promote seasonal sales, shopper rewards, and more through devices with full-color, rich multimedia displays and familiar interaction flows.

Features that simplify and strengthen operations

Leverage benefits for your company and your customer portfolio. Our ecosystem comes with services and features that make payments a growth driver.

Flexibly future-proof

The Verifone Gateway and our Android-based devices open payment flows to a world of value-added applications and advanced payment methods. Update the terminals anytime to meet changing requirements and evolving customer needs.

Our entire Android range comes ready for the most popular payment solutions – including contactless, mobile wallet and advanced payment methods.

Easy integration

Through just one simple integration, Verifone devices pack all the intelligent software and security required to work as a single device or integrated into an existing POS estate.

Designed to handle all types of environments, our terminals can also be built into vending machines, ticket machines, and similar devices to handle unattended payments.

Top-level security

With advanced software architecture and robust hardware design, our payment hardware offers best-in-class security with end-to-end encryption and tokenisation to safeguard sensitive information.

All devices are EMV-ready and fully PCI 6.0 certified.

VISA

Apple Pay

Google Pay

Klarna.

Acquiring through Verifone Payments

Accepting cashless payments beyond the payment device.

Bundle terminals with Verifone acquiring and deploy off-the-shelf solutions for the entire payment flow. The one-stop integration for all payment needs allows your customers to streamline transaction acceptance across regions.

Extensive portfolios of payment methods can easily be accepted, simplifying workloads with fully compliant solutions, while fuelling growth with centralized transaction reporting and data insights.
